Rev. David B. Matthews of St John's Episcopal church, West Hoboken, N. J., is establishing quite a reputation as a life-saver. He jumped into the river there a few evenings ago and dragged cut a boy, saving the little fellow's life. At the same spot on a previous occasion he saved three boys from drowning and previous to his advent in Hoboken had performed similar feats of daring.

To recover \$5,000,000 in gold believed to lie at the bottom of the East river is the project of the latest "treasure trove" company that New Jersey has produced. The company has been regularly organized with an authorized capital stock of \$250,000. The gold it intends to seek went to the bottom with the British frigate hussar when the vessel foundered opposite Randall's island in 1780.

Chickens are now plucked in wholesale manner by the use of pneu matic machinery. There is a receptacle in which the fowl is placed after being killed, and into this are turned several cross currents of air from electrical fans revolving at the rate of 5,000 turns per minute. In the twink ling of an eye the bird is stripped of its feathers, even to the tiniest particles of down, and the machine is ready for another.

Up to some time ago the Norwegian army was the only one in Europe in which snowshoes were used to any extent. After several years of extensive trials, however, the Austrian minister of war has now equipped sev eral batalions of the imperial trian army with snowshoes. During the maneuvers carried on this year in the Austrian Alps the shoes proved to be of immense advantage to the troops equipped with them.

The Czar has a larger number of physicians in attendance than any other sovereign in the world. There are no fewer than twenty-four, and needless to add, they are selected from among the most celebrated doctors of Russia. There is first a physician-incians and four honorary surgeons, two occulists, a chiropodist and an honorary chiropodist, two court physicians and three specialists for the Czarina.

THREE DEMOCRATIC ISSUES.

On Any or All of Them the Party Can Be Easily Defeated in Fall Campaign,

Ostensibly the democrats will have three issues in the congressional canvass of 1902. Some of their leaders, that is to say, are urging the party to make a fight on trusts, imperialism, and tariff reform. Ex-President Cleveland favored tariff reform in his great harmony speech at the Tilden club dinner, but nobody has been able to find that the recommendation has aroused any enthusiasm except among the democratic enemies of the ex-president, who cast derision upon him for his tariff record, as they do for everything else which he has said or done. Cleveland skipped imperialism, but some of the other democratic magnates pretend they want that for an issue. Trustism, of course, will in for assault in the canvass, says the St. Louis Globe-Democrat.

On all these issues the democracy can be easily beaten. On tariff reform there is no approach to harmony among the democrats. It is certain the country is not seeking any tariff reform or wants any tinkerwith the tariff in any direction. On the trust question the republicans have a far better record than the democrats, for the republicans passed the only anti-trust bill ever enacted by congress, and the republicans enforced that act and are enforcing it now. The republicans will be exceedingly glad to see the democrats bring question of imperialism forward

FOR NOTHING BUT LOOT.

The Sole Purpose of Aguinaldo in Manila Laid Bare by Admiral Dewey.

Admiral Dewey's testimony before the senate committee on the Philippines has been of little comfort to the anti-imperialists. He has failed to regard Aguinaldo as a patriot, and he has upset several of the fanciful theories constructed by the "antis" in their effort to prove that faith was broken with the Filipino leader.

Most surprising of all, perhaps, says the Cleveland Leader, was the admiral's statement that the real surrender of Manila occurred on May 1, 1898, and there was no Spanish resistance after that date. The city was not occupied because there was no American army to occupy it, but the Span-iards refrained from hostilities because Dewey had threatened to destroy the city if they fired a shot. That, of course, disposes of the theory of the "antis" that Dewey asked for and obtained the cooperation of Aguinaldo's army to capture the city The admiral said, furthermore, that or saluted the Filipino flag. He had made no alliance, directly or indirect ly, with the Filipino leader, nor had he ever taken the time to read Aguin-aldo's proclamations. They were simply forwarded to Washington without

hundreds of thousands of new votes for the republicans in the country at

There is no issue in sight on which democrats have the faintest ce to win. The most disastrous of all these three issues for the democrats would be that of imperialism. The people of the United States do not believe that there is any imperialism in the policy which the Roosevelt administration and the republican party in congress are pursuing in the Philip pines. That policy is unquestionably avored by at least two out of three of the 15,000,000 voters of this coun-It is a policy which is to be pursued, and which is to result in greater good for the country than even that which is foreshadowed at the present time. The United States has made immeasurable advances, socially, industrially and politically, in the five years which have passed since the republicans came into power. On its record since March 4, 1897, the republican party can and will win a grand

Mr. Bryan has never had many ear-nest supporters among newspapers of the better class, but the Indianapolis Sentinel has been one of these from the beginning. When the Sentinel finds it advisable to differ with Mr. Bryan and to lecture him on his fatupolicy he should begin to realize that he has few intelligent or influential friends left. The Indiana demo-erats have repudiated the Bryan idea. So have the Illinois democrats. So will the democrats of all other states in which they hope to succeed, but must fight to win. The treatment meted out to our repeadmiral said he became convinced the Filipino leader's purpose soon unbusinesslike methods of Rome is of the Filipino leader's purpose soon after his arrival at Cavite, where he began to take to himself everything he could get from everybody, and the admiral was certain Aguinaldo got the lion's share.

All this, of course, will prove a severe shock to those who have looked upon Aguinaldo as a high-minded patriot, but Admiral Dewey says he thinks he knows Aguinaldo better than even Gen. Otis knew him, and it is likely that he knows more about the wily Malay than all the anti-imperialists put together.

MANY LIVES LOST. RAID ON BALL CLUB

Two Powder Magazines Explode in a Silver Mine.

The Daly-West and Ontario Mines at Park City, Utah, Are Wreeked-Employes Suffocated by Noxious Gases - Severe Shocks.

Park City, Utah, July 17.-Two powder magazines at the 1,200-foot level of the Daly-West silver mine exploded early Wednesday morning, causing much loss of life. Up to a late hour last night 35 men had been taken out of the mine dead, and several others had been recovered in a half-dazed condition. These were all brought out through the Ontario mine shaft which is a mile distant from the Daly-West, in which the explosion oc-curred. The 1,200 level of the Daly-West corresponds to and is connected by tunnel with the 600 level of the Ontario

In the Daly-West mine between 100 and 150 men were at work. In the Ontario were nearly 100. It is not known how many of these are dead, but the disaster extends to the On-tario, as the noxious gases that have been freed are known to be the cause of several deaths. The presence these gases leads many miners to be-lieve that the powder was burned and that the explosion was not the chief cause of the disaster.

There are two powder magazines at the 1,200 level of the Daly-West, one at each side of the shaft, with a capacity of from one to two cars of powder each. A car of powder was added to the supply within the past

few days.
Six dead men have been taken out of the Ontario shaft.

The explosion was so tremendous that it awakened every one within a radius of miles. As an example of its awful force, it is said that two horses in the ore tunnel one and a half miles away were killed by it.

Experienced miners say that John Burgy, the "powder monkey," was a green man, and should not have hand led explosives. A rescue party found a hand and foot, presumably those of Burgy. The majority of the men met deaths from inhaling gas and not from shock.

Negotiations with the Vatican for the Removal of Friars from the Philip-

pines are Unsuccessful.

London, July 17.—The Rome correspondent of the Morning Post declares that the failure of Judge Taft's negotiations with the Vatican is attributed to the influence of the heads of the religious orders, especially to the Jesuit cardinal, Steinhuber, and that the Vatican is considered to have sacrificed a splendid op-

The Daily Chronicle's Rome corre pondent, referring to the closing of Judge Taft's negotiations, says great indignation is felt among the Americans in Rome, who are astounded at the utter want of appreciation the Vatican has shown for American courtesy.

The correspondent reports an interview with an American prelate, in which the latter is quoted as saying: "The Vatican has befooled us and has missed the greatest chance offered for her prestige for a century

an incident in our history which Americans will never forget." Washington, July 17.—One week from to-day Gov. Taft will sail from Italy to Manila. If the Vatican has by that date concluded to accept the terms respecting the sale of the friars' lands and the withdrawal of the friars from the Philippines, the papers will be signed by Gov. Taft. If on the other hand the cardinals' committee, which is dealing with this matter, is unable to accept the terms proffered, or is not prepared to make a final answer, the governor will pro-seed on his way and the negotiations will be suspended.

Massacred a Caravan.

Vienna, July 17.—The newspapers of Vienna report the occurrence of trouble in the Koweit region of Asiatic Turkey. It is alleged that the sheikh of Koweit's warriors massacred a caravan escorted by Turkish soldiers and seized £40,000 which the caravan was conveying as tribute from the sheikh of Nejed to Basra. The warriors then surprised and mas sacred the Turkish garrison and the civil authorities of Elagier. It is re-ported that the sultan will send troops to punish the marauders. The National League Gets Six Baltimore Players.

Scheme Piloted by McGraw—Four of the Ball Tossers Go to New York and the Other Two Will Don the Cincinnati Uniform.

Baltimore, July 17 .- John J. Mc-Graw, representing Andrew Freed-man, and acting, it is believed, as an envoy of the National league, on Wednesday secured a controlling interest in the Baltimore baseball club. At his instance 201 shares of the 400 shares of the stock of the company, representing the holdings of John J. Mahon, were transferred to Joseph C. France, an attorney of this city. Mahon's holdings included the shares formerly owned by Robinson, Mc-Graw, Kelley and Rev. John G. Bo-land, a Catholic priest. The consideration could not be learned.

Six of the Baltimore players were released after yesterday's game. Four of them, Pitchers McGinnity and Cronin, First Baseman McGann and Substitute Bresnahan, left for New York early in the evening. The others, late Manager Kelley and Out-York early others, late annuager Kenry and Out-fielder Seymour, are expected to leave to-day for Cincinnati. Great pressure was brought to bear upon Selbach and Williams to have them sign with National league teams, but they are under two years' contract, and unless they are released will remain in Baltimore

main in Baltimore.

Co-Manager Robinson was not in the city last night, but personal friends say that his playing days are over and that he will take this op-

portunity of retiring from the game. It was reported early in the even-ing that Ban B. Johnson, president of the American league, was in the city, but up to a late hour last night his stopping place could not be locat-ed. Friends who have been in close touch with him, assert, however, that he has been expecting this emergency and claim that he is fully able to meet it.

It is probable that the game sched-uled for to-day with St. Louis will be allowed to go by default in order that the Baltimore franchise may be declared forfeited. Then the company will be reorganized by the present minority stockholders, namely, Vice President Sidney S. Frank, Secretary Harry Goldman and Theodore L. Straus. With the help of President Johnson, who holds a leave on the Johnson, who holds a lease on the American league grounds, it is expected that a full team will be ready to continue the regular schedule by the close of the present week.

Washington, July 17.—President Ban Johnson, of the American league,

expressed but little surprise when in formed that McGraw had secured a controlling interest in the stock of the Baltimore club. He was little in-clined to talk of the future except to say that he would give Baltimore to say that he would give battimore a team with which to finish the sca-son in spite of the schemes of the Baltimore people who, he asserted, had connived at the downfall of the league in selling out their stock to the National league.

Madison, Wis., July 18.—The republicans of Wisconsin finished their work in convention yesterday. Robert M. Lafolette was again chosen to head the republican state ticket, receiving the nomination over John M. ceiving the nomination over John M. Whitehead, by an overwhelming majority. With two exceptions, the ticket as a whole went through, as planned in advance. Those exceptions were the nominations for state treasurer and railroad commissioner

John Kempf, of Milwaukee, won in the contest for state treasurer, by the aid of the stalwart faction, which switched its votes before the ballot was announced. This was the greatest surprise in the convention, as Joseph G. End, of Sheboygan, was looked upon as sure of the nomi-nation. John W. Thomas, of Chippewa, secured the nomination for railroad commissioner over Jonas holt, of Shawano, the slate candidate. in a similar way. Perhaps the most exciting contest of the day was for the place of superintendent of public instruction between Carey and L. D. Harvey, of Madison, Carey receiving nomination.

Supreme Court Sustains the Foot-Ease Trade-Mark.

Ease Trade-Mark.

Justice Laughlin, in Supreme Court, Buffalo, has ordered a permanent injunction, with costs, and a full accounting of sales, to issue against Paul B. Hudson, the manufacturer of the foot powder called "Dr. Clark's Foot Powder," and also against a retail dealer of Brooklyn, restraining them from making or selling the Dr. Clark's Foot Powder, which is declared, in the decision of the Court, an imitation and infringement of "Foot-Ease," the powder to shake into your shoes. Allen S. Olmsted, of Le Roy, N. Y., is the owner of the trade-mark "Foot-Ease." Similar suits will be brought against others who are now infringing on the Foot-Ease trade-mark and common law rights.
