#### TAFT'S WORK IN ROME. THE MINERS' STRIKE FUND.

Archbishop Ireland Says It Paves the Way to an Agreement As to Philip-pine Friars.

St. Paul, July 23.—Archbishop Ire-land, in an interview yesterday re-viewed the progress of the negotiations conducted between Judge Taft and the Vatican, and took to task cer-tain Catholic organizations that had assumed to question the fairness of the administration toward their coreligionists. The archbishop said:

"Yes, the news from Rome is quite satisfactory, and, I am sure, quite correct. Private advices coming to me from the most reliable source confirm, in all respects, the dispatches given by the press. The sovereign pontiff and other Roman authorities are delighted with Gov. Taft personally and with the negotiations in progress between him and the Vati-can. Reports sent out by the correspondents of certain London papers o the effect that the pontiff was dis pleased with the commission of cardi-nals appointed to treat with Gov. Taft were unfounded. The pontiff assurel Gov. Taft that he was happy at the results so far obtained, and that he was confident the negotiations begun in Rome would be the starting point of a complete and satisfactory solution of the question under discussion. "There can be no doubt that the

active co-operation of the Vatican is now secured to the American govern ment in its task of pacification in th Philippines, and that in the result to come the administration at Wash-ington will have ample reason to fe-licitate itself for having sent Gov. Taft to Rome.

And now it is to be hoped there will be among a certain class of Catholics in America a cessation of declarations such as we have had re-Harry Bailey, Marietta, face, neck nd shoulder bruised. Miss Elsie Rosier, Marietta, O., face setting an example well worth copy-

"The agitation, such as it w eertain Catholie quarters did no honor to those who participated in it. As is now proven, they spoke and acted without due knowledge, and, certainly, without proper regard for the government of their country. They should first have been absolutely certain that injustices had been done to their co-religionists and, next, if injustices had been done, they should have sought a remedy for them by appeal to the proper of-ficials before raising in public irritating clamors.

'His words ought to signify something to those who profess to take him as their guide. At any rate the direction of Catholic affairs is his business, not that of irresponsible church societies or newspaper edi-tors; and when he informs Catholics that any one matter is in his honds they ought promptly to step aside, and allow him to have charge of it. The question of religion in the Philippines is now his own, and it should considered as such.

"There should have been no haste There should have been no haste to lay blame upon the government which has been doing its best to bring order out of chaos, and, above all, no charges should have been made against the intentions of the government. It was rankest, rashness and rankest injustice to intimate that the government intended to proselyte in the Philippines, or to do aught to detach the inhabitants from the Catholic faith."

## Gen. Glenn Claims That Its Use Was Necessary.

## Filipino Societies Put Poison in the Drinks Sold to Our Soldiers They Also Poisoned Their Arrows and Spear Tips.

Washington, July 26 .- Copies of Manila papers received at the war department contain the defense of Maj. Edwin F. Glenn, who was tried by court-martial on the charge of having administered the water cure to Filipino natives. The particular case Filipino natives. The particular case upon which great stress was laid was that of the presidente of Igbaras. Glenn acknowledged the act, but justified it on the ground that he wanted the papers possessed by the presidente and which he obtained by the water aura application Visi Clu the water cure application. Maj. Glenn in his plea says:

"I found very soon after my ar-rival in Panay that every man's hand was against us, that every man, wo-man and child in the islands was an enemy, and in my best judgment they are to-day and always will be. Prac-tically every presidente and other official was playing double. They or-ganized and were members of a se-cret society known as the Katipunan, whose avowed objects were to vance the cause of "Independencia" in any and all ways, and under this high sounding phrase they made use of every means forbidden by the laws of war. These men of peace waged war by killing straggling American soldiers.

"They made use of poison in the drinks sold to American soldiers. They poisoned their arrows and the tips of their spears and bolos, to-gether with the bamboo tips placed in the deadly traps that abounded on the trails. They hired assassing to kill those who were even supported American officers assassinated. They openly stated in the island of Bohol that they would gladly sacrifice 20 natives for every American officer as-sassinated. They employed corps of assassins, who spread death and ter-ror in their wake."

Najor Glenn gives the details lead-ing up to the administration of the water cure to the presidente, the facts of which were brought out in the senate Philippine investigation. He declares he "did no more than any other man with good sense would have done." I am convinced that my action resulted in hastening the termination of hostilities, indirectly re-sulted in saving many hundreds of lives and directly injured no one."
