More irrigation canals have been constructed, and more money for irrigating plants has been expended in the state of Louisana during the past two years than in any state in the arid region.

A company is being formed to exploit an ice-mine near Flagstaff, Ariz. Large quantities of ice are situated in a cave near that town and it is believed the product can be sold at a handsome profit.

While the democrats, in Congress and out, are caviling at the Ship Subsidy bill, the Canadians are offering large premiums for the establishment of a trans-Pacific steamship line with which they hope to secure control of the trade of the Orient.

Senator Platt, in a recent interview, revealed the secret of his political success. Speaking for the benefit of young politicians he said, "Never give anyone the right to say that you have broken your word to him. Be careful about making a promise, but when you have once passed your word stick to it though it may be to your own detriment.'

President Roosevelt stated, before he departed for Oyster Bay, that he desired a complete rest and hoped to get it in his summer home. While he is "resting" he is receiving the more prominent men in political life, rendering the more important decisions in executive matters and preparing a large number of speeches to be delivered on his fall trip-a fair summer's work for the ordinary man.

When Mr. Shaw became Secretary of the Treasury there was an employe on the rolls whose duties were so varied and multitudious that he was regarded as indispensible, notwithstanding the fact that he went on frequent sprees. One day, Mr. Shaw inquired what would de bone if "Mike" were dead and the reply was that "supposed they would have to get along. consider him dead so far as this department is concerned," said the Secretary.

The Boss Worm Medicine.

H. P. Kumpe, Druggist, Leighton, Ala., writes: "One of my customers had a child, which was sick, and threw up all food, could retain nothing on its stomach. He bought one bottle of White's Cream Vermifuge, and it brought ap 119 worms from the child. It's the ss worm medicine in the world." White's Cream Vermifuge is also the children's tonic. It improves their digestion and assimilation of food, strengthens their nervous system and restors them to the health, vigor and clasticity of spirits natural to childhood. 25e at L. Taggart's.

WASHINGTON LETTER.

(From our Regular Correspondent.) Washington, July 28th, 1902.

That the United States will have cable communication with Hawaii by the first of January, 1903, and with the Philippine Islands, and presumably with Guam, by two years later is regarded as practically certain by Government officials in Washington. The sudden death of Mr. John W. Mackey caused, for a time, some uncertainty as to the future of the Commercial Pacific Cable Company, but the vice president of that company has been in Washington this week and has assured Attorney General Knox that the death of its president would in no way interfere with the execution of the plans of the company. So satisfied is the Attorney General with the representations made by vice president Ward that he will leave to-day or to-morrow for Oyster Bay where he expects to secure the President's approval of his intention to officially sanction the operations of the Commercial Cable Company and probably his consent to turn over to that company the cable survey made some time ago by a United States naval vessel.

The guarantees which have been exacted from the Commercial Pacific Cable Company by the Attorney General are the occasion of much satisfaction to the administration as they appear to insure liberal treatment of the government and of commercial interests, while they do not bind the government in any way. By their provisions, the company is bound to charge not to exceed 50 cents per word between Honolulu San Francisco and to reduce that rate to 35 cents per word after the cable has been in operation for two years, and to charge not to exceed \$1 per word between Manila and China and the United States and to charge the government for official business but half of these rates. Numerous other guarantees are furnished, all making for just treatment of governmental and commercial paparons. The only objection to the plan of the company lies in its presumable recognition of the claims of a Spanish company which contends that, by virtue of an antebellum grant, it possesses a monopoly in the Phillippines which will entitle it to charge a royalty on all messages sent there. It is further feared that the Commercial Company intends to recognize, in a similar manner, the monopoly granted to a European company by the Chinese government, which monopoly is regarded as a violation of the treaty rights of the United

States. Considerable anxiety is expressed at the State Department in regard to the case of one Captain Rosehill who claims, by right of priority of discovery, that he is the proprietor of a guano island in the Pacific, known as Marcus Island and situated 800 miles east of Yokohama. Some citizen or citizens of Japan claim the island on the same ground and, while Captain Rosehill has left this country post haste to take possession of the island, the Japanese government has learned of his intetion and has dispatched a war ship to protect the alleged rights of her citizens. The State Department affirms its confidence that a peaceful and equitable solution of the question can be arrived at provided the Captain is not to precipitate in pressing his claim, but, should he attempt to try conclusions with the warship, there is little doubt that he would emerge from the engagementa loser and it is possible that the United States might find the relations between itself and Japan severely strained in an effort to secure adequate damages for the destruction of an American ship and an Ameri-

One of the most peculiar features about manufactured silk is the rustling sound familiar to every woman. In the silk trade they call it the "cry" or sometimes the "scroop." Of all textiles silk is the only material which possesses it.

As everybody knows, the sound is heard especially when silk is subjected to friction. What is not so generally known is that the quality is found in silk yarn before it is woven. A skein of silk, unless it has been so treated as to kill this property in it, will when opened up emit the noise slightly. When the skein is squeezed in the hand, the sound becomes quite audible.

The "cry" is considered a very desirable quality in silk. Dyers try to develop it as much as possible.

Unexpected Applause. Shortly after Mr. Wilson Barrett joined the theatrical profession he became a member of a company performing at the old Theater Royal, Dublin His part, naturally, was a small one, and, greatly to his surprise, his first speech was greeted with a round of applause. This unlooked for tribute elated the young actor, and he exerted himself to sustain the good impression he appeared to have made. Just as he was leaving the theater one of the scene shifters grinningly accosted him and said, "Sure, it's got about among the bhoys that ye're a brother of the man that was hung!" A Fenian named Barrett had that morning paid the extreme penalty of the law.

An Absurd Custom In Vienna. In Vienna every man's home is his dungeon from 10 p. m. to 6 a. m. Vienna is a city of flats, and at 10 p. m. the common entrance door of each block is closed and bolted. Thereafter persons passing in or out must pay a fine of twopence to the concierge until mid-night and fourpence from that hour to 6 a. m. To go out to post a letter costs twopence and the same amount to re-turn. To prolong a visit to a friend after 10 p. m. means twopence to get out of his house and twopence more to enter your own. A natural result of this irritating tax is that of all capital cities Vienna is earliest to bed.

Very Remarkable Cure of Diarrhoea "About six years ago for the first time in my life I had a sudden and severe attact of diarrhoea," says Mrs. Alice Miller, of Morgan, Texas. "I got temporary relief, but it came back again and again, and for six long years I have suffered more misery and agony than I can tell. It was worse than death. My husband spent hundreds of dollars for physicians' prescriptions and treatment without avail. Finally we moved to Bosque county, our present home, and one day I happened to see an advertise-ment of Chamberlain's Colic, Cholera and Diarrhoea Remedy with a testimonial of a man who had been cured by it. The case was so similar to my own that I concluded to try the remedy. The result was wonderful. I could hardly realize that I was well again, or believe it could be so after having suffered so long, but that one bottle of medicine, costing but a few cents, cured me." For sale by L
