We Have What You Need!

To brush up and make beautiful your home. The season of the year for such work has arrived and we would call the attention of the public to our very large and reliable line of Paints, Oils, Varnishes, the best in the world. In addition to the best paints, we have a first-class line of De Voe & Co.'s Brushes. Get a move on and be prepared to paint before the workmen are all engaged. We can save you money.

While you are painting your home or business place let us talk a little with you on Bath and Closets, Hot Water, Steam or anything in that line. Our increased facilities and expert workmen will do you good work. Don't delay until too late.

Farmers should bear in mind that we handle Plows, Harrows, Rakes, etc. In fact our Hardware, Stove and Plumbing Departments are up to the best.

Write or wire us, when a competent agent will call on you.

In a Glass of Water.
Put a handful of glazed coffee in a glass of water, wash off the coating, look at it; smell it! Is it fit to drink? Give **LION COFFEE** the same test. It leaves the water bright and clear, because it's just pure coffee.

The sealed package insures uniform quality and freshness.

A Emporium Woman Asks
"Have you a floor paint that will last two weeks?" "Yes we have Devoe's; it has a beautiful gloss, and will wear two years if properly applied. Murry & Coppersmith."

A professional beggar stopped people on the street in Williamsport the other day and asked for a little something to help him get a Panama hat.

No False Claims.
The proprietors of Foley's Honey and Tar do not advertise this as a sure cure for consumption. They do not claim it will cure this dread complaint in advanced cases, but do positively assert that it will cure in the earlier stages and never fails to give comfort and relief in the worst cases. Foley's Honey and Tar is without doubt the greatest throat and lung remedy. Refuse substitutes. L. Taggart.

Two Bottles Cured Him.
"I was troubled with kidney complaint for about two years," writes A. H. Davis, of Mt. Sterling, Ia., "but two bottles of Foley's Kidney Cure effected a permanent cure." L. Taggart.

Treat your Kidneys for Rheumatism.
When you are suffering from rheumatism, the kidneys must be attended to at once so that they will eliminate the uric acid from the blood. Foley's Kidney Cure is the most effective for this purpose. R. T. Hopkins, doctoring three years for rheumatism with the best doctors. I tried Foley's Kidney Cure and it cured me. I cannot speak too highly of this great medicine. L. Taggart.

If you value your friends you should never offer them advice.

Repulsive Features.
Blackheads, pimples, greasy faces and muddy complexion, which are so common among women, especially girls at a certain age, destroying beauty, disfiguring and making repulsive, features which would otherwise appear attractive and refined, indicate that the liver is out of order. An occasional dose of Herbine will cleanse the bowels, regulate the liver and so establish a clear, healthy complexion. 50c. at L. Taggart's.

Many a reputation has been made by a hustling press agent.

Jangling Nerves.
Are you irritable? Do you sleep badly? Is it hard to concentrate your thoughts? Is your appetite poor? Do you feel tired, restless and despondent? Try Lichty's Celery Nerve Compound. It will do you more good than anything you have ever tried. Sold by L. Taggart.

Krause's Headache Capsules
Were the first headache capsules put on the market. Their immediate success resulted in a host of imitations containing antipyrine, chloral, morphine and other injurious drugs, purporting to be "just as good." Avoid these imitations and insist on your having Krause's, which speedily cure the most severe cases and leaves no bad after effects. Price 25c. Sold by L. Taggart.

Additional Local News.

Engineer Frank Sisco, of Clinton, Ia., who has just been placed on the pension list of the Chicago & Northwestern Railroad company, has one of the most remarkable records of any locomotive engineer in the world. For forty-two consecutive years he was employed as an engineer on the Northwestern road.

Engineer Sisco has kept an accurate account of the miles he has travelled. The total figures up to 1,402,296 miles. Had he covered 25,403 more miles, he would have travelled far enough in his cab to have made three round trips to the moon. Had his engine always headed in the same direction he would have circumnavigated the globe fifty-six and a half times. If 206,725,445 men of the height of Mr. Sisco were to stand, one on top of each other, they would tower 1,252,354,670 feet in the air, representing the distance covered by him in an engine.

Taking thirty-four feet as an estimated length of a freight car, he would have pulled a train of 217,768,476 cars, and estimating the average at thirty tons for each car, he would have pulled 6,533,054,280 pounds of freight. At the rate of four cents a mile, he has drawn from the Northwestern Railway company, \$56,091.88.

During all these years Engineer Sisco has not had an accident of any consequence.

A Free Scholarship.
Any young man or woman who is a bona fide patron of this paper may secure free instruction in Music or Elocution.

The Ithaca Conservatory of Music, with the desire to stimulate the study of these arts, offers fifty free scholarships—valued at \$100 each, and good for the term of twenty weeks beginning with the opening of the school year, September 11, 1902, in any of the following departments: Voice, Violin, Piano, Organ and Elocution. These scholarships are awarded upon competition which is open to anyone desiring a musical or literary education. Anyone wishing to enter the competition or desiring information should write to Mr. George C. Williams, the General Manager of the Ithaca Conservatory of Music, Ithaca, N. The Doe and the Jackdaw.
In Severnside forest I once witnessed a very pretty little scene. I noticed a doe lying down by herself in a grassy hollow, and as I passed her at a distance of about fifty yards it struck me as singular that she kept her head so low down that I could only see the top of it on a level with her back. Walking round to get a better sight, I saw a jackdaw standing on the turf before her, very busily pecking at her face. With my glass I was able to watch her movements very closely. He pecked round her eyes, then her nostrils, her throat and in act every part of her face, and just as a man when being shaved turns his face this way and that under the gentle guiding touch of the barber's fingers and lifts up his chin to allow the razor to pass beneath it, so did the doe raise and lower and turn her face about to enable the bird to examine and reach every part with his bill. Finally the daw left the face and, moving round, jumped on the deer's shoulders and began a minute search in that part. Having finished this, he jumped on to the head and pecked at the forehead and round the bases of the ears. The pecking done, he remained for some seconds sitting perfectly still, looking very pretty with the graceful red head for a stand, the doe's long ears thrust out on either side of him.—Birds and Man.

Amazon Ant Gardens.
Dr. E. Ule contributes to Engler's Jahrbuch (supplement 20) some interesting observations on "ant gardens" in the Amazon region, where they are found on a large number of goody plants. They are generally spherical in form and about the size of a walnut. They are formed by several species of ant, which appear to collect the seeds of many different plants and to sow them in these nests, covering up the seedlings with humus when they begin to germinate. In the structure of these "ant epiphytes" the foliage and the roots display characters which especially adapt them for the situation in which they grow and promote also the protection of the ants themselves in their nest. Quite a number of the epiphytes were found as denizens of the ant gardens and nowhere else.

The Biggest Not the Best.
A New York dealer who has handled shiploads of fruit said recently: "It is often amusing to see men, women and children picking out, as they believe, the choicest fruit at the market stands. If there are a half a dozen large oranges within sight, they will have them, even if it is necessary to overturn all the rest in the box or barrel, and this is true with most all other varieties that are sold by the piece or dozen. They invariably get the poorest specimens of the whole crop and yet are not aware of it. Very rarely you will find a person who is a good judge who will at once size up the heaviest oranges, lemons or bananas, regardless of size, and they capture the choicest fruit."

Why Two Ears Are Necessary.
Sound travels by waves radiating from a central point of disturbance, just as waves radiate when a stone is dropped into still water. So far as the hearing of each individual is concerned these waves move in a direct line from the cause of the sound to his ear, the impact being the greatest in the ear nearest to the source. This being the case, a person who has totally lost the sense of hearing in one ear, although he may imagine that the defect is of little consequence, cannot locate the direction of a sound to save his life, even when the center of disturbance is quite near him.

A Literary Light.
A short time ago a well known writer of London, remembering that he had never read the non-canonical books, went out in search of a copy and in one bookshop after another drew blank. At last he went to his own particular newspaper shop, which also dealt in Bibles and light literature. "Have you the Apocrypha?" he asked. For a moment the young woman behind the counter was puzzled; then, brightening, she said, "Is it a weekly or a monthly?"

When the Eyes Stick.
Inflammation of the conjunctiva, or membrane which shields the front of the eyeball from the air and takes the rub of the eyelids, is indicated by the glued state of the eyes in the morning and more especially by their bloodshot condition, the vessels being bright red in color and winding about in great irregularity, with no discernible order or plan.

What "Port Your Helm" Means.
In this country the helm is put to the port side of the ship or left hand side looking forward at the order, "Port your helm." The rudder of course goes to starboard, and the ship's head moves to starboard. This is the rule of most nations, but in Sweden the reverse is the rule.

The Girl From the Scientific School.

Some People Have Remarkd.
That the merchant who advertises in the PRESS receives good results.
That the new battleship Maine has a fine pair of heels, which she will not show to an enemy.
That people who have no respect for the feelings of others are generally the most sensitive as to their own.
That people who abuse the newspaper man the most very often owe their standing in society to his forbearance.
That the President's great hand-shaking tour will enable him to feel the pulse of the country to a considerable extent.
That a crank is always trying to understand something that he can't prove, or prove something that he can't understand.
That a man's most profitable employment is a disposition to cultivate politeness; it costs nothing and makes a host of friends.

That it is scarcely fair for anyone to offer any protests against this weather, though the sun do be firing up a little bit; that in hot weather especially it pays to take things coolly.
That no matter how the Democratic party in this State may state its paramount issue during the present campaign the real meaning will be "Down with Republican prosperity."
That the Democratic editor would have you believe that he is vigorously fighting the trusts, but when you have read his argument you find that he is only fighting for free trade and free silver.

Cures Sciatica.
Rev. W. L. Riley, L. L. D., Cuba, New York, writes: "After fifteen days of excruciating pain from sciatic rheumatism, under various treatments, I was induced to try Ballard's Snow Liniment, the application giving my first relief, and the second, entire. I can give it unqualified recommendation. 25c, 50c and \$1.00 at L. Taggart's."

Here is a pointer: Don't get angry because it is the common error in wrath to abuse the wrong person.

"The Hound of the Baskervilles"
In The Philadelphia Press.—Sherlock Holmes' greatest piece of detective work is done in the new story by Dr. A. Conan Doyle. "The Hound of the Baskervilles." Holmes himself says to Watson, his co-worker. "Here at last is a fœman worthy of our steel." The result is a story which, for thrilling interest, stands by itself. From the first discovery of the hound's trail, when the dried-up young doctor brings to Sherlock Holmes the ancient manuscript, to the final scene where the great detective is brought face to face with the monster of the moorland, there is not a sentence that does not carry the reader breathlessly forward. It is a great novel, with a great subject, by a master of the craft. This thrilling story begins in "The Philadelphia Press" Sunday, July 6. Be sure not to miss it. 19-4t.
