EDITORIAL OPINION.

A unified party led by an honest and energetic leader is the goal towards which the Republicans of the United States are travelling.

The Atchison, Topeka & Santa Fe Railroad have advanced the pay of 6,000 of their men from 5 to 15 per cent, which is additional evidence of republican prosperity.

The Democratic party evidently needs one more stinging rebuke at polls in order to wean it from its free-silver folly—and the Republican party is ready to administer that rebuke.

Minister Wu will undoubtedly remain in Washington until next year on account of important duties connected with the State Department in connection with the payment of the Chinese indemnity.

Twelve per cent of the manufactures of the United States are produced by trusts and against one of those the administration is conducting a suit with every prospect of success.

Senator Cullom, of Illinois, paid a recent visit to Washington, and while there impressed upon his friends that the two questions foremost in the minds of the voters of his State are Cuban reciprocity and tariff revision.

When the American machinist concludes that he would rather work for \$1.46 per day, the wages paid machinists in Glasgow, than for \$2.25 per day, the wages paid machinists in New York, he will cast his vote for Democracy and free trade.

The American Shipbuilding Company, of Chicago, announces that the various yards of the company are filled to overflowing with orders for work.

The Water Motor & Power Company, with a capital stock of \$1,000,000, will soon begin the erection of an extensive power plant at Great Falls, on the Virginia side of the Potomac, about eighteen miles above Washington.

It has been given out that Powell Clayton, Ambassador to Mexico, denied to the State Department that he owned any stock in Mexican mines, but the facts made known by an official letter from him explain that he took charge of some stock belonging to a female relative for its better protection.

There is no consistent reason why every Republican cannot support Judge Pennypacker for Governor at the coming election. There is no excuse whatever for members of that party to pull away to the support of Pattison. In fact, there is no excuse for Pattison, if, indeed, there ever was. No word of reproach can be truthfully uttered against the eminent Philadelphia judge who will be the Republican standard bearer.

No Gloss Carriage Paint Made Will wear as long as Devote's. No others are as heavy bodied, because Devote's weigh 3 to 8 ounces more to the pint.

A newspaper which is representative of popular feeling in the West, and which is published close to Mr. Bryan's home, takes this view of the opportunity the Democrats have for success in the country this fall:

"Edward M. Shepard has confidence that the questions which are before the country in the congressional canvass of 1902 will be 'settled right.' This is where the majority of the American people agree with him.

The little old man fiddled very hard as he stood near the curbstone in Twenty-third street. The passersby looked at him curiously.

Experience of a Doctor in Prescribing For a Patient.

An anonymous physician who has written some "confessions" for the Independent tells this story about himself:

"I received a request to call from an old patient who was afraid she was taking scarlet fever. I responded at once. The patient was one of two elderly sisters whom I had attended for many years.

"I want you to know that I take pride in my original methods. I try to educate my patients to like, and not to dread, the visits of the doctor.

"She looked surprised, and then said: 'Of course you will come upstairs and see my sister?'
