UNCLE SAM'S POLICY.

President Roosevelt Points to New Position Assumed.

Praises Civil and Military Officials and Speaks for Prosperity in Insular Possessions—Wardens' Achievements.

While visiting Hartford, Conn., Friday, August 22, President Roosevelt spoke in the evening at the Coliseum to an assemblage of 5,000 people, taking as his principal subject the attitude of the administration towards the new insular possessions and Cuba.

"From the days of Monroe, Clay and the younger Adams, we as a people have always looked with interest upon the West Indies and the isthmus connecting the two Americas, feeling that anything happening in those regions must be of concern to our welfare.

"So excellent have been the effects of our administration and legislation concerning this island that their very excellence has resulted in their being almost forgotten by those at home. There is hardly a ripple of failure on the shores of our success and so, as it is to be our way, we do not think of it at all.

"The Cuban problem was larger, more complicated and more difficult. Here, again, we kept our promise absolutely. After having delivered the island from its oppressors, we refused to turn it loose without the certainty that it would sink into chaos and savagery.

"In Cuba the problem was larger, more complicated and more difficult. Here, again, we kept our promise absolutely.

"Cuba must always be peculiarly related to us in international politics. She must be international affairs by a direct part of our political system. In return, she must have peculiar relations with us economically.

"The isthmian canal represents what is probably to be the greatest engineering feat—the greatest feat of the kind—of the twentieth century.

MR. FOULKE EXPLAINS LAW.

The President of the Civil Service Commission Addresses a Letter to Officeholders and Tells Them Just How Far They Can Go.

Washington, Aug. 30.—Acting President Foulke, of the civil service commission, has addressed a communication to all the executive departments in regard to the part officeholders may take in politics.

"The influence of federal officeholders should not be felt in the manipulation of political primary caucuses and nominating conventions. The use by these officials of their positions to compass their selection as delegates to political conventions is indecent and unfair.

"The communication states that this order has never been repealed, but has been declared by President Roosevelt to be still in force.

"In consideration of this, the communication says, the man in the classified service, while retaining his right to vote as he pleases and to express privately his opinion on all political subjects, should not take an active part in political management or in political campaigns.

"I do not refer to the Moros, with whom we have exercised the utmost forbearance, but who may force us to chastise them if they persist in their lawless ways. Among the Filipinos proper, however, peace has come. Doubtless here and there sporadic outbreaks of brigandage will occur from time to time, but organized warfare against the American flag has ceased and the reason is that the Philippine army in the islands has been reduced until it is not a fourth of what it was at the time when the outbreak was at its height.

"I do not refer to the Moros, with whom we have exercised the utmost forbearance, but who may force us to chastise them if they persist in their lawless ways.

"I do not refer to the Moros, with whom we have exercised the utmost forbearance, but who may force us to chastise them if they persist in their lawless ways.

FORTS MUST BE READY.

Coast Defenses to Be Placed in a Position for Immediate Action in Case of Danger.

Another step toward putting coast defenses in an efficient condition will be taken in a few days. Gen. W. E. Randolph, chief of artillery of the army, who was president of the board which recently attempted to examine the gun carriages at coast forts, has made a recommendation which he believes will have practical results.

"To do this he has urged that he be allowed to designate the periods of target practice with great guns at various forts. He proposes that not more than one day's notice will be given when such target practice will commence. Gen. Randolph says that this will serve to keep the forts in an efficient condition.

Under the prospects of being called upon on such short notice to do important work, which will demonstrate the efficiency of a post fort, the commanding officers will be compelled to maintain a state of readiness. If such a system prevailed, Gen. Randolph has pointed out to the departmental authorities that it would not be possible for a board of inspectors to visit a coast fort and find the mechanism displaced, and, as was the case at one post, some of the tools necessary in the operation of the guns lost beyond recovery short of many hours' search.

This evidence of carelessness has been impressed upon the official observers recently, and they are determined that some energetic measures shall be introduced so as to keep the coast fortifications in a state of efficiency. They insist that the guns should be ready on the shortest notice or the function of the coast fort will be lacking.

KILLS HAY FEVER.

Physicians Claim that Heavy Rainfall Decreases Prevalence of the Disease.

Unless a sudden drought descends on this region there will be no sign of hay fever sufferers from Illinois this summer. The continued wet weather, which has been an annoyance to many people, will turn out a benefactor to hosts of others, according to the opinion of physicians, who predict that the heavy rains will act as an effectual preventive of the annual hay fever attacks, says the Galesburg (Ill.) Evening Mail.

This condition of affairs will have its effect on hotel keepers at the northern lake resorts. Every August thousands of unfortunate victims of hay fever seek relief in the woods, where they can find company for their misery, and escape the comments on their personal appearance which heartless immunes take every opportunity to make. Several hundreds of the victims who throng the small lake and beach resorts of upper Michigan each year go from Chicago. Most of the others make the journey northward by way of Chicago, and the steamship companies reap a rich harvest all during August from the increased amount of travel for many of the best places of refuge are inaccessible save by boat.

Heavy heating rainstorms drive the pollen into the ground where it is held by the moist earth. The few cases which will develop this year under present conditions will be confined to those caused by other agencies than flower pollen. Local nasal deformities and asthmatic tendencies will bring on the dread affliction to many people but the majority of the annual victims are destined to escape unless it stops raining.

Antitoxin Cures Lockjaw.

Physicians connected with Harlem hospital New York, have announced the recovery from lockjaw and discharge from that institution of Joseph, a son of "Silent Mike" Tierman, who was for many years a member of the New York baseball team. On the fourth of July he shot himself in the hand with a blank cartridge. He was taken to the hospital. Lockjaw was developed, and it was decided to inject antitoxin into the spinal cord, and not into the brain, as in previous cases. The injections were made between the first and second lumbar vertebrae. On the fifteenth day the jaw relaxed.

A Question for Women's Clubs.

"The young woman," says the narrative of a local tragedy, "threw her arms into the air and fell. The street was crowded with shoppers, who fled in all directions." Just why shoppers, mostly women, should run in terror from another woman in distress and leave a man to aid her fight, exclaims the Chicago Inter Ocean, is a question which it would seem some of the women's clubs might profitably discuss.

Well Named.

A Kansas man has named his baby daughter E Pluribus Unum. He isn't as crazy, however, as might at first be supposed, says the Chicago Record-Herald. She is his eleventh and the other ten are living.

What Carnegie Calls Work.

Carnegie has been telling people over in London that it is hard work to give money away, says the Chicago Record-Herald. Still, we could mention several professions that are harder.

A Drop that was Fatal.

St. Paul, Minn., Aug. 30.—Mrs. C. R. Marsh, of Holland, Vt., was killed Friday by falling from a second-story window of the Kendall hotel. She was 72 years old and had been ill for some weeks.

TO MOTHERS

Mrs. J. H. Haskins, of Chicago, Ill., President Chicago Arcade Club, Addresses Comforting Words to Women Regarding Childbirth.

"DEAR MRS. PINKHAM:—Mothers need not dread childbearing after they know the value of Lydia E. Pinkham's Vegetable Compound. While I loved children I dreaded the ordeal, for it left me weak and sick

for months after, and at the time I thought death was a welcome relief; but before my last child was born a good neighbor advised Lydia E. Pinkham's Vegetable Compound, and I used that, together with your Pills and Sanative Wash for four months before the child's birth;—it brought me wonderful relief. I hardly had an ache or pain, and when the child was ten days old I left my bed strong in health. Every spring and fall I now take a bottle of Lydia E. Pinkham's Vegetable Compound and find it keeps me in continual excellent health."

Care and careful counsel is what the expectant and would-be mother needs, and this counsel she can secure without cost by writing to Mrs. Pinkham at Lynn, Mass.

ABSOLUTE SECURITY.

Genuine Carter's Little Liver Pills.

Must Bear Signature of Aunt Good.
