#### EDITORIAL MENTION.

The Democrats assert that tropical colonies have never been commercially successful, yet the tropics of the globe are governed by temperate zone nations.

More American manufactures have been exported during the past fiscal year than during the entire period the Democrats controlled the government of the United States.

The Democrats maintain that the Fhilippine war was needless. True we could have abandoned the Islands to the German Admiral who annoyed Dewey, but then Dewey was not built that way.

Possibly one reason why the Democrats are so opposed to the Philippine policy of the Administration is because the "Commoner" pictured a Macabebe scout as a full blooded negro.

Criminal aggression against the Filipinos consists in building ports, roads and schoolhouses, in insisting on sanitary measures, in providing a low equitable tariff and in aiding them to learn the art of self-government.

A million dollars worth of opium recently arrived at San Francisco. The Democratic leaders might be able to see a victory in November next if they could only procure that consigment for use in their own pipes.

The tours being made by President Roosevelt are splendid object lessons in patriotism and cannot help doing much good. His pride in being made an "Honorary Locowill go far towards combating the population into two hostile camps -into capital's camp and labor's camp—the camp of the classes and the camp of the masses.

## Lookout for Congress.

The Republicans of the country, says the Bucks County Gazette," will have to be more watchful than usual in this off political year if they do not lose their majority in the lower House of Congress. The new apportionment in several Southern States will turn numerous districts over to Democrats and it is figured that the Republican ma-23. The Democrats think they

As Others See Us. Pennsylvania in the recent past has been subject to so much adverse comment in other States that it is interesting to note how the present situation is regarded. The New York Sun, in discussing the political situation in the State has something to say concerning happenings behind the scenes. The Sun sees in Pattison merely an ambitious politician whose friends would seek to enter him for the Presidential race if by any strange chance, "volcanic upheaval," the Sun calls it, he should be elected. The Sun believes that Pennypacker will not look beyond the office of Governor and will "perform its important duties upon the same principles that always governed him in his private and public life-It is always safe to do what is right." The views of the Sun concerning the character and motives of the two candidates are especially interesting. They indicate that in the Sun office, at least, the nomination of Judge Pennypacker is regarded as a fortunate circumstance for the Republican party and for the people of Pennsylvania. But the Sun makes other comments equally interesting. It devotes a little attention to Guffey as the of reform. It says of Guffey that "his eagle eye is fixed upon the Senatorship as eagerly as the eye of his political followers is fixed upon his barrel filled to bursting. Guffey has no idea that Pattison will get any nearer to the Governorship than Singerly did eight years ago, when he proclaimed for the Democratic principles and policies from the Delawere to Lake Erie-the louder and longer he talked the higher rose the majority of his opponent, until it reached

discussing the Philippine Civil Government Bill, in the United States Senate last May said it was a monstrous piece of legislation because it would not permit more than 5 per cent. of the people in the Islands to vote. The Southern Democrats endorsed the views of the Colorado Senator. But what shocks the Democratic Senators in the Philippines does not disturb them at home. South Carolina, motive Fireman" was evident and the State of Tillman, and Mississipgenuine. Actions of this character pi, the State of Money, hold elections year after year and claim to Democratic endeavors to divide our be among the oldest States in the Union, but neither of these States cast enough votes in 1900 to equal 4 per cent. of the population. The vote of South Carolina was about last year the value was more than 3.6 per cent. of the population, double that of 1896. These are the while the total vote of Mississippi was equal to 3.8 per cent. of the population. In South Carolina, where Tillman boasts that they have a white man's government, there were, according to the census of 1900, 130,375 white males of voting age, and the total vote of the State in that year was only 50,-815, or a little more than one-third jority in next House will be only of the white men of voting age in the State, and only one-fifth of the see a chance to wipe this out by men of voting age. Bacon, another critic of the Philippine bill, only 5 per cent. of the population voted in 1900; in Texas it was 13 per cent; in Virginia 14 per cent; while in Ohio there was 25 per cent of the population recorded as voting in 1900; in New York 21 per cent; and in Illinois 23 per cent. It is from Georgia, Alabama, South Carolina and Mississippi that solid Democratic delegations will be elected in November. South Carolina will elect Congressmen and Mississippi will elect eight with fewer votes than are required to elect one member of the House from Ohio, Illinois or New York. It is this unequal representation which makes necessary a harder fight in every Northern State to prevent the South from controlling Congress.

Why Democrats Are Sad.

The St. Paul Globe, like other Democratic Organs of the West, is discouraged by the good crops, and good prices that make the farmers prosperous, and unwilling to listen to the wail of the calamity howler. The Globe asks:

"Is the rain fall due to Dingley tariff schedules or to New Jersey trust extortions? If the ballot of the American citizen can be controlled by the rainfall and the crop earnest and disinterested advocate vield, where is the boasted intelligence and independence of the Republic?"

The Globe and all other Democratic organs should remember President Cleveland's maxim: 'It is a condition and not a theory which confronts us." The American people are capable of judging theories by conditions, and while the rainfall has brought forth good crops this year, the same was true in 1896 and the farmers were not prosperous or happy. In that last year of Democratic administration 250,000. Guffey and Pattison have and low tariff schedules in the planned to avoid Singerly mistake Wilson-Gorman law, the rainfall in 1894, and instead of rending the was good and the corn crop the mountains for Democratic princilargest in the history of the country, ples they will proclaim against either before or since that date, un-Republican "imperialisn" and Reless this year's crop shall surpass it. We produced 2,283,875,165 publican policies, and it is current belief that the more Pattison talks bushels of corn in 1886 and it sold on that line the more and more will at an average price of 21.5 per Guffey's chances for a seat in the bushel at the farm, making the United States Senate shrink and total farm value of the crop \$491,wither like a beautiful and fragrant | 006,957. In 1901 the apparent as the campaign proceeds. average price of corn at the farm was 60.5 cents, and the total farm value \$921,555,768. The rainfall is not the only agency for pros-

perity even on the farm. The wheat crop was much smaller in 1896 than in 1901 but it did not bring increased price due to its scarcity, because there was a scarcity of labor and wages to purchase wheat bread. In 1896 the wheat crop amounted to 427,684,346 bushels and the farm value of the crop was \$310,602,539. Last year the wheat crop amounted to 748,-400,218 bushels and the farm value was \$467,350,156. The oat crop in 1896 amounted to 707,346,404 bushels and its farm value was \$132,485,033. Iu 1901 the oat erop amounted to 736,808,724 bushels and its farm value was \$293,658,777. Roosevelt on the Trusts.

"I said nothing that I did not think I could make good," thundered President Roosevelt at Fitchburg, Mass.

Then bringing his clenched hand down upon the flag-draped guard rail in front of him, he said: "I shall not hesitate now to take the position which I then advocated."

Reaching the climax of his speech as the great crowd sent up a roar of applause, he said:

"I think we can get laws which will measurably increase the power of the Federal government over corporations, but I believe firmly that in the end there will have to be an ameudment to the Constitution of the nation conferring additional power upon the Federal government to deal with corporations."

"I do not wish your applause," he shouted, as the crowd broke into cheers. "I don't wish your applause, but I wish you to think of what I have said, because it represents all the sincerity and earnestness that I have.

"What I have said on this platform I have said before, and would not hesitate to say at a private table with any of the biggest corporation managers in the land."
