

CHEERFULNESS AT TABLE.

Make Every Meal an Occasion for the Interchange of Entertaining Conversation.

An old lady, who looked as though she might have belonged to the "sunshine society" all her life, was asked by a friend the secret of her never-failing cheerfulness.

NEW BEAUTY CHAIR.

Sitting in It is Said to Restore Youth, Strengthen Muscles and Replace Tissues.

The latest thing to renew health and prolong life is a vibrating chair. By means of this peculiar bit of mechanism it is claimed that youth can be restored, muscles strengthened and wasted tissues replaced.

pieces together and bind all around with the tape, sew around the top a waistband and finish with button and buttonhole. When hanging up clothes one can button the bag around herself, and it does away with continual stooping for clothespins and the unsanitary habit of putting them in the mouth.

AGRICULTURAL HINTS.

VEGETABLE WASHER.

Make One Without Delay and See if It is Not a Great Convenience and Labor Saver.

A very cheap and serviceable root washer may be made by any man right at home, and no need to call on a carpenter or blacksmith. Make a water-tight box of 1 1/2-inch lumber, 12 by 21 by 30 inches inside.

VEGETABLE WASHER.

not only as washers between the cylinder heads and sides of box, but serve to reinforce the heads and hold the axles more firm. Drive a 1 1/2-inch mortise clear through the blocks and heads of cylinder. Take 2 2-inch hardwood pins and square one end to 1 1/2-inch plump, and drive firmly into the mortise flush with inside of cylinder heads.

THE BEES IN AUTUMN.

Feeding Early for Winter Stores is a Practice Highly Recommended by Expert Apiarists.

The bees should be fed early, so they can seal up their stores, and feeding at this time not only insures good stores, but it also creates brood rearing, which is as important as feeding. The feeding should be done to secure the best results in promoting the production of brood; to do this, they should be fed regularly every day during the entire month, so that at the close we have the required amount of stores and several frames full of brood, besides a good supply of young bees.

It is best when beginning to feed to feed lightly for a week or more. This will give the queen a chance to fill the brood nest with eggs; then during the latter part of the month feed more heavily until the required amount is given.

KEEPING SEED POTATOES.

A Practice That Has Been Successfully Employed by Eastern Growers for Some Time.

The success of the potato crop depends much upon the vigor and condition of the seed potatoes. Some growers have adopted the following practice with excellent results. When the potatoes are dug, those which are to be used for seed are stored in a dry, dark shed or barn until about the 10th of November.

The best results are usually obtained from mounds three feet wide at the base and piled upon ridges as high as convenient. A covering of straw is placed over the potatoes, and this is followed by a layer of soil from six to eight inches thick, but before severe weather sets in, or before the severest weather is at hand, more straw, or strawy barn manure is added.

About the last of April they are taken from the pit and again stored in a dark shed or barn until about ten days before planting time, when they are treated with corrosive sublimate. After this treatment they are placed where they will be freely exposed to the sun. Seed should not be cut until shortly before planting. If planting is delayed, the cut pieces should be placed in a moist, cool place.

BEST EGG PRESERVERS.

Quicklime, Salt and Water and Sulfate of Soda Have Proved the Most Satisfactory.

Numerous experiments at times have shown the worthlessness as egg preservers of ashes, sulphur, permanganate of potash, gypsum. Dry salt kept eggs fairly well, but injured the flavor. Vaseline or grease rubbed on the shells worked well for short periods, but was a failure in the ten months' tests.

LADLE FOR STORAGE EGGS.

slightly salty. Unfortunately the clear lime pickle does not appear to have been tested with the others.

The best success of all was with water glass or silicate of soda. This costs 40 to 60 cents per gallon and may be reduced with water when used to as low as three per cent. water glass. The eggs must be very fresh and should be completely immersed in the solution. Even this preparation was not successful in every case, but was usually so, the eggs being as good as fresh eggs for cooking. The egg ladle, as portrayed, is a great convenience in handling large numbers of eggs.

A HARD STRUGGLE.

When you have a bad back, a back that's lame, weak or aching it's a hard struggle sometimes to find relief and cure, but it's a harder struggle when the dangers beset you of urinary disorders, too frequent urination, retention of the urine with all the subsequent pains, annoyances and suffering. There are many medicines that relieve these conditions, but you want a remedy—a cure. Read this statement; it tells of a cure that lasted.

Veteran Josiah Heller, place of residence 706 South Walnut St., Urbana, Ill., says: "In the fall of 1889 I procured Doan's Kidney Pills at Cunningham's drug store in Champaign and after taking the remedy conscientiously I made a public statement of the results. I told how Doan's Kidney Pills relieved me of kidney trouble, disposed of my lame back and the pains across my loins beneath the shoulder blades, etc. During the interval which has elapsed I have had occasion at times to resort to Doan's Kidney Pills when I noticed warnings of another attack and on each and every occasion the result obtained was just as satisfactory as when the Pills were first brought to my notice. At this time I just as emphatically endorse the preparation as I did several years ago.

A FREE TRIAL of this great kidney medicine which cured M. Heller will be mailed on application to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. For sale by all druggists, price 50 cents per box.

SURGICAL OPERATIONS

How Mrs. Bruce, a Noted Opera Singer, Escaped an Operation. Proof That Many Operations for Ovarian Troubles are Unnecessary.

sufficient vitality, an operation for ovarian troubles. Not a very cheerful prospect, to be sure. I, however, was advised to try Lydia E. Pinkham's Vegetable Compound and Sarsaparilla Wash; I did so, fortunately for me. Before a month had passed I felt that my general health had improved; in three months more I was cured, and I have been in perfect health since. I did not lose an engagement or miss a meal.

TWO SUGGESTIONS FOR AUTUMN

The first gown is of almond green cloth. The skirt is trimmed with groups of narrow folds, or tucks, arranged in festoons and with festooned ends of velvet bordered with little gauze flaps of the same shade. The blouse is trimmed with the festooned ends and with little straps of the cloth of velvet fastened with gold buttons.

Selling Under False Colors.

Oleomargarine men claim that their product is a wholesome food. The new law is now in force imposing a tax of ten cents a pound on oleomargarine colored to imitate butter. If nutritious and healthful oleomargarine should be sold on its merits, very truthfully says the Globe-Democrat. Those who are willing to consume it as a substitute for butter do not want to pay anything additional for coloring material. The public hopes that the new law will be rigidly enforced.

Make the Profit Yourself.

The farmer that sells a horse in poor condition is almost certain to lose money thereby. The ordinary buyer wants a horse that is sleek and fat. So much is his case that some men in the cities make it their business to cater to this requirement. They buy horses poor in flesh. They fatten them up, finish them off with oats and sell them at a good advance.—Farmers' Review.

Mexican Mustang Liniment advertisement. While the farmer is gathering his crops his body is gathering a crop of aches and pains, cuts, bruises, backache, sore muscles and stiffened joints. Why not allow to attend to the latter crop? That is just what it is intended for. It drives out the aches and heals the wounded flesh most thoroughly. It's the Best Liniment for the flesh of man or beast.
