The Theodore Parker memorial at Boston has introduced a unique form An Experiment in of philanthropy into this country, Rural Education. namely a day in the city for country children. This is a reversal of the usual order. The country week for city children is now a recognized feature in the great cities of Europe and the United States. The idea of bringing country children to the city is borrowed from Copenhagen philanthropists, who annually bring 6,000 or 7,000 country children to their city and entertain them for a week or ten days. This contact with the stirring life, the historic places, the museums and monuments of a great city they find highly stimulating to these young minds. When the children return to their country homes it is not only with happy and grateful memories, but with quickened mental powers and patriotic sensibilities. The experiment of the Parker Memorial. cooperating with parents and teachin Milford, N. H., says the New York Post, is to be on a much smaller scale. Forty children of that manufacturing village, of both sexes, and with ages ranging from 10 to 15, have been invited to spend a Saturday in Boston. The children chosen from the public schools will be such as have never seen a great city and are not likely to. They will be accompanied by a Milford clergyman, and several teachers, and be met by the Parker Memorial staff at the station. By means of large vans they will be taken to points of historic and other interest. Bunker Hill, Old North Church, Tea Wharf, the tenement house district, Faneuil Hall, the Old State House and its collections, the Old South, etc. During the coming winter the result of this contact with the historic monuments and larger life of the capital city of New England will be carefully observed by their teachers.

The engines send out volumes of soft-coal smoke and soot which fly into the car windows and doors to the discomfort of passengers. The other evening, relates the New York Post, one of the cars had what might be called an overdose of the smoke when a man pulled out a cigar and lit it. The guard made his appearance almost immediately and ordered him to stop smoking or leave the train. The man refused to stop, say-

Futile Attempts of Democrats and Renegade Republicans to Create

Discord in the Party.

From every direction there are evidences that the republican leaders are acting in harmony on all the great questions. The democratic story that the president and the secretary of the treasury were at variance regarding the secretary's attitude toward Wall street has been proven to be erroneous. Speaker Henderson takes occasion to tell the country that he is in line with the president and all the rest of the real leaders of the party on the tariff and all other questions of any conse-"You are not on the defensive in Ohio, or anywhere else in the United States, or in the Philippines. One car started from the Canal street barn yesterday morning with ten Chicago strike breakers and ten policemen aboard. Two blocks from the barn, strikers pulled up the wooden crossings and made of them a barricade on the track. The car stopped and Robert D. Koonz, one of the non-union men, got off to remove the obstructions. He succeeded. though set upon by the crowd. The strikers then made a rush for the car and a lively fight ensued. There was a regular fusilade, fully a hundred shots being exchanged by the men and police on the car and the strikers. At the first volley from the car, the strikers ran and a stampede followed. Then the police arrested the non-union men for carrying concealed weapons.

Three non-union men were put in a and all the occupants were more or less injured. Officer Fordyce had several ribs broken and got a scalp wound.

Gov. Heard was reached during the afternoon, and after a telephonic communication with Mayor Capdevielle, ordered the commander of First military district, to report the the mayor, and adequate protection will be afforded the company in its ef-

TROUBLE FOR COAL TRUST.

Pennsylvanian Seeks to Have the Anthracite Combine Declared Illegal.

Philadelphia, Oct. 8.—Counsel for Philadelphia, Oct. 8.—Counsel for Frank H. Thompson, a citizen of this commonwealth, will file in the United States circuit court a bill in equity against the Philadelphia & Reading Railroad Co., the Central Railroad of New Jersey, the Lehigh Valley rail-road, the Delaware, Lackawahna & Western railfoad and the New York, Outagio & Wastern Pailroad Co. The Ontario & Western Railroad Co. The bill charges these companies with having formed an illegal combination for the purpose of fixing the price of coal and controlling the coal market, and asks the court to declare such combination illegal and to restrain and prohibit the respondents from meeting together for the purpose of fixing the rate at which coal shall be fixing the rate at which coal shall be sold.

Application will also be made in be-half of Mr. Thompson to the attorney general of the state, for a revocation of the charter of the Philadelphia & Reading Railway Co. for alleged viola-

tion of the state constitution. The bill in equity avers that the companies mentioned formed a combination under which the respondents were not to compete with each other and which regulated the price to be charged for coal at tidewater.

It is charged that the respondents refuse to operate their mines, greatly to the loss of the complainant and in violation of the duties which the re

spondents owe to the public.

Great Fire Near Beaumont, Texas-

Property Loss is Heavy. Beaumont, Tex., Oct. 8.—Another great fire, more disastrous than the conflagration of a few weeks ago, swept over the oil fields here last night, causing a loss of 12 or more lives and entailing a property loss of several hundred thousand dollars. The fire was discovered shortly before 11 o'clock and with remarkable rapidity it spread to the many der-ricks in the Hogg-Swayne tract. The encroachment of the flames was so opid that many people were caught in the fiery path.

They Do Seem to be Anxious to Sign

a Treaty with the United States. Washington, Oct. 10.--The situation as to Cuba is such at present as to on hostility. The best efforts of the state department thus far have failed to secure the adhesion of the Cuban government to the treaty which, by the terms of the Platt amendment must be entered ino beween the two governments. The delay is all on one side, namely, at Havana, for Secre-tary Hay and the Cuban minister, Senor Quesada, have performed their drafting a treaty believed carries out the intent of con-

gress. The treaty is now awaiting the approval of the Cuban government, which approval is withheld, not with any expressed intention of rejecting the convention, but through what is regarded here as the natural inertia of the Cubans in diplomatic matters. This treaty includes provisions for a considerable measure of reciprocity between the United States and Cuba, and while it is true that the Cubans believe that the United States has been rather niggardly in the arrange-ment of the reciprocity schedules, those objections are not regarded as sufficient to account for the g great de-How ever, there is no intention, it is said. to resort to any undue pressure on the Cubans, so long as there is no dis-

Contractors are Said to Have Con-spired to Defraud Uncle Sam. Norfolk, Va., Oct. 10.—United States Commissioner Bowden yester-day held for the federal grand jury Aaron Marx, J. A. Codd and Louis Wasserman, for conspiracy with in-tent to defraud the United States in the matter of the contract for supply-ing the Norfolk navy yard with 100,-000 pounds of beef and a similar amount of fresh végetables. All three of the accused were admitted to bail

The evidence were admitted to sail in the sum of \$100 each. The evidence introduced at the hearing showed that Marx, Wasser-man, Codd and Richard Eastwood met in a hotel in Washington, and Marx, by paying \$150 to each of the others recorded thein bids for the sec others, secured their bids for the contract with figures greater than those submitted by himself. His bid was \$15,400, and he secured the contract at that sum. Eastwood has not yet been arrested. Wasserman is now furnishing the Hampton Roads station with an identical supply at a contract price of \$7,480.

Washington, Oct. 10 .- It is stated at the navy department that the crimi-nal prosecutions of butchers in connection with the alleged conspiracy in bidding for supplying the Norfolk navy yard were unearthed there, notwithstanding the bidding was con-ducted in Washington, and that the entire prosecution is in the hands of Norfolk officials. Secret service men from the treasury department were detailed at the request of the navy department to assist in the development of the case.

Demand Made by Conference Held at Detroit to Consider Coal Situation. Detroit, Mich., Oct. 10.-The 186 delegates representing 11 states, who attended the inter-state conference on the coal situation here yesterday, adopted resolutions, after much debate, urging the president to institute civil proceedings looking to the en-forcement of the inter-state commerce act against the coal companies and criminal proceedings agains their officers; petitioning the gover against nor of Pennsylvania to call a special session of the legislature of that state to condemn all the coal carrying roads and sufficient of the mines to

supply the demands of the people. Further the resolutions petition the president to call a special session of the house of representatives and to recommend to them the appoint-ment of a committee with full power investigate the cause of the strike and to place the blame therefor. A supplemental resolution offered by Judge Frank E. Garvin, of Indiauapolis, was also adopted and ordered attached to the main resolutions. It attached to the main resolutions. It urges that the president at once in-stitute proceedings to dissolve "the present combination of the coal operators" and to have a receiver ap-pointed to operate the mines. The supplemental report urges a special session of congress it it is impossible at the present time for the president to take this action.

Chicago & Alton Inaugurate Novelty Between Chicago and Kansas City,

Between Chicago and Knass City. A grill room chair car has been introduced into service by the Chicago & Alton between Chicago and Kanasa City. In the fore part of the car is a small kitchen connected with a little room 10 by 8 feet. The grill room is fitted after the style of a small American dining-room. Other rooms will be finished after the English and German styles. The grill rooms of the cars put in service are finished throughout in mahogany, with small, well-stocked and ornamented side-board and rofind table at which six people can be seated. The kitchen is isolated and the diners are in close touch at all times with the steward-cook. The decorations are elaborate. The tableware, including the china, is made to correspond with the gen-eral decoration, whether American, English or German, as the case may be. This innova-tion adds to the enjoyment of traveling, as a meal consisting of anything from a sand-wich to a champagne supper can be ordered at any hour of the day or evening.

SHOWING THE WAY.

Most of our readers know all about the aches and pains of a bad back; very few people are free from sick kidneys, as the kidneys are the most overworked organs of the body and "go wrong" at times no matter how well the general health may be. The trouble is so few understand the indications of kidney trouble. You are nervous, tired out and weary, have stitches, twinges and twitches of backache pains, but lay it to other causes; finally the annoyance and suffering attendant with urinary disorders, retention of the urine, too frequent urination, makes you realize the serious-ness of it. At any stage you should take a remedy that will not only re-lieve but cure you. Read the following

and profit by the lesson it teaches: C. J. McMurray, a resident of Freeport, 111., address 47 Iroquois St., says: "I have greater faith in Doan's Kidney Pills to-day than I had in the fall of 1897 when I first took that remedy and it cured me of an acute pain across the back and imperfect action of the kidneys. Since I made a public statement of these facts and recommended Doan's Kidney Pills to my friends and acquaintances, thoroughly believing as I did both from observation and experience that they would do just as they were represented to do. I am still pleased to reendorse my statement given to the public shortly after I first began to use the remedy

On the tariff que tion there is as much unanimity among the republicans at this moment as there was in 1880, 1884 and 1888, when it was virtually the sole issue. It is not a detensible position, de-cause we all know that many of the sched-ules in the Dingley-bill were considered from the standpoint of reciprocity. Somebody suggests the necessity of one more alphabet organization-S. C. E .: Society for the Cancellation of Engagements. The object to be sought behind the somewhat startling name is the preservation of the individual and family life. There are many things in the modern social organization which tend to make life restless, rushing, feverish and artificial. To do a smaller number of things, to forego identification with a few attractive fads, to cover less surface, to strike one's roots a little deeper, would be for hosts of ambitious young people to live a more natural, a freer, and more fruitful life. Division of forces, says Philadelphia Young People, waste of nerve tissue and mental distraction are the inevitable result of trying to compass "the earth." One of the first attributes of wisdom is the recognition of limitations.

I is estimated by the census office that electricity has entered into the daily life of the country to the extent of seven dollars for each man, woman and child in the United States. Of this amount three dollars goes to the electrie traction companies, \$1.50 to the electric light concerns, and 75 cents to the telephone companies. The telegraph also takes about 50 cents a year from each of the 75,000,000 people. while the rest of the seven dollars is charged off to electric fire alarms signals, and general supplies.
