It will be good news to the mothers of small children to learn that croup can be prevented. The first sign of croup is hoarseness. A day or two before the attack the child becomes hoarse. This is soon followed by a peculiar rough cough. Give Chamberlain's Cough Remedy freely as soon as the child becomes hoarse, or even after the rough cough appears, and it will dispel all symptoms of croup. In this way all danger and anxiety may be avoided. This remedy is used by many thousands of mothers and has never been known to fail. It is, in fact, the only remedy that can always be depended upon and that is pleasant and safe to take. For sale by L. Taggart.

The less some men know about a given subject the more they try to show off.

**Better Than a Plaster.**  
A piece of flannel dampened by Chamberlain's Pain Balm and bound on the affected parts, is better than a plaster for a lame back and for pains in the side of chest. Pain Balm has no superior as a liniment for the relief of deep seated, muscular and rheumatic pains. For sale by L. Taggart.

One swallow does not make a summer, but several will bring on a fall.

A glass or two of water half an hour before breakfast will usually keep the bowels regular. Harsh cathartics should be avoided. When a purgative is needed, take Chamberlain's Stomach and Liver Tablets. They are mild and gentle in their action. For sale by L. Taggart.
