Queer Law Case.

Not long ago a trial was reported where a man sued a medicine concern which had offered \$100 for a case their remedy could not cure.

We allude to this because we want to show that Vinol does not give a slippery guarantee. If the user comes back with his empty bottle and says, 'I can't see that it did me any good,' we say, 'Sorry you happen to be among the few—less than two in one hundred—here's your dollar!'

Vinol is a non-secret pleasant compound of cod liver oil, (greatest medicinal food known), iron, and mild table wine.

Cries on December Weather.

Colts, the weather prophet, in his predictions for December says that the weather will be rather changeable. There will be many beautiful days, but winter is liable to give us a surprise. Regular storm conditions will prevail at the opening of December.

Many of the storms may vary from a summer-like shower to a real winter blizzard.

The Certainty of Advertising. Advertising is a subtle science, so subtle, in fact, that by most of the people it is regarded as more or less of a game of chance.

This is the season of the year when the prudent and careful housewife replenishes her supply of Chamberlain's Cough Remedy.

Now we are ready for this great sale, the most important furniture event ever offered you. A sale that will make new history in our business. High class, up-to-date, thoroughly reliable furniture at much less than cost of manufacture. We want you to come to this sale, to see and compare the furniture with that you can buy elsewhere at even double our prices. It is only through a purchase of this kind, that these stupendous bargains are made possible—a chance that comes your way but seldom. This will be a quick decided event, the stock must be cleared out at once, as we have no room for storage purposes.
