A remarkable specimen of street naming in Toledo, the ancient capital of Spain, is cited by a correspondent of the Pall Mall Gazette. It is "Calle cel Diablo Pertence al Ayuntamiento," or in English "The Devil-Belongs-totue-Municipal-Council st."

a room that contains hundreds of picture frames made of every imaginable substance, from leather to tigers' bones, one frame being placed within another, according to size, so that the whole surface is covered with frames.

At the recent international conference on tuberculosis at Berlin Dr. Obertuschen suggested that teachers suffering from consumption ought to receive sanatorium treatment, and per-mission to return to duty ought to be withheld till all danger of infection had passed away; they should receive their salaries during their illness.

Near Bougie, Algiers, there is mountain inhabited by hundreds monkeys and thousands of rats. A cy-clone raged on it the other day; the monkeys were able to cling to the trees, but the rats were carried to the town to the great alarm of the super-stitious inhabitants, who regarded them as a punishment from above.

More than a century ago the fear of being buried alive led to the establishment in German cities of mortuary chambers, in which a bellrope is placed in the hands of each corpse. In his recent volume on "Death and Sudden Death," Prof. Brouardel declares that there is no case on record of that bell having ever been rung anywhere.

A picture postcard made in Holland has upon the picture side a representation of three babies in a cot. In the thickness of the card is inserted a matle bag, which, on being pressed, emits the familiar squeak of the crying doll. The legend over the head of the cot is: "Press me twice, I cry mamma." The idea is ingenious and

The old-fashioned way of deciding a question by tossing up a coin is now superseded in England by an elegant pastime which is known as "tap-nose." Two cabmen have the credit of making the new game public. Instead of "tossing for drinks" they set to work to spar, the man who first got in a tap on his opponent's nose being the winner and having his drink paid for

The forestry work of the country is gradually growing in importance. Twenty-five thousand catalpa trees are to be planted in Southern Illinois by the International Society of Arboricul-The trees are to be grown for the purpose of supplying crossties, and the society has a contract with 20 different railroads to plant small orchards. An orchard has been established near Duquoin Ill., which will be for the use of the Illinois Central rail-

A new idea for heat distribution is being tried in the east. Instead of distributing hot water or steam to radia-tors throughout the building, or employing galvanized iron piping to dis tribute heated air, the supporting columns in the building are utilized for this purpose. These are made hollow, and connected at the base with huge fans, which blow heated air through them. Openings in the columns on each floor provide for a proper circu-

Submarine cable laying has reached a high state of perfection, as it shown in the preparations completed for the laying of the American-Transpacific cable from San Francisco to the Phil ippines, 8,000 miles, touching at Hawaii and the Caroline islands, or twice the length of any cable now laid. The cable will be in places 16,000 feet deep. Twelve thousand tons of steel wire were used in its construction; 4,300 tons of hemp and tar; 2,308 tons

STORY OF POVERTY

Deplorable Conditions Said to Exist in Hard Coal Region.

Witnesses Tell the Commissioners That Anthracite Coal Miners Are Barely Able to Live—Their Bouses Not Homes, Mere-ly Resting Places.

Scranton, Pa., Dec. 4.—The anthra-Scranton, Pa., Dec. 4.—The anthra-cite coal companies and their em-ployes having failed to come to an agreement during the Thanksgiving recess of the strike commission, the hearing of the miners' side of the case was continued yesterday, and unless something is done by the law-yers on both sides to curtail-matters, ts proceedings will surely run into

Yesterday's proceedings were of a more or less desultory character. Six witnesses were on the stand. They were President Mitchell, two phowere President Mitchell, two photographers, two practical miners, one of them a Hungarian, and the wife of a German miner. Mr. Mitchell was called to show that a 20 per cent. increase in wages did not mean a corresponding increase in the price per ten of a little photographers. ton of coal. The photographers produced about 50 photographs they had duced about 50 photographs they had taken of the Pall Mall Gazette. It is "Calle tel Diablo Pertence al Ayuntamiento," or in English "The Devil-Belongs-to-me-Municipal-Councilst."

At Liscard, in Cheshire, England, is toom that contains hundreds of pleaure frames made of every imaginable substance, from leather to tigers' zones, one frame being placed within unother, according to size, so that the whole surface is covered with frames.

ing on wages and conditions.

Scranton, Pa., Dec. 5.—At Thursday's session of the anthracite strike commission the representatives of the mine workers continued to call witnesses, mostly practical miners, who told their story of conditions as they exist in the Hazleton or middle coal fields.

coal fields.

Jackson Ansbach, of the Hazleton region, was an interesting witness because he is the first fireman to appear before the commission. He said he received \$1.57 for a day of 12 hours and his assistant \$1.25. On every other Sunday, when he and his assistant shifted from day to night work, they were compelled to work 24 hours straight without relief. This statement caused a buzz through the statement caused a buzz through the court room and every commissioner straightened up and became more interested. In answer to a question put by the commission he said he was off duty one day every two weeks, thus working six days one week and eight days the following week. "Supposing you should fall asleep when you work in the long shift of 24 hours, what would happen?" asked Mr. Darrow.

24 hours, what would happen with the parrow.

"Well," he replied, "if I slept long enough the fans would stop, gas would accumulate in the mines and if an explosion took place some new might be killed; that's all."

might be killed; that's all."
Rev. James V. Hussie, rector of St. Gabriel's Roman Catholic church, Hazleton, and the dean, by appointment of the bishop of the diocese, of lower Luzerne county, an ecclesiastical preferment was the next witness.

When asked to applyin the general

When asked to explain the general conditions as he found them, Father Hussie said he had lived in the coal regions practically all his life. "The conditions in this region," he said, "are deplorable. The mine workers are barely able to exist. I say this without any coloring, knowing that I am under oath. I realize that what I say is expire to the American personal transfer of the Am I say is going to the American people and I want to talk cautiously. I have been in their homes. They are not homes, but merely a habitation, a resting place. They are frugal, conservative, reasonable and a God-fearing people."

ing people."
Scranton, Pa., Dec. 6.—The mine workers' lawyers continued to call witnesses yesterday before the strike commission to testify to the methods pursued by several coal companies in refusing to re-employ strikers who took a more or less prominent part in the affairs of the Mine Workers' union during the recent suspension. All of them said they had been employed before the strike, but were refused their old places after the strike was ended. In most cases, ac-cording to the testimony, no satisfactory reason was given why they

vere not taken back.

Two blind men who were also otherwise badly injured by underground explosions, were presented as living evidence of the dangers in the mines. evidence of the dangers in the mines. When the commission adjourned for the day Rev. J. J. Curran, a Roman Catholic elergyman, of Wilkesbarre, who took a prominent part in the miners' cause during the recent strike, was on the witness stand.

Eather Curran gave a description

Father Curran gave a description of the conditions under which the mine workers live, which is somewhat

similar to that given Thursday by Father Hussie, of Hazleton. New York, Dec. 6.—Wayne Mac-Veagh arrived from Scranton last vergal arrived from Scratton last night. When asked whether there was any possibility of a settlement of the strike by an agreement outside of the commission Mr. MacVeagh said emphatically; "There is no such possibility and there will be no further conformers outside the commisther conferences outside the commis-sion, except such as may occur be-tween counsel for the clearing up of minor details. The commission will go on with its work to the end."

tons gutta percha.

The question is often asked, "Where do seabirds obtain fresh water to slake their thirst?" An old skipper conversing on the subject said that he had seen birds at sea, far from any land that could furnish them water, hovering around and under a storm cloud, clattering like ducks on a hot day at a pond, and drinking in the drops of rain as they fell. They will smell a rain squall one hundred miles, or even farther off. How long seabirds can exist without water is only a matter of conjecture.

Scranton, Pa., Dec. 6.—Recent events have given ground for the belief that the result of the negatiations now in progress will be the ultimate sale of the properties of the individual operators to the large coal earrying companies. This will not be done at once, but it is regarded here done at once, but it is regarded here to come in the not distant future, because it is believed to be the only solution of the present situation is the outcome which both the independents and the large companies desire. It is estill critical.

Schenectady, N. Y., Dec. 5.—Supreme Court Justice Wesley O. How-arch has granted an injunction restraining Painters' Union No. 62, of this city, from in any way treating carrying companies. This will not be done at once, but it is regarded here done at once, but it is regarded here to come in the not distant future, because it is believed to be the only solution of the present situation.

A \$300,000 Failure.

Lowell, Mass., Dec. 5.—Supreme Court Justice Wesley O. How-arch has granted an injunction restraining Painters' Union No. 62, of this city, from in any way treating carrying companies is believed to be the only solution of the present situation.

A \$300,000 Failure.

Lowell, Mass., Dec. 5.—Supreme Court Justice Wesley O. How-arch has granted an injunction restraining Painters' Union No. 62, of this city, from in any way treating the union. Potter was expelled from the union because he is a member of the union because he is a member of the union because he is a member of the unio

THE ARMY CANTEEN.

Bates Gives Figures to Prove that its Abolition was a Bad Move. Washington, Dec. 5.—Gen. Bates, paymaster general of the army, has sent a communication to Adjt. Gen. Corbin in regard to the army canteen question, in which he says:

"The claim of the war department in recommending the restoration of the canteen to the army tast during the operations of the canteen law the the operations of the canteen law the discipline of the army was superior, desertions much less, and that there were fewer fines and forfeitures by court-martials on account of breaches of military discipline resulting from the west interests by the proof interests by the second state. the use of intoxicants by men in the service, appears to be fully borne out by the records of the paymaster general's office.

"These records show that the pay-masters of the army collected from 75,000 enlisted men (regulars) during the last year in which the canteen was in force, on account of soldiers' fines and forfeitures \$462,698, while during the fiscal year 1902, since the abolishment of the canteen, there was collected by paymasters from about 70,000 enlisted men (regulars)

about 70,000 enlisted men (regulars) on the same account \$632,125.

"The fact, therefore, appears undisputable by the figures cited that the fines and forfeitures imposed upon the enlisted men of the army were vastly increased during the year subsequent to the abolishment of the canteen, which increase cannot be well astributed to any other cause well attributed to any other cause than the effects of an uncontrolled liquor traffic in connection with mili-

CHANGED FRONT.

Senators Who Opposed Cuban Reciprocity Now Declare In Its Favor-Washington, Dec. 5.—Senator Elk-s, of West Virginia, who ied the anti-Cuban reciprocity forces in the senate during the last session of con gress, had an extended interview with the president yesterday, during which they discussed Cuban reciproc-ity. He informed Mr. Roosevelt that he would support a proper Cuban reciprocity treaty and expressed the belief that such a treaty would be ratified by the senate soon after its presentation.

Such a solution of the commercial obligations of the United States to Cuba would be entirely satis actory to Senator Elains and many of his senatorial colleagues who opposed the enactment of direct legislation, because they feared such action would open up a tariff controversy which, in the view of strong advectes of the protection system might prove embarrassing, if not dangerous, to the republicans.

to the republicans.

President Roosevelt, it is understood, has received assurances from other senators who last spring opposed reciprocity legislation, that they will support by voice and vote a Cuban reciprocity treaty. other senators who last spring op-posed reciprocity legislation, that they will support by voice and vote a Cuban reciprocity treaty.

The Blondin Murder Trial.

The Blondin Murder Trial.

Boston, Dec. 5.—The trial of Wilbest blondin on the charge of wife
murder, is beginning to take dennite
shape. Having established the claim
that Mrs. Blondin was killed by
strangulation and that her head was
cut off after death with a sharp instrument, probably a jack knife. Attorney General Parker introduced evidence to prove the identity of the
woman and to show that a letter
written to her by her niece, Miss
Casey, subsequent to the date on
which the alleged murder occurred,
was returned to the writer bearing
the indorsement "gone to Canada"
upon the envelope, in Blondin's handwriting.

Enjoined 40 Bucketshop Keepers.
Chicago, Dec. 5.—The property
rights of the board of trade in its
market quotations, carrying the right
to prevent bucket shops from issuing
them, were more firmly established
yesterday by a decision of Judge
Humphrey in the United States circuit court sitting at Springfield. He
enjoined 40 so-called "bucketshop"
keepers in the southern district of
Illinois from "obtaining, receiving,
selling or distributing the market
quotations of the Chicago board of
trade and from assisting others in
distributing said quotations, and the
defendants are ordered to answer by Enjoined 40 Bucketshop Keepers. defendants are ordered to answer by January 1, 1903."

An Unique Funeral Ceremony.

Chicago, Dec. 6.—A ceremony unique among funeral services was unique among funeral services was performed at Rose Hill yesterday when the body of a woman was laid to rest by a party of her women friends. A woman said the prayer, a woman spoke the words of culogy over the body and consigned "dust to dust" at the open grave. Only one man stood in the throng of mourners. He was the son of the woman in the casket, but he took no part in the rites.

Located a Sunken Fleet.

Manila, Dec. 5.—Capt. Pershing has located what is left of a fleet of small gunboats which the Spaniards sank in Lake Lanao, island of Mindanao, in 1898. While returning from Higan to Camp Vicars, friendly Moros guided the captain to a point where portions of the wrecks were visible.

Reed Improves.

Washington, Dec. 6.—The improvement in the condition of ex-Speaker Thomas B. Reed, noted in the physicians' bulletin Friday morning continued during the day, although they say it is still critical.

CATARRH OF LUNGS.

A Prominent Chicago Lady Cured by Pe-ru-na.

Miss Maggie Welch, secretary of the Betsey Ross Educational and Benevolent Society, writes from 328 North State street, Chicago, Ill., the following glowing words concerning

Peruna:
"Last fall I caught the most severe cold I ever had in my life. I coughed night and day, and my lungs and throat became so sore that I was in great distress. All cough remedies

SCOLDING THAT HEALS.

more and more distressing, and final more and more distressing, and finally kept me awake at night. After suffering this annoyance a long time I lost patience and one night, by some inspules which I can hardly explain, got into a passion with the man's lungs and began to upbraid them for their always are the statement of their always are their subjection. their abnormal behavior. To my sur-prise the lungs seemed to hear me and heed me, and at once became quiet and the man speedily recovered. This led to other experiments and resulted in the discovery of an entirely

new therapy, which I am convinced is destined to sweep every existing school of medicine into oblivion."

He says a man's heart or kidneys can hear and understand every word that is spoken to them, are susceptible to reproach and shame, and can always be induced to abandon irregular action and return to their proper lar action and return to their proper
