And all voices will ring,
And you'll receive a warm greeting.

A Big Lumber Job.

The DuBois Couriers says John E. DuBois owns two hundred million of timber on Hicks Run, some 36 miles from DuBois. After mature consideration he has decided to bring all this timber to his big saw mill at DuBois for manufacture. To do this he must build fifteen miles of railroad track to reach the Low Grade road near Dens's Ban station, from which point he will run his log trains over the Pennsylvania line to DuBois. This will be the longest haul of saw logs yet made in this section of Pennsylvania. The logs and bark will be loaded in the woods and be run to DuBois without any charge. It is estimated that ten years will be consumed in cutting and manufacturing.

Brother Osborne stated that the club could have the use of his coop any night for a dance free of charge, but the club must stand good for all chickens that are missing, the club agreed to do, the supper to take place in the blacksmith shop, of which each member must furnish a chicken, and the Club to donate a keg. This is the season of the year when the prudent and careful housewife replenishes her supply of Chamberlain's Cough Remedy. In almost every instance a severe cold may be ward off by taking this remedy freely as soon as the first indication of the cold appears. There is no danger in giving it to children for it contains no harmful substance. It is pleasant to take—both adults and children like it. Buy it and you will get the best. It always cures.
