Peculiar Little Dwarf. Dennis Russell, a dwarf who was brought here from Sharon and placed in the County Home as a poor charge, is apparently the happiest man in the place. For hours at a time he will sing and amuse himself by talking to a water spigot, chair or any piece of furniture. The upper portion of his body is of normal size, but his legs are only about twelve inches in length, and his feet are small. He cannot walk, and has to be tied in a chair to keep him from falling off. Although Russell is but thirty years of age, his hair is gray and he bears the appearance of a man of fifty. -Potter Enterprise.

Figure it out. Michigan Patron: "A banker sauntering home for his dinner saw a \$10 bill on the curbstone. Of course he picked it up and took the number in order to find the owner. While at home his wife remarked that the butcher had sent in a bill amounting to \$10. The only money he had with him was the bill he had found, which he gave to her and she paid the butcher. The butcher paid it to a farmer for a calf, and the farmer paid it to a merchant, who in turn paid to a clerk, who in turn paid to a washer woman, and she owing the banker a note of \$10 went to the banker and paid the note. The banker recognized the note as the one he had found, and which, up to date, had paid \$50 of debt. On careful examination he discovered the bill was counterfeit. Now will some of our financial friends tell us what has been lost by the transaction, and by whom?"

Railroad News. The Western Pennsylvania railroad was chartered at Harrisburg last Monday for a new line from Red Bank, Pa., to Enon, Pa. The line will connect the Pittsburg, Fort Wayne and Chicago railway, one of the lines west of Pittsburg, with the Philadelphia and Erie route, now a part of the Pennsylvania system at Drifwood. The estimated cost is \$8,000,000, including several bridges and tunnels. Preliminary surveys have been made and acquirement of rights will follow. By means of the cut-off, through freight for the west will be deflected around the congested Pittsburg district. Double tracking of the low grade division and the Philadelphia and Erie as far as Harrisburg, may follow.

The Beautiful Snow. It takes three cloudy days to bring a heavy fall of snow. If snowflakes increase in size a thaw will follow. If there is no snow in January there will be more snow in March and April. The more snow, the more healthy the season. A snow year, a rich year. Snow is the poor man's fertilizer, and good crops will follow a winter of heavy snowfall.

Are You Going West. School Report.

Report of the Public Schools for month ending January 13. Number of pupils registered to date, 731. Number in attendance during month, 675. Average daily attendance, 543. Percentage of attendance, 74.3. Number of pupils present every day, 305. Number of pupils tardy, 92. Number of cases corporal punishment, 17. Number of pupils sick, 83. Number of pupils left school, 11. Number of visitors to school, 113. Compared with last month, the total enrollment has increased 28, the average attendance 18, the percentage of attendance one per cent, the number attending every day by 56, and a large increase in the number of visitors is shown. The number of pupils tardy has decreased by 10. All of these items show progress in the right direction. By working together the teachers and parents should be able to make a still better record for this month, in the matters of attendance and punctuality. The best record in attendance was made by the High School, 96 per cent. Miss Cleary again leads the grades below with 95 per cent and Miss Bair is second with 94 per cent. Which school will show the greatest gain next month? Parents should insist on examining the reports which are issued to the children. Cards were given to all on Monday and the object of these will be defeated unless the parents examine them and sign them so that the teachers may know that you have seen them. To neglect to do this shows an amazing lack of interest on the part of those who should be most interested. The following show a complete record of 95 per cent or over.

A Scientific Discovery. Kodol does for the stomach that which it is unable to do for itself, even when put slightly disordered or over-loaded. Kodol supplies the natural juices of digestion and does the work of the stomach, relaxing the nervous tension, while the inflamed muscles of that organ are allowed to rest and heal. Kodol digests what you eat and enables the stomach and digestive organs to transform all food into rich, red blood. R. C. Dodson.

Give the Dull Boy a Chance.

The Oil City Derrick, speaking a word for the dull boy, says. It is not always the brightest boy in school that makes the greatest success in the world. He is generally the favorite of the teachers, and gets along the fastest, but his very brilliancy often proves a great drawback to his future career. Much is expected of him, and when put to the test he is very likely to prove a disappointment. "Give the dull boy a chance" is the advice of Prof. A. E. Winship, one of the leading educators of the Buckeye State. "Watch him closely. Don't think because he is dull he is unworthy of your time and consideration, for in your dull boy may lurk the possibilities of the brilliant and successful business man." This is good advice, but above all the dull boy should never be discouraged. Let him recognize the fact that the teacher is interested in him and let his parents encourage him all they can. It is a mistake to ridicule him or make his backwardness prominent. Give him a fair show and let him plod along. The highest goals are conquered by simply sticking straight to one thing with the end always in view, and in this respect the dull boy often proves a wonder and a surprise to every one.

The History by Miss Ida M. Tarbell which began in the NOVEMBER McClure's is the Great Story of Standard Oil. "Miss Tarbell's work is of unequalled importance as a 'document' of the day.
