Mrs. Lundeen Johnson is seriously ill. Mrs. Thad More, visited Olean Friday. Miss Mamie Logan is visiting friends in Williamsport, Pa. Randolph Morse, has been quite ill, suffering from an abscess. Dr. and Mrs. Bordner, of Shenandoah, are visiting Mrs. Wm. Howard. Rena Sprout, of Williamsport, is visiting friends in town this week. Thos. M. Lewis, of Sterling Run, was in town between trains on Friday. Miss Ida Dunlop visited in town last Friday, guest of Mrs. M. H. Dodge. Miss Nina Bryan entertained Miss Richardson of Driftwood, Friday. Miss Ora Steek, of Sonestown, is visiting Mr. and Mrs. A. C. Blum at this place this week. Mr. and Mrs. J. H. Swain, of Keating Summit, spent Sunday in town guest of Chas. Seger and wife. Miss Mary Bird, of Colesburg, was the guest of the families of W. F. Cool and E. J. Rogers last week. F. S. Coppermith who has been on the sick list for several days is rapidly recovering we are glad to note. Edwin Clarke, of Emporium, was the guest of Miss Gene Curtis Wednesday and Thursday.—Austin Republican. L. S. Smart who has been located at Scranton for some time was visiting old acquaintances in this section of the state last Thursday. Matt Leadbetter has been treating his friends to the best cigars in town on account of the arrival of that baby boy last Thursday. Roy V. Dolley, a prominent young business man of Port Allegany, died at that place last week. Grip was the immediate cause of his death. Mrs. J. C. Dankelman and daughter, Miss Mame, formerly of Emporium, are spending the winter months in New York city. The Press follows them. Mrs. Theo. Newton and master T. Eugene, have just returned from a two weeks visit with friends at Meadville, Sharon and other points. The many friends of Father McAdam will be pleased to learn that the Rev. gentleman is enjoying the best of health. We regret to learn that W. R. Sizer of Sizerville contemplates moving to Oak Grove. Mr. Sizer has made friends about his old home who will greatly miss his genial face.—H. W. Martindale, of Lushbaugh, was a business visitor here yesterday.—Port Allegany Argus. The Connolly House is being fixed up in nice shape with paint and paper, an Olean artist having charge of the job. The sitting room, reading room and the lobby have each been given attention and the rooms look as spic and span as a school girl with a new dress. Mr. Butler is running a quiet, clean place there and is getting some money to the good. The Reporter is pleased to not his prosperity.—Port Allegany Reporter.

Rev. E. E. Mulliner's mother, who has been visiting in Emporium the past week, returned home on Wednesday. Dr. Bardwell desires to inform the party who is keeping his dog confined, that if he is not promptly released an officer will call and costs made. Joseph Lechner, one of Emporium's prominent merchants, left on Tuesday for New Orleans to visit a sister and incidentally to witness the Mardi Gras festivities. Mr. A. Tate, of Wharton, was in town to-day and made the Press a short but welcome call. Mr. Tate is just recovering from a tussle with the lagrippe, being laid up about four weeks. Mr. Henry Auchu and wife left last night on Buffalo Flyer for New Orleans to view the Mardi Gras festivities. From there they go to Cuba for a week or two and we will wager a shad that Henry will see all the business pointers on the island and will know "how and why" upon his return home. Fewer Gallons; Wears Longer. The number of men available for military duty in Pennsylvania is 937,702, nearly a million men. And its dominance in the manufacture of weapons of war, offensive and defensive, owing to the greatness of its steel industries, adds to its military power and resources. Pennsylvania is more than a great state—in many respects it is a nation. A dog hitched to a lawnmower stopped pulling to bark at a passer-by. The boy, who was guiding the mower, said: "Don't mind the dog, he is just barking for an excuse to rest. It is easier to bark than to pull the machine." It is easier to bark than to work; easier to burn a house than to build one; easier to hinder than to be helped; easier to destroy reputation than to construct character. Fault-finding is as dangerous as it is easy. Anybody can grumble, criticize or censure.—Ex. The Bradford Record on Tuesday says: J. M. White who is an inmate of the Smithport jail, will be waited on by Constable Spreter to-day and served with a warrant containing additional charges similar to those which caused his incarceration. Four more young girls between the ages of 8 and 12 years have given their testimony before Alderman Foley, and an additional charge will be made against him. The details are most revolting, and if proved there is little doubt but the prisoner will go down to the penitentiary for a term of years. According to the advance sheets of the Catholic Director, for 1903, there is a total Catholic population of 11,289,710 in the United States proper, or one-seventh of the total population. Taking into consideration the newly acquire possessions, the Catholic population under the flag is: United States, 11,289,710; Philippine Islands, 6,565,998; Hawaii, 33,000; American Samoa, 3,000; Guam, 9,000; Porto Rico, 953,243; total, 18,853,951. The total population of this whole territory is 84,233,069, which makes the Catholic population under the Stars and Stripes between one-fourth and one-fifth of the total. An exchange says the question is often asked, "How much coal is there in an acre?" So much coal land has been leased and bought that the question is pertinent. A cubic foot of coal makes a bushel. An acre is a little over 200 feet each way, 43,560 square feet, equal to 43,560 bushels in one foot vein. If the vein is four feet thick, an acre contains 184,240 bushels and a five foot vein would produce 223,800 bushels. Counting 25 bushels to a ton a four foot vein would produce 6970 tons to the acre. At 3 cents a ton royalty the coal would be worth \$208.10 an acre, and at 4 cents a ton it would be worth \$278.80 an acre. Outside the oil country, mases the Bradford Era, the plain people don't know what is meant by a "dry hole." In the oil country it is well understood. A dry hole is the kind that is drilled by a hopeful combination of small capitalists, usually. They carefully secure a lease having "surface indications" and engage a contractor who insists upon being paid for his services. When the place is reached where the paystreak should be located, nothing is on tap but pulverized, dark colored slate or other geological formation duly ground into a fine, gritty flour. This is very dry and on account of its dryness the well is called a dry hole. In order to test the Groundhog Day, theory an Adams County, Pa., man last fall captured one of the animals and put it in an enclosure with an open and underground den. It became tame and playful, but about two months ago retired to the underground den where it remained until Groundhog Day. Then it came out in the morning, fed well, frisked about in the sunshine for several hours and then went back in the den, having seen its shadow. To prove the superstition the animal must live in seclusion six weeks longer, during which time winter must also prevail. At last accounts the groundhog had not appeared and the investigator was watching the entrance of its underground retreat with expectant interest. Marconi is not the only man who is engaged in tremendous problems these days.—Oil City Blizzard.

A Passenger Steamer Goes to the Bottom. NORFOLK, Va., February 17.—A cyclone struck the passenger steamer Olive, which plies between Franklin, Va., and Edenton, N. C., at 9:30 o'clock last night and sent her to the bottom of the Chowan river, off Woodley's Pier, between Mount Pleasant and Oliver's wharf. Seventeen people are known to have been drowned and others who were rescued are in a serious condition. The whirlwind when it struck the Olive caused her to go over on her beams end and when she righted it was only to sink on account of the water she had taken. A majority of the passengers and crew were below at the times and had no opportunity to reach the pilot house of the vessel. This point was the only portion left above water, and in it standing waist deep from the time of the accident until 6 o'clock in the morning, Captain George H. Withey and five others were saved. No complete list of the dead has been obtained. At 6 o'clock this morning the river steamer Pettit have in sight and rescued the almost frozen survivors. The Olive was a small single screw steamer owned by J. A. Pretlow, of Franklin, Va., and has been plying between North Carolina and Virginia for several years. She left Franklin last evening for Edenton and had almost reached her destination when the cyclone struck her. Sea of Hemlock Lumber. A stock inventory of the Goodyear Lumber Company shows 3,722,000 feet of rough No. 1 hemlock at the Galeton mill and 199,000 of the No. 2 quality. At the Austin mills there are 2,041,000 of rough No. 1 and 95,000 of No. 2. Of single surfaced stock there is in Galeton 580,000 of No. 1, and 1,416,000 of No. 2. The Austin mill figures are 366,000 and 1,537,366. The dressed and matched lumber at the Galeton mill is given as 480,000 feet of No. 1 and 1,564,000 of No. 2. The Austin showing is 617,000 and 205,000. Austin has also 53,000 feet of first quality Ship Lap lumber. The total number of feet of hemlock lumber in Galeton is 7,961,000, and in Austin 5,914,336, dry and partly dry. January was the banner month at the Goodyear mill. The amount of lumber turned out was the largest in its history and as the mill is keeping everlastingly at it day and night during every month in the year, there is no doubt but in the annual output of sawed lumber, the Galeton mill is the largest in the world.—Galeton Leader. Cassatt's Ambition. President Cassatt of the Pennsylvania railroad is 64 years old and he counts on 13 years more of active work. He looks as though he might live to be a hundred. He hopes to put the road all through New England, Long Island and New Jersey, and he does not want to see a pound of coal used on the entire system between Philadelphia and sections named.—Renovo News. Every Church. Or institution supported by voluntary contribution will be given a liberal quantity of the Longman & Martinez Pure Paints whenever they paint. NOTE: Have done so for twenty-seven years. Tendency of the Times. The tendency of medical science is toward preventive measures. The best thought of the world is being given to the subject. It is easier and better to prevent than to cure. It has been fully demonstrated that pneumonia, one of the most dangerous diseases that medical men have to contend with, can be prevented by the use of Chamberlain's Cough Remedy. Pneumonia always results from a cold or from an attack of influenza (grip), and it has been observed that this remedy counteracts any tendency of these diseases toward pneumonia. This has been fully proven in many thousands of cases in which this remedy has been used during the great prevalence of colds and grip in recent years, and can be relied upon with implicit confidence. Pneumonia often results from a slight cold when no danger is apprehended until it is suddenly discovered that there is fever and difficulty in breathing and pains in the chest, then it is announced that the patient has pneumonia. Be on the safe side and take Chamberlain's Cough Remedy as soon as the cold is contracted. It always cures. For sale by L. Taggart. It will be time enough to indict others when we have finished the inventory of our own faults. I have used Chamberlain's Cough Remedy for a number of years and have no hesitancy in saying that it is the best remedy for coughs, colds and croup I have ever used in my family. I have not words to express my confidence in this remedy.—Mrs. J. A. Moore, North Star, Mich. For sale by L. Taggart. When you can honorably do so the best way to conquer your enemy is to concour with him. The scratch of a pin may cause the loss of a limb or even death when blood poisoning results from the injury. All danger of this may be avoided, however, by promptly applying Chamberlain's Pain Balm. It is an antiseptic and quick healing liniment for cuts, bruises and burns. For sale by L. Taggart. It is easier to preach patience in the church than it is to practice it with our children. Nearly Forfeits his Life. A runaway almost ending fatally, started a horrible ulcer on the leg, of J. B. Orner, Franklin Grove, Ill. For four years it defied all doctors and all remedies. But Bucklen's Arnica Salve had no trouble to cure him. Equally good for Burns, Bruises, Skin Eruptions and Piles. 25c at L. Taggart's drug store. Chicago to Colorado. New overland service via Chicago, Milwaukee & St. Paul and Union Pacific line.
