The royal commission which has been investigating tuberculosis recommends rigid laws. Some of the points proposed are: Reporting of cases; compulsory confinement of recalcitrant patients in special institutions; prohibition of infected persons from acting as nurses, teachers or physicians.

Duke Carl-Theodor, of Bavaria, has for a great number of years followed the profession of a doctor. What was in his boyhood a hobby has become the serious work of his lifetime.

THEIR KNIVES IN HAND.

Democratic Classmen Are Preparing for the Presidential Nomination Fight.

It is cold-blooded business, this of starting booms for democratic presidential nominees merely to see "how the people take them" and what chances there are for making a real fight.

"The New Yorkers seem to understand that an unknown man like Parker cannot possibly make the appeal to the west which it is absolutely necessary should be made in order to hold out to the party workers any hope of a victory.

Meanwhile we are told that the Cleveland crowd is in dead earnest in efforts to secure the nomination of Richard Olney, while Mr. Bryan is trying to make Mayor Carter Harrison, of Chicago, his residuary legatee.

All of which is highly interesting as tending to show what is going on in democratic circles. It looks as though the final line-up in the democratic contest would be between Bryanism in the west and south and Clevelandism in the east.

GROWTH OF PHILIPPINE TRADE

Gratifying Improvement in Business Conditions in Our New Territory.

Although conditions in some parts of the Philippine archipelago are not prosperous, owing to events beyond human control, there is evidence of gratifying improvement in the condition of the archipelago as a whole.

For the month of September, which is the latest period concerning which statistics are available, the export trade of the islands amounted to \$3,589,535, which makes the record for any month that has elapsed since the United States took possession of the islands.

Imports, too, have increased. In September last those of merchandise amounted to \$2,785,009, or about \$500,000 more than in September of 1901.

Barring the unforeseen, there should be henceforth steady increase in the trade of the Philippines, and especially their trade with the United States, soon to be facilitated by the establishment of communication by cable, should develop healthy growth.

No Rejoicing Over Teller.

It will be noticed that the democratic papers of the country at large are not jubilating over the reelection of Senator Teller. They are saying that he is not a democrat anyhow, and that his vote will not be cast for democratic policies.

The Commercial club, of Kansas City, has asked the Missouri legislature to appropriate \$20,000 for a statue of Thomas H. Benton, to be erected in Kansas City.

PLANS OF JUDGE PARKER.

The New York Democratic Possibility Takes Mention of His Name Seriously.

Judge Alton B. Parker, of New York, during the recess of the court of appeals a few months hence, is to make a tour of the southern states, and deliver addresses in several of them.

Hill accomplished nothing by his "snap" convention and his southern crusade. Will Judge Parker have better fortune? Possibly he may. The judge is an unknown in politics, and as such he has charms for the democratic politicians, who are anxious to get a man who can carry the country on any sort of a device or subterfuge.

Much interest is taken in Parker in the south. Many of the newspapers and politicians in that region have proposed him for the presidency, chiefly on the ground that he has made no political record at all, he is more available than the experienced men of all elements of their party.

LEGISLATION AGAINST TRUSTS.

Important Cases Upon Which Congress Has Passed and Others on the Way.

It looks now as if congress might enact important anti-trust legislation at this session. One important measure has already passed both houses and is now in conference committee with every prospect of becoming a law in a short time.

Another part of the administration plan, as embodied in a bill drawn by the attorney general, was to forbid the giving or taking of railroad rebates, or the departing from published rates by a carrier through any device whatever, and giving the courts civil and criminal jurisdiction over the subject, both to restrain such practices and to punish them.

A third measure suggested by the attorney general was a bill to expedite the hearing and determination of cases under the Sherman anti-trust law. Several important cases are now pending in the courts, including the Northern Securities case, the beef trust case and the railroad injunction suits.

Those papers which are attributing to the protective features of the sugar duty the present magnitude of the sugar trust, as it is called, are ignorant of the facts. The high duty on sugar is on raw sugar, but the duty on refined sugar is only eight cents per 100 pounds, or about two per cent.

THOUSANDS OF AMERICANS FOR WESTERN CANADA.

"There will be thousands of Americans coming up here in the Spring," was the remark made by a farmer from the vicinity of Langdon, North Dakota, when he arrived in Winnipeg, Manitoba, the capital of Western Canada, a few days since.

The impression general in the part of Dakota where I live that farmers can get from 10 to 15 cents more a bushel for wheat on the American side of the line than on the Canadian side has not prevented people from turning their eyes to Canada as a place to live in.

The Government has established Agencies at St. Paul, Minn.; Omaha, Neb.; Kansas City, Mo.; Chicago, Ill.; Indianapolis, Ind.; Milwaukee, Wis.; Wausau, Wis.; Detroit, Sault Ste. Marie, and Marquette, Mich.; Toledo, Ohio; Watertown, S. Dakota; Grand Forks, N. Dakota; and Great Falls, Montana, and the suggestion is made that by addressing any of these, who are the authorized agents of the Government, it will be to the advantage of the reader, who will be given the fullest and most authentic information regarding the results of mixed farming, dairying, ranching and grain-raising, and also supply information as to freight and passenger rates, etc., etc.

New Cure for Lame Back.

Rutledge, Minn., Feb. 16th.—Mr. E. C. Getchell of this place relates a happy experience which will be read with interest by all those who have a similar trouble.

It appears that last winter Mr. Getchell was seized with a lameness and soreness in his back which grew worse and worse till at last it became very bad and made it very difficult for him to get about at all.

After a time he heard of a new remedy for backache which some of his friends and neighbors said had cured them and he determined to try it. The name of the remedy is Dodd's Kidney Pills and Mr. Getchell has proven that it is a sure cure. He says:

"I used two boxes of Dodd's Kidney Pills according to directions and my lame back was entirely cured and I am all O. K. again. Dodd's Kidney Pills are as good as represented."

This remedy is very popular here and has worked some remarkable cures of Backache and Kidney Trouble.

"Some men," said Uncle Eben, "gives deirse credit for habbin' patience, when in reality dey is merely enjoyin' a loaf."—Washington Star.

How an abscess in the Fallopian Tubes of Mrs. Hollinger was removed without a surgical operation.

"I had an abscess in my side in the fallopian tube (the fallopian tube is a connection of the ovaries). I suffered untold misery and was so weak I could scarcely get around. The sharp burning pains low down in my side were terrible. My physician said there was no help for me unless I would go to the hospital and be operated on. I thought before that I would try Lydia E. Pinkham's Vegetable Compound, which, fortunately, I did, and it has made me a stout, healthy woman. My advice to all women who suffer with any kind of female trouble is to commence taking Lydia E. Pinkham's Vegetable Compound at once."—Mrs. Ira S. Hollinger, Silville, Ohio.—\$5000 forfeit if original of above letter proving genuineness cannot be produced.

It would seem by this statement that women would save time and much sickness if they would get Lydia E. Pinkham's Vegetable Compound at once, and also write to Mrs. Pinkham at Lynn, Mass., for special advice. It is free and always helps. No other person can give such helpful advice as Mrs. Pinkham to women who are sick.
