MRS. MARTIN GERMOND AND FAMILY.

A curious feature of the fire-works program during the dedication ceremonies at the World's Fair, St. Louis, will be the release of a large balloon made of the finest and lightest oil silk, and filled with the best quality of hydrogen. To this balloon will be attached, under proper safeguards to prevent injury, a notice directed to the finder that on return of the notice to the Exposition officials a season pass to the Fair will be given. It is estimated that the balloon under moderately favorable conditions will travel a thousand miles before returning to earth. It is likely that much interest will be displayed on the night of the balloon's release as to the direction of the wind and the localities in the fortunate direction will be on the lookout for the treasure-laden messenger.

Danger of Colds and Grip.

The greatest danger for colds and grip is their resulting in pneumonia. If reasonable care be used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of that dangerous disease. It will cure a cold or an attack of the grip in less time than any other treatment. It is pleasant and safe to take. For sale by L. Taggart.

A Clinch.

The editor of the Glasgow Echo avers he is not much of a sport; but, he says, "when we meet a clinch in the road we recognize it." He accepted a proposition the other day, made by a friend, through which he was to give his friend a dime for every time a woman passed them and did not put her hand behind her to learn if her skirt was all right behind. On the other hand, the editor's friend agreed to give him a nickel for each time a woman felt of her belt behind. "We got sixty-two nickels," the molder of opinion says, "and paid him one dime. A woman with both arms full of parcels came along."

Wax From Trees.

The wax palm of the Andes is a vegetable wonder. It grows to a height of nearly 200 feet and thrives not only on the plains, but the mountains. The wood is tough and durable and is employed in carpentry. The wax comes from the pits between the trunk and fronds. It is yellow or grayish white, is as pure as beeswax and is used for making candles. A peon climbing the trees can gather from twenty to thirty pounds from each.

Makes a Clean Sweep.

There's nothing like doing a thing thoroughly. Of all the Salves you ever heard of, Bucklen's Arnica Salve is the best. It sweeps away and cures Burns, Sores, Bruises, Cuts, Boils, Ulcers, Skin Eruptions and Piles. It's only 25c, and guarantee by L. Taggart, druggist.

Due Notice is Served.

Due notice is hereby given on the public generally that DeWitt's Witch Hazel Salve is the only salve on the market that is made from the pure unadulterated witch hazel. DeWitt's Witch Hazel Salve has cured thousands of cases of piles that would not yield to any other treatment, and this fact has brought out many worthless counterfeits. Those persons who get the genuine DeWitt's Witch Hazel Salve are never disappointed, because it cures. R. C. Dodson.

Wise is the fool who knows enough to keep it to himself.

For liver troubles and constipation There's nothing better in creation Than Little Early Risers, the famous little pills. They always effect a cure and save doctor bills. Little Early Risers are different from all other pills. They do not weaken the system, but act as a tonic to the tissues by arousing the secretions and restoring the liver to the full performance of its functions naturally. R. C. Dodson.

Prejudice is an illiterate vice.

Good for Children. The pleasant to take and harmless One Minute Cough Cure gives immediate relief in all cases of Cough, Croup and LaGrippi because it does not pass immediately into the stomach, but takes effect right at the seat of the trouble. It draws out the inflammation, heals and soothes and cures permanently by enabling the lungs to contribute pure life-giving and life-sustaining oxygen to the blood and tissues. R. C. Dodson.

Some people are too busy doing nothing to learn a trade.

Letter to F. W. Ventzer.

Emporium, Pa. Dear Sir: We hear you're doing a good business, and we know already, without your telling us, that you use good paint and do good work. We've got a big business too—been at it 149 years—making good paint, best paint in the world, Devoe Lead and Zinc.

"Fewer gallons and wears longer"—that's the reason in short. It takes fewer gallons of Devoe Lead and Zinc than of mixed paints to cover a house, and it wears longer than lead and oil or any mixed paint.

Smith & Wilber, Cambridge Springs, Pa., write: "One of our painters says Devoe is the best paint for a painter to use when taking work by the job as it goes farther and covers better than any paint he has ever used."

Here's the experience everybody has with it. The dealer who sells Devoe gets the bulk of the paint business of his town. The painter who paints Devoe gets the painting of his town.

Yours truly, F. W. DEVOE, & Co., New York.

P. S. Murry & Coppersmith sell our paint.
