The Press and Printer says: Talk about the uncertainties of advertising makes one tired. Advertising is no more uncertain than merchandising or manufacturing. Mistakes are made in advertising just as they are in other operations. When advertising is done right it is just as sure to pay dividends as a wisely managed bank.

An exchange says that any man who owns and works 160 acres of land and buys two boxes of sandy strawberries for a quarter when he might raise them—plenty of big, lucious berries—is living away behind the privileges and opportunities. Try more berries and one less hog.

Monday evening a lady living on Fourth street, wishing to wash off her piazza, affixed the hose and set a lamp in the window to see by. Some of our young fire laddies seeing the lamp from a distance thought it a fire and made record time in reaching it, grabbing the hose from the astonished lady's hands. They turned it on the lamp and had the fire out "instanter." The boys feel very modest over their gallant feat and do not wish us to give their names.
