WASHINGTON LETTER. (From our Regular Correspon Washington, June 15, 1903.

What the French call a "bad quarter of an hour" awaits the President to-day. He has promised to entertain the national committee of the B'nai Birth, the greatest Jewish organization in the world, and listen to their protests against the treatment of their fellow countrymen at Kishenev. That his interview with the prominent Hebrews who will call on him will be embarassing the President fully appreciates. He has consulted Secretary Hay and Count Cassini, the Russian Ambassabor, and he is unable to find grounds which, from a diplomatic standpoint, will warrant anything in the nature of a protest to Russia and yet his entire sympathies are with the jews and if he could he would gladly comply with their wishes and express to Russia the horror with which he has learned of the Kishenev atrocities. Mr. Roosevelt also appreciates that aside from the diplomatic aspect of the situation this country, at least to some extent live in a glass house. Our own record is not without a blot. Only recently a colored man was burned and shot in a western state and lynching, riotings and dynamitings within the past year have been numerous. The federal Government does all in its power to correct these abuses but cannot prewent them and that is the profession of Russia so that whether we

would be successful. The ance Northern portion of the Andes cuts off all communication between these two states and the rest of the country by land and the Colombian Government has no navy. Moreover the Goverment is bankrupt and could hardly raise the funds with which to carry on a war. The two states named would make a country larger than the republic of Costa Rica and all of the inhabitants favor the construction of the canal. As the two states would be virtually divided by the canal zone there would be almost two countries after the canal was built and it is probable that a peaceful and prosperous little republic which could easily meet its necessities with the \$250,000 annuity which this country will pay as rental for the canal would result from such a revolution.

# COUPON. This coupon, if presented at my store, entitles the holder to a two day's' treatment of Mi-o-na, the great dyspepsia cure. L. TAGGART.

This distribution of samples shows more conclusively than anything else possibly could the great merit of this remedy. If Mio-ona did not do all that is claimed for it the distribution of samis claimed for it the distribution of sam.<sup>1</sup> pies would be the most foolish way the proprietors could take to advertise it. Many people prefer to buy a 50 cent box intead of trying a sample, as L Taggart agrees to refund the money if the remedy does not give perfect satis-faction, so that the purchaser runs no risk whatever. Go early to-day to L. Taggart's store with your coupon, for while the supply of samples is large yet the many calls will soon exhaust it. 16-2t.

believe in Russia's sincerity or not we can hardly affort her by an expression of open incredulity.

Another delicate situation has been precipitated by the recent Servian revolution, accompanied as it by the assassination of the King and Queen and many of the subjects who remained royal to them. Regardless of the merits of the case it is impossible not to be horrified at the frightful violence of the revolutionists and yet there is no diplomatic warrant for an expression of sympathy or regret, expecially as such would be construed as an insult to the new ruler. Under the circumstances, the President will refrain from an expression on the subject as will doubtless the representatives of many other nations.

Advices received from confidential agents of this country in Colombia indicate that there is considerable liklihood of a revolution there as a direct result of the panama canal proposition made by this Government. It is reported that if the Colombian congress fails to promptly ratify the treaty the states of Panama and Cauca, both of which are on the isthmus, will secede from the main country. While it is probable that such secession would be resisted to some secession would be resisted to some extent it is doubtful if the resist-ladder of fame to make them dizzy.

His Last Hope Realized. [From the Sentinel, Globe, Mont.] In the first opening of Oklahoma to settlers in 1889, the editor of this paper was among the many seekers after for-tune who made the big race one fine day in April. During his traveling about and afterwards his camping upon his claim, he encountered much bad water, claim, he encountered much bad water, which together with the severe heat, gave him a very severe diarrhoea which it seemed almost impossible to check, and along in June the case became bad he ex-pected to die. One day one of his neigh-bors brought him one small bottle of Chamberlain's Colie, Cholera and Diar-rhoea Remedy as a last hope. A big dose was given him while he was rolling about on the ground in great agony, and in a few minutes the dose was repeated. The good effect of the medicine was noticed and within an hour the patient was taking his first sound slee p for a fortwas taking his first sound sleep for a fortwas taking his trac source point a form night. That one little bottle worked a complete cure, and he cannot help but feel grateful. The season for bowel dis-orders being at hand suggests this item. For sale by L. Taggart.
