NO FIGHT ON THE TARIFF.

Republicans, Masters of the Situation, Will Head Off Democratic Plots.

According to Senator Gorman, "at the coming session of congress the joint resolution to affirm the Cuban reciprocity treaty will open up a general tariff debate." The senator is mistaken.

The republicans have a good working majority in each branch of congress. They will be in complete control from the moment that body meets until it adjourns without day, on March 4, 1905.

NOT MERELY PLAYING.

The President Has Established a Reputation for Honesty and Sincerity.

Within a year from the present time both political parties will have held their national conventions and made their nominations for president and vice president. Usually at this stage of the proceeding there is evident a good deal of combination and wire pulling on both sides to secure the respective nominations.

FRESH OUTBREAKS.

They are Reported from Various Portions of Macedonia—Danger of a Bulgarian-Turkish War Increases.

Sofia, Aug. 22.—All the dispatches received here indicate that the revolution in Macedonia is spreading. The situation is causing intense anxiety in official circles.

The insurgents burned the villages behind Vasiliko and attacked a Turkish military post at the monastery of Elijah, south of Tiernovo.

The peculiar danger of the latest outbreak lies in its proximity to the Bulgarian frontier, thus creating a situation long foreseen and dreaded by the Sofia government.

The Sofia Dnevnik declares that all the Turkish vilayets in Macedonia will be in full revolt August 28 and that the revolution is spreading from Salonica into the districts towards Seres.

MAGNIFICENT SPECTACLE.

President Roosevelt Reviews a Fleet of 22 United States War Vessels—A Slight Accident Occurs During the Maneuvers.

Oyster Bay, N. Y., Aug. 18.—For the first time in the history of the country the president of the United States reviewed and inspected, in time of peace, a great fleet of United States warships.

The incident was exciting. It occurred just at the moment when the president was receiving congratulations upon the success of the maneuvers.

The first squadron of destroyers, consisting of the Decatur, Bainbridge, Barry, Dale and Chaney, all under command of Lieut. L. H. Chandler, was approaching the Mayflower at full speed.

The review occurred on Long Island sound, two miles and a half off the entrance to Oyster bay, President Roosevelt in company with Secretary of the Navy Moody, Admiral Dewey, Rear Admiral Taylor, Rear Admiral Rodgers, Capt. A Favorable Report as to Commercial Conditions. New York, Aug. 22.—R. G. Dun & Co.'s Review of Trade says:

Business is well maintained, aside from the quieting influence of the vacation season which somewhat restricts trade and retards collections. Making due allowance for the period, there is no cause for complaint.

In spite of several reasons for expecting a check to freight traffic, earnings of railways thus far reported in August show an average gain of 9.6 per cent. over last year.

Failures this week numbered 238 in the United States, against 207 last year, and eight in Canada compared with 30 a year ago.

SCAFFOLD COLLAPSED.

One Man Killed and Several Injured in an Accident at Pittsburg.

Pittsburg, Aug. 21.—By the collapse of a scaffold last night in the annex to the Joseph Horne Co. building on Penn avenue, one man was killed and two others so seriously hurt that they will probably die.

The dead man is: Samuel Brooker, and the injured are: B. Thompson, colored. Hopsaw, colored.

In the remodeling of the large office building adjoining the Horne store for the purpose of enlarging the company's store room, ten workmen were on a scaffold on the sixth floor engaged in tearing down a partition between the two buildings.

When the first warning of weakness in the scaffold came several workmen succeeded in saving themselves by clinging to the steel girders that were stretched across the building. Brooker was carried all the way to the cellar and when dug out from the debris was dead and horribly mangled.

WILL IT FLY?

It Is Rumored That Prof. Hill Is Working on a Flying Machine.

late the legislation which is to be had. They will determine the things which are to be considered and those which are to be ignored or shelved.

Probably the democrats have two things in mind in connection with their tariff discussion programme. They might bring out some differences of opinion among the republicans on the general subject of tariff alterations, and they would delay needed legislation.

Gorman Welcomed. Gorman's boomers among the democrats cannot understand how it is that the republicans are disposed to welcome that personage as a possible candidate.

popularity, but he has added steadily to the strength of the party. It is no exaggeration to say that President Roosevelt is to-day the most popular man in the United States and that the republican party is stronger than it was when he became president.

POINTED PARAGRAPHS.

The difference between the Borelli comet and the long-sought democratic issue is that the comet may be seen with a powerful glass.—St. Louis Globe-Democrat.

When Mr. Bryan employs the epithet bunco steerer he forgets that many people regarded his free silver programme as something rather similar to a green goods game.—Washington Star.

Mr. Gorman, as a democratic expert, observes that "we seem to be getting away from a number of false ideas the party has been chasing around after in the past few years."

William J. Bryan is his own worst enemy. No man ever broke into national politics more easily or cut a wider swath at the beginning of his career with brighter prospects of future growth.

From an orator of national reputation, though in advocacy of wrong principles, he has sunk to the level of a political slang-whanger. His personal abuse of Mr. Cleveland in his speech at Urbana shows the long distance between a gentleman and a blather-skite. Mr. Cleveland does well never to notice him.—Indianapolis Journal.
