Possibly the rejection of the Panama

#### Republicans Exult Over the Rescu

of the State from Populistic Tendencies.

The dominant note in the Nebraska republican platform adopted at Lincoln is one of rejoicing over the escape of the state from Bryan and Bryanism.

The Nebraska republicans are republicans, not populists. They are strongly in favor of the Roosevelt policies. They adhere to the protective policy and they regard the Philippines as American territory, says the Chicago Inter Ocean.

In all these things they antagonize Mr. Bryan, who for ten years has been trading on the disappointments and discontent of the western people. Nebraska gave Harrison a plurality of 4 079 for president in 1892. In 1894 the populists united with the democrats and defeated the republican candidate for governor. In 1895 the republicans elected their candidate for supreme court judge, but in 1896 the state gave Bryan a plurality of 12,935 over McKinley, and the legislature came under the control of the fusionists.

In 1897 the fusionists carried the state by a plurality of 13,879, elected their candidate for governor in 1898 by a plurality of 2,721, and their candidate for supreme judge in 1899 by a plurality of 15.107

That was the last fusion victory in Nebraska. In 1900 the people of the state, with the issue of republicanism against Bryanism before them, gave Mc-Kinley a plurality of 7,822, and elected republican state officers, and a republican legislature. The republicans carried the state by 20,000 in 1901, and elected the governor in 1902 by a plurality of Nebraska has now republican letter: state officers and a republican legisla-ture, and is represented at Washington by two republican senators and four republicans and one fusionist in the house.

Little wonder is it that the Nebraska republicans exult over the rescue of the state from Bryan and Bryanism.

#### MR. BRYAN DEFENDED.

Plenty of Reasons Why He Should Not Be Whipped Into the Dem-

ocratic Fold.

The press of the country is very generally condemning Mr. Bryan for his present course in politics. The eastern democratic papers particularly are blaming him. His stubborn opposition to the plans of those who are seeking to reorganize the party is denounced as unreasonable, illogical and inexcusable. And yet, asks the Kansas City Jorunal (Rep.), who, in Mr. Bry-an's place, would do otherwise than Mr. Bryan is doing?

The democratic party failed in the two campaigns in which the Nebraskan was its candidate for the reason that, as Mr. Bryan believes, a number of its prominent leaders were indifferent or nostile to its interests. He suffered the ignominy of defeat and the crushing of his ambitions. Now he finds these same leaders who were responsible for his ruin organizing a C. Dewalt, of Lehigh county. responsible for his ruin organizing a movement to repudiate him and his platform and assume the management of the party in its next campaign. What is more natural or reasonable than that he should rebel against such a programme and exert all his strength to defeat it?

Suppose that Mr. Bryan should quietly submit to the plans of the reor-ganizers. Suppose that he should pas-it deals with the last legislature and ganizers. Suppose that he should passively consent to being discredited and its work and the conduct of the state

Sensational Murder and Suicide in New York City.

Because She Refused to Elope With Him Henry T. Edson, Son of a Former Mayor of New York, Killed Mrs. Fullen and

Took His Own Life.

New York, Sept, 3.—Henry Townsend Edson, son of an ex-mayor of New York, Franklin Edson, in his apartments at 292 West Ninety-see-ond street, yesterday shot and in-stantly killed Mrs. Fannie Pullen, of 673 West End avenue, and then shot and killed himself. The murder and suicide appear to have been premeditated and followed a dramatic scen in which Edson called upon Mrs. Pul-len, a close and honored friend of his wife and family, to desert her husband and children and fly with him to another state. Mrs. Pullen, a very handsome woman, is said to have been the daughter of a United States

naval officer. The double tragedy brought to the surface the fact that Edson, who was "comptroller" of St. Michael's Protescomptroller of St. Michael's Protes-tant Episcopal church, had been sus-pected of misappropriating funds be-longing to the parish and that ex-pert accountants were at work on his accounts. It was also declared by those related to the family that Ed-pert accounts and the family that Edson was financially distressed cause of Wall street speculation. be

Telers, of St. Michael's church, who knew the dead man well, is emphatic in his dec-laration that none but the most laration that none but the most honorable relations existed between Edson and Mrs. Pullen. She was, he said, Edson's "friend and adviser."

Mrs. Pullen lived with her husband, John Pullen, an auditor at the Grand Central station, and her two children. The Edsons were to break up their home yesterday, as a result of an agreement to separate.

Evidence is rapidly accumulating of the desperation to which the democratic party is reduced in its search for a promising candidate for the presidency. It no longer attempts to define the sort of democrat that is desirable, but sums up in these words: "Anybody to best Roosevelt!" That is honest, at least and it undoubtedly sizes up the democratic situation. But the democratic battleery is not an inspiring one. The Grant!"
