

DEATHS IN THE TUNNEL.

Terrible Fall of Rock In the New York Subway.

Dowie's Family History—Aluminum Patents—Increased Immigration. Sudden Death of Professor Thurston—New Trotting and Pacing Records—Injured Woman Given \$50,000.

Ten men were killed by a cave-in of the roof and walls of the New York city subway tunnel at 195th street Saturday night and four were badly injured. All of the dead and injured were workmen, and most of them Italians.

The accident was the most disastrous that has occurred in the construction of the subway. At the point where the cave-in occurred a gang of 20 men were at work in the tunnel which is about 110 feet below the surface.

The tunnel was being bored by opening a perpendicular embrasure and blasting the sides to the right and left of this embrasure. Three blasts were arranged for by the drillers, the holes being charged well toward the roof. The drillers then withdrew and the three blasts were set off in rapid succession by electricity, loosening large quantities of rock.

The drillers say that about 10 minutes elapsed to allow the smoke to clear away before Timothy Sullivan, the foreman, and Electrician Schuette advanced, the latter intending to string wires and hang electric lamps to light the way.

They were followed by 16 workmen. The vanguard of the gang had reached the broken stone when a rumbling sound was heard. It grew in volume with lightning-like rapidity. Those in the rear had just time to turn about and run, when with a deafening crash hundreds of tons of rock fell on the men at the face of the boring.

The drillers and two or three Italians who were out of reach of the deluge of rocks were knocked flat on their faces by the rush of wind driven through the tunnel.

The cave-in released a natural spring in the earth above the tunnel and in a few minutes a stream of water was gushing in and trickling about the feet of the workmen and to some extent interfering with the work of rescue.

Dowie Family Story.

In a broken voice, with tears streaming down his face and his body shaking with emotion, John Alexander Dowie in Madison Square garden in New York Monday night before an audience of 10,000 persons, announced that he was not the son of John Murray Dowie, Esq., from whom he takes his patronymic, but of a British army officer of high family by a "Scotch marriage."

He heaped vilification upon John Murray Dowie, who he declared had made his mother believe her marriage to Dowie's father was shameful. The army officer, he said, having been taken away by his relatives, his mother in the first flush of her shame had sought to give her son a name by marrying John Murray Dowie.

"My father was a man of high standing. He led one of the great charges in the Crimean war and died like a soldier at the head of his troops.

"I want to say that I never wanted this story to come out, but it is known that I am not the son of the miserable scoundrel who, in order to strike at me, sold the letters in which I reproached him, to the vile press of New York."

Weekly Trade Review.

Bradstreet's review of trade says: The week's developments have favored an increase in the conservatism which has ruled in many lines for some time past. Good and poor reports combine to give an appearance of irregularity to general trade as a whole.

Fluctuations in grain prices have been numerous but complications have caused some covering in wheat, but the general drift was lower because of expected freer movement from the Northwest, favored by good weather.

Cotton prices reflect short covering due to a paring down of estimates of yield, based upon frost damage, stories of lighter than expected receipts, and rather better spinning demand here and abroad.

The iron and steel trades do not show much, if any, change. Prices are weak.

Stock prices at New York are irregular and somewhat heavy, following the shutting down of the Montana plants of the Amalgamated Copper company.

Decision on Aluminum Patents. A case involving the entire aluminum industry of the country was decided in New York last week when the United States court of appeals handed down a decision upholding the validity of the so-called Bradley patent for smelting by the use of electricity.

The suit was one brought by the Electric Smelting and Aluminum company of Cleveland against the Pittsburgh Reduction company, the only concern manufacturing aluminum in this country with plants at Niagara Falls and Massena, N. Y., and the court reversed the decision of the lower court, granted the Cleveland company an injunction restraining the Pittsburgh Reduction company from the use of the processes at present employed and ordered an accounting of profits for the

time that it has been manufacturing aluminum in infringement of the Bradley patent, some 12 years.

Says Panama Route Is Dead.

While President Roosevelt designated in his proclamation calling congress into extraordinary session on November 9 only the subject of Cuban reciprocity for consideration, Senator Morgan of Alabama has indicated to some of his colleagues his intention of introducing a resolution bearing upon the isthmian canal question. He will demand consideration for the question raised, and will endeavor to show that the Panama route is beyond consideration and he will urge that it is the duty of the president, under the Spooner law, to construct the canal immediately by the Nicaraguan route.

Nearly a Million Immigrants.

The annual report of Immigration Commissioner General F. P. Sargent shows a large increase of steamer immigration over that of the preceding year, the aggregate for the fiscal year of 1903 being 857,046, an excess over that of last year of 208,303, or 32 per cent.

The statistics show an increase in immigration from all foreign sources. Of the total steamer immigration there came from Europe 814,507, from Asia 29,996 and from all other sources 12, 573.

The total amount of money brought by them into the United States was \$16,117,513.

Sudden Death of Professor Thurston.

Professor Robert H. Thurston, director of the Sibley college of engineering, Cornell university, died suddenly at Ithaca Sunday night. He was sitting in his library shortly before 6 o'clock awaiting the arrival of former President Andrew D. White, Dean Hufferd of the college of law, Professor Hewett and others who were to be his guests at dinner, this being his 64th birthday. He seemed to fall asleep but when his wife made efforts to rouse him she found him unconscious and he died before a physician could be summoned. Heart disease was the cause of death.

Lou Dillon Trotted a Mile in 1:58 1/2.

Lou Dillon, queen of trotters, safeguarded her supremacy by a wonderful performance at the Memphis Driving park Saturday afternoon. Paced by two runners, the celebrated little mare stepped a mile without a break in 1:58 1/2, establishing a new world's record for trotting horses.

After the mare had been blanketed and sent to her barn, Sanders, her driver, said:

"It is my opinion that Lou Dillon can trot as fast as any horse in the world can pace, and next year I will show it."

Dan Patch Paced a Mile in 1:56 1/4.

The third day of the harness racing at the Memphis Trotting association track on Thursday last was made memorable by the magnificent performance of Dan Patch, who paced a mile in 1:56 1/4, clipping three-fourths of a second from the world's record of 1:57 held by Prince Alert and lowered his own record by two and three-quarters seconds.

Injured Woman Given \$50,000.

The suit of Catherine Reddy of Yonkers against the New York Central for \$100,000 damages, was begun before Supreme Court Judge Gaynor and a jury. Mrs. Reddy was brought into court in a chair carried by attendants. She was in a wreck on the New York Central at Fancher, a town near Niagara Falls, and claims to have been badly injured. Mrs. Reddy was awarded a verdict of \$50,000, the largest sum ever awarded to a woman.

THE CHAMPION MIXED PAINT

Sold by L. TAGGART has no superior. Fourteen years ago I painted my house with these paints and am now, for the first time since, repainting it. H. L. Smith, the painter, says he never knew of a house in better condition for painting after having stood so long. A gentleman, whose name I will not mention, living in our town, painted his house thirteen years ago, with these paints and he has engaged some painters to repaint, saying that he would have no other.

Dr. Heilman will also testify as to the merits of these paints. County jail painted four years ago. John Lind's two houses painted two years ago and many others, all speak for the virtue and staying qualities of these paints, and is better evidence than any man's word. Look at them; then buy the Champion paints and paint your house and be happy. Also paper your house with the elegant wall paper at Taggart's and be doubly happy.
