The latest craze in New York among the very wealthy is an extravagant style of invitation card. Not long ago the wife of a millionaire ordered 200 of these from a local firm and they cost her just \$10 each. The cards were made of ivory edged with gold, the name of the guest and hostess being lettered in gold on one side, the other being hand-painted. Cards at \$5 each are quite common.

A power transmission installation is now being erected at Bageline, in Italy, in which a pressure of 40,000 volts will be used—the first instance in Europe of so high a voltage being employed. The project is designed to distribute power to the town of Brescia, and the neighboring works. Power will be derived from the River Caffaro, rising in the Tyrolean Alps, and Italians.

dential contest in 1994."
The victory, great as it is for McClellan, is of more significance to Mr. Murphy, who made up the democratic ticket and who managed the campaign. Defeat would have meant for him developing to the property of the contest paign. Defeat would have meant for him deposition from his post as leader, with all its powers and opportunities and the accession to control of another faction. Indeed, plans had been made by certain independent democrats, based on the belief that Low would be re-elected, to reorganize the democracy of the city with Tammany left out. To Mr. McCarren, also, the result meant much, for had McClellan lost, McLaughlin would have again been in control and McCarren and his friends would have had little to hope for. The carrying of Brooklyn for McClellan caused astonishment, as it was believed the cryof "no red lights in Brooklyn" would cause an increased vote for Low in of "no red lights in Brooklyn" would cause an increased vote for Low in that borough.

The campaign was one of the most

The campaign was one of the most interesting in the history of New York City. From the day Mayor Low was renominated his supporters urged his re-election on the ground tha no partisan question was involved, but that every man should vote to uphold the existing administration because it had given the city a business-like conduct of affairs and because it had done much to stamp out the "red light" evil of the East Side. It was argued by fusionist orators that the

had done much to stamp out the "red light" evil of the East Side. It was argued by fusionist orators that the return of Tammany men to office would mean a "wide open town," unrestricted in lawlessness and the renewed terrors of the infamous "cadet system" by which ignorant girls were forced into lives of shame.

Mr. McClellan was attacked by the speakers for the fusionists because, they alleged, he had sold the name his father honored to cloak the designs of evil men. To these statements the democrats responded with the charge that Low's non-partisan claims masked an attempt to secure control of the city in the interest of Gov. Odell; that all of the credit for the good business administration under Low belonged to Grout, who was on the democratic ticket, and that every democrat should cast his ballot for McClellan in view of the important bearing this city's vote would have on the presidential election next year. Both candidates made nightly speeches.

VIRGINIA.

Richmond, Nov. 4.—The elections in Virginia, which was for members of the assembly, have resulted in a democratic sweep of the state. There were few contests, the field as a rule being left open to the democrates.
