**They Say.**  
That it is an ill wind that blows in the family doctor.  
That even the dentist couldn't kill the nerve of some people.  
That to most girls a court room is the parlor of papa's house.

**Letter to Josiah Howard.**  
Emporium, Pa.  
Dear Sir: Three gallons saved is \$12 to \$15 earned.  
Mr. Hanford Platt of Bridgeport, Conn., ordered 15 gallons Devoe to paint his house, and returned 3 gallons. His painter said it would take 15; a lead-and-oil painter.

Hubbell & Wade Co., sold it. They say everybody has the same experience there.  
The reason is, of course; they are used to poor paint.  
What is poor paint? Anything not Devoe; some worse than others.  
Besides, paints wear about as they cover. Double the \$12 to \$15.

Yours truly  
F. W. DEVOE & Co.  
P. S. Murry and Coppersmith sell our paint. 21.

An unbridled tongue goes with an unburdened brain.

Mrs. Elizabeth Easterbrooks has recently remodeled and improved the interior of her Ice Cream Parlors, refurnishing and greatly adding to the attractions of this popular establishment. She is now prepared to serve the popular Warren Ice Cream and soft drinks of various kinds. Private families and parties supplied with cream in quantity. 11-3t

**Quick Arrest.**  
J. A. Gullidge, of Verbena, Ala., was twice in the hospital from a severe case of piles causing 24 tumors. After doctors and all remedies failed, Bucklen's Arnica Salve quickly arrested further inflammation and cured him. It conquers aches and kills pain. 25c at L. Taggart, Druggist.

**WHY NOT STAND PAT?**

**For What Reason Should There Be Any Tampering With the Present Tariff?**

Why should there be any tampering with the present Tariff, as Free Traders are proposing that they should? It is working satisfactorily. All the strenuous efforts that have been made to create opposition to it in Protectionist ranks have ended in failure. It is giving American labor and American capital the degree of Protection that it was designed to give; it is yielding the Government sufficient revenue; the business of the country is adjusted to it; and under it our foreign trade is making progress unexampled in the history of the republic. Why upset these conditions in order to experiment with something unknown?

Do the opponents of the Dingley law fully realize what has been accomplished under it and by it since it went into effect? Since 1897 our manufactured exports have jumped from \$277,000,000 to \$408,000,000 for the fiscal year of 1903; our agricultural exports from \$684,000,000 to \$873,000,000, and our total exports from \$1,050,000,000 to \$1,425,000,000. Our imports, in the same period, have grown from \$765,000,000 to \$1,025,000,000—pretty effectual evidence that the present Tariff is not shutting out foreign commodities to any alarming extent—while our total foreign trade has increased from \$1,515,000,000 to nearly \$2,500,000,000. Our exports to every quarter of the globe, in this interval, have grown amazingly—to Europe 50 per cent., to North America 75 per cent., to South America 30 per cent., to Asia and Oceania 50 per cent., to Africa and other countries 120 per cent.

Since 1899 there has not been a year that the Dingley law has not produced ample revenue. In 1900 it yielded a surplus of \$80,000,000, in 1901 a surplus of \$78,000,000, in 1902 a surplus of \$91,000,000, in 1903 a surplus of \$54,000,000, and it promises to yield a comfortable surplus during the current fiscal year.

By means of the revenue that this law has produced, we have been enabled not only to pay the ordinary expenses of Government, but to maintain a big gold reserve—a thing absolutely indispensable to the maintenance of the integrity of our enormous paper and silver circulation; to put the new republic of Cuba on its feet; to restore peace in the Philippines; to build up our navy; to buy out the old Panama Canal Company; to defray the cost of the war with Spain, and at the same time keep down the national debt. On June 30, 1903, the close of the last fiscal year, the net amount of the national debt was \$925,000,000—a debt smaller than that existing at the end of the second Cleveland administration.

There is not a nation on the globe that does not view this showing with pangs of jealousy. Great Britain would willingly barter her birthright, figuratively speaking, to be able to make a similar showing. Germany, France and Austria-Hungary stand astounded at the vast results that have been achieved by the United States under half a decade of "Dingleyism."

Why is it that it is in our own country alone that persons can be found who cannot appreciate what has been accomplished under the present Tariff? The only apparent explanation is that there is a lesion somewhere in their mental make-up. Fortunately, these persons constitute only a small minority of the American electorate.—New York "Commercial."

**Whooping Cough.**  
"In the spring of 1901 my children had whooping cough," says Mrs. D. W. Capps, of Capps, Ala., "I used Chamberlain's Cough Remedy with the most satisfactory results. I think this is the best remedy I have ever seen for whooping cough." This remedy keeps the cough loose, lessens the severity and frequency of the coughing spells and counteracts any tendency toward pneumonia. For sale by L. Taggart.

Other people's troubles bore a man more than his own.

**An Open Letter.**  
From the Chapin, S. C., News. Early in the spring my wife and I were taken with diarrhoea and so severe were the pains that we called a physician who prescribed for us, but his medicines failed to give any relief. A friend who had a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy on hand gave each of us a dose and we at once felt the effects. I procured a bottle and before using the entire contents we were entirely cured. It is a wonderful remedy and should be found in every household. H. C. Bailey, Editor. This remedy is for sale by L. Taggart.

**Made Young Again.**  
"One of Dr. King's New Life Pills each night for two weeks has put me in my 'teens' again," writes D. H. Turner of Densetown, Pa. They're the best in the world for Liver, Stomach and Bowels. Purely vegetable. Never gripe. Only 25c at L. Taggart's drug Store.

Never judge a man's knowledge by the things he says.

When you want a pleasant physic try Chamberlain's Stomach and Liver Tablets. They are easy to take and pleasant in effect. For sale by Jno. E. Smith Sterling Run.

**Our New Home—and Yours—Will Be Open This Week.**

*Wm. Hengerer Co.*

**NOTHING SUCCEEDS LIKE SUCCESS**

**THE** William Hengerer Company's magnificent store, between Court and Mohawk streets, will be ready this week.

The public applauded its beginning, watched its progress with profound interest, and is now naturally anxious to see what it looks like inside, and to enjoy the manifold pleasures of shopping at an entirely new establishment.

It is safe to say that no one will come to its inception with great expectations and go away disappointed; for the store itself is grandly conceived, and its future conduct planned on a broad and liberal scale.

The building of this store is interesting from many points of view. It was made necessary by the growth of The William Hengerer Company's business, and the concentration of retail trade in the vicinity of Lafayette Square.

Its location is unquestionably the best on Main Street—midway between the great East Side thoroughfares, Genesee Street and Broadway; convenient to the whole West Side and the other populous sections of Buffalo.

It will be occupied by a firm whose reputation is not only local, but national—a firm with nearly half a century of success to its credit. Mr. William Hengerer, president of the company, became associated with Sherman, Barnes & Co. in 1860. They were succeeded by Barnes, Bancroft & Co., then came Barnes, Hengerer & Co., and finally, The William Hengerer Co. So the present business legitimately succeeds all these in an unbroken line. The other directors of the company are: Mr. Charles A. Hengerer, Vice President; Mr. John A. Hengerer, Secretary; Mr. Edward L. Hengerer, Treasurer; Mr. William McLaren, Credit Manager; and Mr. Edward L. Koons.

This week the whole town—the whole county—everybody from near and far—is welcome to Buffalo's newest and grandest store.

**THE NEW STORE AND ITS EQUIPMENT**

**THE** new store is of modern steel construction. It has a frontage of 140 feet on Main Street, and extends clear back to Washington. Six stories are above the pavement and two beneath, containing

altogether 150,000 square feet of floor space, or nearly twice the selling area of any other department store in the city of Buffalo. The front is handsomely fashioned in the Byzantine style of Indiana limestone. There are two entrances, alternating with four spacious plate glass show windows. The upper floors are reached by six large elevators, three on each side, operated by hydraulic power and supplied with every device for the safety of passengers. The building itself is fireproof, fitted all through with automatic sprinklers. By means of the six passenger elevators, the big freight elevator and the staircases, the building could be emptied of a crowd in a very few minutes if necessary. All the fixtures are of mahogany and plate glass, very gracefully fashioned and low enough so an unobstructed view of the store may be had. The toilet rooms are of the most sanitary description, with marble fixtures, tiled floors and the best plumbing.

An 85-station pneumatic cash carrier system, a rotary parcel conveyor, running from the top floor to the basement, and the latest system of transfers, make quick shopping a simple matter.

Power and light are furnished by the company's own complete machinery plant in the sub-basement.

The marble staircase and the rotunda which extends to the roof, surmounted by a glass dome, are beautiful features of the new store, and certain to be greatly admired.

Not a detail in structure, equipment, furnishing, stock or method that will facilitate public convenience and comfort, has been overlooked.

Reserve stocks are kept in the six-story annex, just in the rear, on Washington Street.

**ARRANGEMENT OF STOCKS**

**MAIN FLOOR**—All the small wares, such as Notions, Toilets, Books, Ribbons, Gloves, Shoes, Umbrellas and the like. And as a very prominent feature, a Jewelry Store, not surpassed anywhere—really metropolitan in character, showing a comprehensive line of watches and diamonds, besides the customary stock expected of an up-to-date jewelry department.

The Modern Drug Store. Men's Furnishings, South aisle. This department is arranged with a view to comparative privacy for men who realize that they can buy

cheaper in a department store than most anywhere else.

On this floor, also, is the Grand Balcony, which commands a view of the other departments. On this balcony are the toilet, writing and retiring rooms, and the emergency aid room. Underneath is the Information Bureau—Telegraph Office, branch Postoffice Station and Telephone Booths, local and long-distance; where you can talk with any department in the store, either by Bell or Frontier.

**BASEMENT**—Housefurnishings, Crockery, China Ware and an all-the-year-around Sporting Goods and Toy Department, besides the shipping and transfer rooms and the employes' toilet rooms.

**SECOND FLOOR**—All yard goods, including Dress Goods, Silks, Linens, Wash Goods, Blankets and Bedding. And on this floor, the most complete Men's and Boys' Clothing Department heretofore. At the rear is a beautiful onyx soda fountain in the midst of palms and bay trees—a refreshment place you will greatly appreciate.

**THIRD FLOOR**—The Paris Millinery Salon; the department for Women's Coats and Suits; the Muslin Underwear and Infants' Departments.

**Main and Private Offices.**  
**FOURTH FLOOR**—Carpets, Draperies and Rugs. It goes without saying that all these stocks are selected for reliability and real worth—as floorcoverings should be. The Oriental Rug Stock will be a revelation, and the prices amazingly low.

**FIFTH FLOOR**—Furniture, Picture Gallery, Sheet Music and Premium Departments.

**SIXTH FLOOR**—The Metropolitan Restaurant, Grill and Tea Room in charge of the well-known chef de cuisine, Mr. Chretien Muegel. Destined to be one of the most popular features of this Twentieth Century Store. The table furnishings, napery, china, cut glass and service will be superb. The kitchen is fitted with improved ice boxes, ranges, etc., and a powerful ventilating fan keeps not only a supply of fresh air in the Restaurant, but throughout the other parts of the store as well. We are proud of this kitchen.

On the sixth floor also, is the Grocery Store. This will be the most complete Grocery in the city—twice as large as the largest-selling everything in the way of staple groceries, butter, eggs, cheese, coffees, teas, flour and canned goods. And a Special Delivery System to get your purchases to you in short order. Then there will be individual tables where you can sit and have samples of groceries brought to you for selection at leisure. This is a new departure, and its convenience cannot fail to win your praise.

**Buy Groceries at DAY'S THE SATISFACTORY STORE.**

If quality is a consideration. For fifteen years it has stood the test and steadily grown in favor and popularity, giving to its patrons the best class of goods at prices in keeping with the service rendered.

Can it afford to take a backward step? No, Forward is its watchword and ever will be as its doors are open.

There's a saving too, in the long run, to its regular patrons; who are many.

Do you take advantage of the special low prices quoted from week to week? You'r the loser if you don't.
