ANOTHER ATTACK REPORTED.

London, May 11.-The Tokio correspondent of the Morning Post, cabling under date of May 10, says that a high-angle bombardment of Port Arthur is proceeding. Paris, May 11.—The Matin's St.

Petersburg correspondent says it is persistently rumored that there has been a big fight near Mao-Tien-Ling Pass between the Russians and Gen. Kuroki's army. The Russians, he says, lost heavily, Lieut. Gen. Zas-salitch being among the killed.

St. Petersburg, May 11.—The most important official news from the front is that telling of the complete re-establishment of railroad and telegraphic communication with Port Ar-thur, though how it was brought about and whether a battle was neces-sary to accomplish it are mysteries Viceroy Alexieff failed to

clear up.
According to Chinese information According to Uninese information, Japanese detachments numbering three infantry regiments in all, are in the mountains 15 or 20 miles from Doyanche. A telegram from Gen. Karkevitch dated May 8 reports that the Korean garrison at Pekton, on the Valu river consisting of 75 men, has Yalu river, consisting of 75 men, has surrendered to the Russian scouts in that town, also giving up 700 poods of food and forage prepared for the

Shan Hai Kwan, May 11.—It is reported that the First Japanese army corps, having followed the Russians corps, having followed the Russians retreating from the Yalu river, overtook them 20 miles south of Llao-Yang on Monday and a severe engagement ensued. The Japanese dragged their guns up hills believed to be unsurmountable. The Russians thereupon continued to retreat north.

Berlin's Bakers Strike. Berlin, May 12 .- A strike of 2,500 journeymen bakers began in Berlin yesterday. They demand higher wages and a discontinuance of the wages and a discontinuance of the system of boarding with their em-ployers, which the latter rejected. The employers have prepared to re-sist the strike, summoning by tele-graph members of the Association of Master Bakers' Sons, which was or-Master Bakers' Sons, which was organized several years ago throughout Germany to assist the fathers in strikes. Many of the sons arrived in Berlin yesterday and were immediately assigned to bakeries.

Alexieff has telegraphed to the czar announcing that the Russians have blown up the docks and piers at Port Dalny, Liao-Tung peninsula, presum-ably to render more difficult a Japa-nese landing at that point. It is evident from a private lettor

written by an artillery officer at Port Arthur, dated April 20, that Gen. Stoessel, the Russian commander there, was then expecting the cutting off of his communications. The officer reported that everything was ready to withstand a siege, and expressed sur-prise at the fact that the enemy had delayed so long. He said the fortress was practically impregnable, adding that there was a triple row of forts around the Port Arthur glacis, Further progress of the Japanese in

Thirty-first General Conference of the Methodist Episcopal Church in Session at Los Angeles, Cal.

Los Angeles, May 11.—The sixth day of the general conference of the Methodist church was mostly taken up by addresses by fraternal delegates. No business other than the presentation of a few resolutions and their reference. their reference to committees was

taken up. Los Angeles, May 12.—Practically no business was transacted by the Methodist general conference yester-day. The session was devoted en-tirely to consideration of the report

of the committee on rules.

The present outlook is that the heresy charges which have been made against several individuals high in the councils of Methodism are de-stined to provoke a spirited conflict

among the delegates.

The committee on education has appointed a sub-committee which will have consideration of this important matter. The question whether this sub-committee should have power to call for persons upon whose testing the committee of the committee whose the call for persons upon whose to call for persons upon whose to the committee of the committ call for persons upon whose testimony will be decided the charges of heresy, and for papers bearing upon the subject evoked a vigorous con-

the subject evoked a vigorous contest in the main committee.

Los Angeles, Cal., May 14.—The Methodist general conference yesterday resumed consideration of the revision of the rules of order. The work of formulating the official rules of order has been fraught with many clashes between the opposing parliamentary leaders on the floor of the conference, who sought to secure the adoption of rules that would tend to give their particular faction an advantage in the work of legislation. The general body, however, has been watchful and the rules as finally adopted have been framed with a view of absolute fairness.

The charges of heresy made by Dr. Munhall and others against the Gar-rett Biblical institute and the Boston School of Theology, continue to oc-cupy the attention of the members of the committee on education and to be the committee on education and to be the absorbing topic among the con-ference delegates. The sub-commit-tee of five having in charge the in-vestigation of this important matter has made a report to the full com-mittee, but the attacks of Dr. Mun-hall and other supporters of the heresy charges were so spirited that the committee voted not to accept the the committee voted not to accept the report, but to resubmit it with instructions to give the matter more careful consideration.

A rule was reported by the board of church extension and adopted by the conference, depriving certain congregations owning churches cost-ing more than \$10,000 of the right to apply to that board for financial assistance.

After a somewhat acrid debate, in

which the report was characterized by Dr. Munhall and his followers as an attempt to whitewash the accused institutions, the report of the sub-committee was finally referred back with instructions for a more extended

inquiry.

The report of the episcopacy committee upon the matter of retiring bishops and fixing their subsequent relations to the church was taken up. The paragraph that provoked discussions and the fixed paragraph that provoked discussions are fixed to the control of the

"A superannuated general superintendent is relieved from the obliga-tion to travel through his connection at large and may choose the place of his residence. He shall not be as-signed to the presidency of annual conferences nor make appointments, but if requested by a bishop presid-ing, he may take the chair tempo-rarily in a general or annual confer-ence, and at the request of the bishop presiding in the annual con-ference he may ordain candidates previously elected to orders." The Passing of the Nipsic. Washington, May 14.—The Nipsic, one of the old wooden vessels of the navy, has been ordered out of com mission at the Puget Sound navy yard, where she has been serving as yard, where she has been serving as a receiving ship. This marks the passing of one of the historic vessels of the old navy. The Nipsic was almost the last timber ship constructed for the navy. She was launched in 1879 and saw much service in all quarters of the world. In the great hurricane at Samoa she was the only survivor of the German and American fleets gathered there.
