Hon. J. C. Johnson and son Thomas, were called to Coudersport last Tuesday to the death bed of Mrs. M. J. Jones, sister of the former. The funeral will take place to-morrow morning. Deceased moved to Coudersport in 1845, immediately after her marriage to the late Charles S. Jones.

William H. Howard returned home from Shenandoah, Pa., on Tuesday. William does not say how he gained admittance to his residence, through the wash house or cellar—that's the way most of us poor men have had to enter our homes. Woe be unto him who said a word. Dear, oh! dear but the women have been amiable during this "boarding" season. Ask Brother LaBar which door he found when the boys returned from the York Conclave.

This week Mr. Truman Carpenter goes to Arkansas to look up the land question. If he is better suited there than with Pennsylvania he intends to buy a farm and move there to reside. Our advice is to stick to old Pennsylvania, a state that can furnish work, at high enough wages for a working man to accumulate a small fortune, is good enough to live in and spend that small fortune where it was earned. But we have no doubt but what Mr. Carpenter will be back, as he is a man of good hard sense. He will take in the fair at St. Louis while on the trip.

Mr. and Mrs. A. N. Vodack, of Austin, drove over on Sunday to visit Mrs. M. A. Rockwell and take a look at the destruction made by the explosion. Mr. Vodack is used to these sights, having been burned out and blown out many times.

B. L. Spence, rural mail carrier, met with another misfortune last Sunday, his horse laying down dead. This makes the third horse he has lost since he went on the route. Mr. Spence has been a faithful and efficient servant of the people and it is tough luck.

Kenneth Mayo, son of Mr. and Mrs. E. R. Mayo of this place, has passed the mental examination for an appointment to the Annapolis Naval Academy and, if he is successful in passing the physical examination which will be held during the early part of June, he will receive the appointment.—Smethport Miner.

Mr. Otto Dick, of Esslengen, Germany, has been visiting his uncle, Mr. A. C. Blum, and family in town, leaving last evening for Germany. His brother writes to the Press ordering the paper sent to him that he may see what is going on in Emporium. "Jud's" many Emporium friends hope he may recover and return to his first love.

Care of Children's Teeth.

From the age of six months to thirty months the maxillary bones undergo modifications by successive eruptions of the deciduous or temporary teeth and for four years more these teeth, twenty in number, develop in size with the alveolar borders; when this process is sufficiently advanced, the permanent teeth which have also been developing during this time, causes the falling out of the temporary teeth and take their places. Thus if caries (decay) induces the extraction of the deciduous teeth, or if a bad condition of the mouth causes their disappearance, the permanent teeth will appear too soon, and developing in contact with decayed teeth, the result is irregularities and decay, due to lack of space.

The beauty and position of the permanent teeth then depends on the care bestowed on them during childhood and the child's health requires that he be able to masticate his food just as well as the adult does, in order to accomplish perfect assimilation. It is therefore necessary to keep his mouth in good condition, thus avoiding the conditions arising from faulty mastication. As soon as the marks of decay occur he should be taken to the dentist for repair, the little patient should have his teeth brushed once a day with a soft brush and chalk and as soon as possible taught to use the brush himself, thus instilling into the infant mind lessons of cleanliness and profit, as the proper cleansing of the teeth certainly greatly lessen their liability to decay and stimulate the tooth and gum structures.

Rev. W. F. Gilbert Permanently Cured of Piles.
For twenty years I suffered with bleeding and itching piles, at times was confined to the house for more than a month. Two years ago I began using San-Cura Ointment and one 50 cent bottle made a firm and permanent cure, and have not been troubled since.
I am glad to give this testimony and will guarantee San-Cura if used as directed.

Good Spirits.

Good spirits don't all come from Kentucky. Their main source is the liver—and all the fine spirits ever made in the Blue Grass State could not remedy a bad liver or the hundred-and-one ill effects it produces. You can't have good spirits and a bad liver at the same time. Your liver must be in fine condition if you would feel buoyant, happy and hopeful, bright of eye, light of step, vigorous and successful in your pursuits. You can put your liver in fine condition by using Green's August Flower—the greatest of all medicines for the liver and stomach and a certain cure for dyspepsia or indigestion. It has been a favorite household remedy for over thirty-five years. August Flower will make your liver healthy and active and thus insure you a liberal supply of "good spirits." Trial size, 25c; regular bottles, 75c. At all druggists. 48-ly.
