THE COUNTY.

HUNTLEY.

Owing to the illness of "Bruiser" this week, dear readers, I will try and entertain you a few moments. I cannot tell them as good as "Bruiser," but can tell as big; anyhow I have the reputation of being next to Wess Barr, of Tunnel Hill, who is supposed to be a good one—at the table I mean. Well as I started out I met Alfred Smith with four baskets and a bag. "What are you carrying?" Oh! he said he wasn't carrying much of anything, only his week's grub. Then I went up back of D. E. Logue's to hunt woodchucks. While up there I saw No. 12 stop at the station and out fell an object which looked like a Japanese mine. I couldn't say exactly what it was, but it did look a little suspicious, until I saw some one come, pick it up and carry it off. Then I knew what it was; it was some new stock for the old reliable. Well, pretty quick I found a couple of ground hogs. Killed them and was taking them home when Levi Smith called me in and wanted to buy them. I said, "what would you do with them?" he replied, "eat them." I said, "what's the matter with Willson's bacon?" He said it was no good—so strong that every time he bought a piece it would walk back and then he would have to pay for it again. I sold him the woodchucks for fifty cents and an hour afterward I came along and he had got so much groundhog gravy in his whiskers that he had to cut them off. Then I saw C. J. Miller, he said that white oak saplings was a good deal tougher than the hemlock. I got up as far as C. J. Arnold's job that afternoon. Was walking along the road when I saw Will Logue working at a machine which looked something like the old-time Jewish wine press. I asked him what it was for he said it was a winlass to draw bark up the hill. I pity Willson Bro's bank account. Well as these are not very good, I will not tell any more, but maybe I can tell more next week.
