Have you read that very interesting magazine, *The Smart Set*?

The "pets" took a trip to Emporium Wednesday and had no trouble in trimming the "Dynamiters" to the tune of 13 to 2. The trip was devoid of excitement except when Ikey lost the hotel and Sinex his bat bag. The excuse given by the genial "Gene" Mumford for the poor showing of his colts was that they had been so busy putting in window glass for the past two weeks that they had no time for practice. This is the second jar Emporium has had since the powder house caught fire.—Coudersport Democrat.

Stone Proud of Capital.
Ex-Governor Stone, of Pittsburg, is enthusiastic over the beauties of the New York State Capitol. The former Governor said after the last meeting of the Capitol Commission, of which he is a member:
"The Commonwealth of Pennsylvania is going to get the worth of every dollar that is to be expended on the new building. The architect is wide-awake and is condemning material when it does not come up to the specifications. Many people will think I am exaggerating when I say that I believe the new Capitol will surpass in beauty the Congressional Library in Washington, now considered the finest specimen of Government architecture and decoration in the country, but I am not."
The new Capitol will have the finest marble interior work in the country. The greatest artists of the world are engaged in the decorative work. Abbey, the renowned mural painter, is in charge of much of it, and he is giving the State something of which it can always be proud in his presentation of the different types of our people.
