WAR NEWS

JAPS' DARING NIGHT ATTACK.

Tokio, July 28.—In a daring night attack against a Russian force estimated at five divisions with 100 guns, Gen. Oku succeeded in driving the enemy from their strong line of defense south of Tatchekiao.

The Japanese casualties before Tatchekiao were 800. Tien Tsin, July 28.—Gen. Kuroki and Gen. Nogi are endeavoring to form a junction so as to cut off Gen. Kuropatkin's army between Liao Yang and Mukden.

Gen. Kuroki's Headquarters in the Field, July 28.—Reports from the Russian lines agree that much fever and dysentery exists among the soldiers. It is the opinion that much sickness is caused from neglect of sanitary precautions in the Chinese towns occupied.

Cabling under date of July 26 the New Chung correspondent of the Daily Mail says: "The Japanese have not pursued the fleeing enemy, as they desire to cooperate with the first army in a decisive battle between Hai Cheng and Liao Yang which, even in the opinion of Russian officers, will result in a Russian defeat and will terminate the campaign."

Washington, July 28.—The state department has received a formal protest against the action of the Russian navy in seizing American goods and its prepared to act energetically. This protest relates to the seizure of an American cargo on board the Hamburg-American steamer Arabia.

SOMETHIN DOING ERE LONG. St. Petersburg, July 29.—A telegram received from Gen. Kuropatkin yesterday announced that the position at the front has not changed. It is generally believed here that startling developments are imminent. All the war correspondents have been ordered to Harbin.

London, July 29.—Foreign Secretary Lansdowne has received assurances from the Russian government that full satisfaction will be given Great Britain in the matter of the sinking of the steamer Knight Commander.

In the house of commons yesterday Premier Balfour said the acute stage of the Red Sea incidents had passed and that the Russian volunteer fleet vessels would be withdrawn. He laid down the British view that no belligerent's warship could issue from the Black Sea and that the volunteer fleet vessels in issuing therefrom, if they took belligerent action, either had no right to issue or no right to take such action.

Tokio, July 29.—The Russians abandoned Tatchekiao at noon on July 25, retiring before the advancing army under Gen. Oku. They applied the torch to Tatchekiao and the surrounding towns and when the Japanese arrived they found flames still raging.

The Japanese pursuit extended beyond Tatchekiao and the Japanese left wing occupied Yinkow. The Japanese loss at Tatchekiao is estimated at from 4,000 to 5,000.

The position held by the Russians last Sunday night south of Tatchekiao consisted of nine miles of trenches and fortifications.

CAN IT BE TRUE? Shanghai, July 30.—A telegram received here from Wei-Hai-Wei confirms the telegrams received here from Che Foo to the effect that Port Arthur has been captured. The Wei-Hai-Wei telegram says also that the British fleet, which has been cruising, will return there to-day.

At Wei-Hai-Wei there is a British wireless telegraph station, and the British warships are equipped with this means of communication. It is possible that Wei-Hai-Wei has been in wireless communication with the fleet and that the information of the fall of Port Arthur was received in this manner.

London, July 30.—A dispatch to Reuter's Telegram Co. from Wei-Hai-Wei, dated Friday, says: "It is supposed here that Port Arthur has been captured, as the British fleet is returning here to-morrow."

Presumably this report is from the same source as the dispatch from Shanghai reporting a Wei-Hai-Wei rumor that Port Arthur has fallen. The only basis for the report known here is that when Russia no longer occupies Port Arthur the British, by the treaty, will evacuate Wei-Hai-Wei and the inference is that the British fleet is returning to Wei-Hai-Wei to remove the stores, etc., from that place.

Not much credence is attached to the Wei-Hai-Wei report, though similar rumors are flooding the continent. Russia has filed a formal protest at the foreign office against British shipments of contraband to Japan.

Berlin, July 30.—Russia has agreed to fully indemnify German shippers and their consignees for any losses sustained by the seizures of German ships and the detention of the Prinz Heinrich's mail. An inquiry is now in progress to determine what claims shall be presented. Russia also agrees to restore and forward the contents of the two seized mail packages.

The Fine Stands. St. Paul, Minn., July 30.—The state supreme court yesterday handed down a decision affirming the decision of the Jackson county district court, holding that a fine of \$20,000 assessed against William Poole and William Kerr for having illegally in their possession 2,000 wild ducks was not excessive. The men were convicted in the Jackson county district court after the ducks had been found in their possession by the state game warden. They appealed on the ground that the fine of \$10 apiece for the ducks was excessive.

TRADE BULLETIN.

Large Additions to the Army of Unemployed Persons are Noted—Many Labor Disturbances.

New York, July 30.—R. G. Dun & Co.'s Weekly Review of Trade says: Confidence appears to be returning, despite a large addition to the army of unemployed. Labor disturbances are the most unfavorable factors in the industrial and commercial situation at the present time, curtailing the output of a few much needed products and reducing the demand for all commodities.

Aside from this adverse influence the situation has improved, although progress is slow and frequently interrupted. Another week has put much wheat and cotton beyond danger and brought other crops nearer maturity. Dealers are providing for the future a little more freely, and in several important branches of industry orders come forward in greater bulk.

Owing to special conditions, the leading branches of manufacture do not make uniform progress, complications as to supplies of raw material making the current situation particularly puzzling at the textile mills and shoe shops. Earnings of the railways thus far re-ported for July are 2.7 per cent. less than last year.

Failures this week numbered 220 in the United States, against 190 last year, and 18 in Canada, compared with 19 a year ago.

BOGUS CIGAR LABELS. A Chicago Judge Issues an Order Forbidding Their Sale and Use.

Chicago, July 30.—On petition of George J. Thompson, secretary of the Cigarmakers' International Union of America, Judge Honore has issued an order forbidding further sales of alleged spurious cigars and labels and stopping the distribution of cigars in boxes bearing the alleged worthless labels. Mr. Thompson filed with his plea for an injunction a copy of a decree declared to have been given in the federal courts at Washington, D. C., that I. D. Chamberlain, whose signature appears on the labels in question, is no longer a member in good standing in the Knights of Labor and that the branch of unionists Chamberlain heads has been outlawed by the true Knights of Labor.

Mr. Thompson declares that thousands of the labels he complains of have been printed in Chicago and have been sold to a number of non-union cigarmakers and dealers for ten cents a hundred. The use of this label, it is declared, would render useless the Cigarmakers' International union's annual expenditure of \$50,000 in advertising union made goods.

Tidings from a Missing Judge. New York, July 30.—A letter was received in this city Friday from ex-Judge Daniel McKoon, who mysteriously disappeared three weeks ago, stating that he was in El Paso, Tex. The letter, which was addressed to Judge McKoon's son, was rambling and incoherent and indicated that the writer's mind was affected. It was reported at the time of Judge McKoon's disappearance that he was held for ransom, but this view was not accepted by the police.

Can Use War Balloons Now. Washington, July 30.—Yesterday marked the termination of the agreement entered into by the powers at The Hague peace conference, to which Russia and Japan were signatory, whereby the use of war balloons for throwing destructive explosives was prohibited for five years. Both Russia and Japan are now free to use the balloons to hurl dynamite into an enemy's camp and developments in this direction will be closely watched by American military strategists.

Seven Indictments in Slocum Case. New York, July 30.—Capt. Van Schaick and Federal Steamboat Inspector Fleming and ex-inspector Lundberg were indicted Friday by the federal grand jury in connection with the disaster to the General Slocum on June 15 when nearly 1,000 lives were lost. Indictments also were reported against President Barnaby, Secretary Atkinson and Treasurer Dexter of the Knickerbocker Steamboat Co., and Capt. John Pease, the commodore of the company's fleet.

A Doubly Fatal Collision. New Castle, Pa., July 30.—A north-bound passenger train on the Erie & Pittsburg railroad was in collision head-on with an unattached locomotive near Sharon, Pa., Friday Engineer James Robinson, of New Castle, was instantly killed. Fireman Charles McWilliams fatally injured and Fireman Jones and Conductor John Baptist slightly hurt. No passengers were injured. Both engines were badly damaged.

Entered Decrees of Foreclosure. Portland, Me., July 30.—Judge Putnam in the United States circuit court yesterday entered a final decree of foreclosure and sale against building plants in different parts of the country controlled by the United States Shipbuilding Co., on bills in equity brought by the Mercantile Trust Company of New York, and the New York Security and Trust Co.

Converse to Succeed Taylor. Washington, July 30.—Secretary Morton yesterday announced the appointment of Rear Admiral George A. Converse as chief of the bureau of navigation, navy department, to succeed the late Rear Admiral Taylor.

Seized by Venezuelan Soldiers. Port of Spain, Trinidad, July 30.—Ambrose Carner, the former managing director of the New York and Bermudez Asphalt Co., (who was recently appointed receiver of the company as a result of the suit brought by President Castro) accompanied by Attorney General Ibarra, arrived at Guayana on Thursday on the Venezuelan gunboat Bolivar and, backed by Venezuelan soldiers, took possession of the properties of the company, including the asphalt lake, against the energetic protests of Capt. Cooley, the company's representative.
