Discovery Concerning Rheumatism. It is now known positively that rheumatism is caused by uric acid in the blood. The only possible way to get this poison away is to get this poison out of the blood is to treat the kidneys, as when they are diseased or not acting properly, the uric acid passes from the kidneys into the blood. Thompson's Barosma or Kidney Cure acts quickly, taking up the uric acid, curing the kidneys and restoring them to their normal functions. Thompson's Barosma is pleasant to take. For sale by R. C. Dodson. FOR SALE.—A good farm in Plank Road Hollow. For particulars inquire of Mr. Jos. Kinsler, Emporium, Pa. 23 tf. Good cheer goes farther than cold cash. If the solid South were as deeply interested in granting independence to the Negro as it is in granting it to the Filipino, there would be no solid South.

Will be Kept on the Run. Some of our Democratic contemporaries are bothering themselves a great deal because they do not see any prospect that the Republican canvass in Pennsylvania will get attention from the national committee of the party. Let them not be concerned, they will have more important things to bother about before the campaign is over, says Philadelphia Press. Pennsylvania of all the States is the one that can be safely placed at the opening of the campaign. It can be depended upon. For forty years the Republican party has not entered upon a presidential canvass with any real doubt about where Pennsylvania would be found. It has always been able to take care of itself and help in other States when required. The party is as united and earnest and enthusiastic this year as it ever was in any campaign, and the State is very certain to give Roosevelt and Fairbanks one of those immense majorities that have distinguished its elections for the past ten years. Our Democratic opponents are much mistaken if they suppose the canvass in Pennsylvania is not to be an active and wideawake one. Though 30,000 majority would be enough to carry the electors, it is desirable to have ten times that for the number of congressional districts it will take along. That will be the point of the contest in Pennsylvania, and it will be lively enough to satisfy all the appetite our Democratic contemporaries may have for a fight. If their party does not lose one and possibly two of the congressional districts they now have it will not be for want of an active campaign. There never was a time when the Republican organization in Pennsylvania was in better shape, not only for general work, but to turn its attention to those districts where special effort may be desirable. Every Republican understands fully that while the electoral vote is entirely safe, it is important to contribute to the general result every Republican Congressman possible. The only fight in Pennsylvania, therefore, will be in the close districts. The Democrats themselves will make no other, and they have no very efficient organization even for that. Within a few days the Republican State headquarters will be opened in this city and the work will begin. Our Democratic contemporaries will have no occasion to complain of lack of life and spirit in the canvass. We assure them their party will be kept on the run. Tariff Hand Book. Inasmuch as it is settled that the Tariff is to be the predominant issue in the Presidential campaign of 1904, the Tariff Hand Book, issued by the American Protective Tariff League, becomes of special value. An equal amount of matter relating to the Tariff in its various phases has never been incorporated between the cover of a single volume. There is no question that the Free-Trader can possibly raise which is not answered in this handy book of ninety six pages. Every fact bearing upon the Tariff and its relation to national and individual prosperity is herein to be found. Statistics covering almost every field of industrial, commercial and business activity are here presented in well ordered form, all of them authentic, official and indisputable. As an aid to writers and speakers in the current campaign, as well as to students desirous of informing themselves regarding economic facts and conclusions, the Tariff Hand Book will be found indispensable. Price, 25 cents. American Protective Tariff League, 339 Broadway, New York, N. Y. City of Contradictions. Lassa is a city of magnificent buildings, where the streets are never repaired and, except for a slight cleaning in January and March of the Tibetan calendar, are dreadfully dirty. Everywhere people are laden with rich ornaments, but unwashed as Caverley's organ grinder. A vast Buddhist temple stands in the center of the city, and it is encircled by a street lined with shops and roadside vendors. Both men and women are enthusiastic traders, and especially striking is the sight of Buddhist priests selling divers merchandise at roadside stalls, with the sleeves of their clerical robes rolled high up their arms.—London Globe.

Letter to R. Seger & Son. Emporium, Pa. Dear Sirs. Clothing is just like paint. It fits or it don't; it wears or it don't; turns weather and water or not, and goes out of fashion. What do we wear clothes for? Did you ever think of it? Different persons have different reasons, no doubt, but one paints Devoe for beauty, to be in the fashion, and keep out water. Fashion says paint, we all paint. There is beauty in paint; we paint a good deal for that. And buildings are costly and fashionable; put on a waterproof two or three coats of paint, and your buildings last as long as you keep them dry. It costs nothing to paint; it costs your buildings not to. Devoe is the paint that lasts; disappointing paints are the paints that cost. Yours truly, F. W. DEVOE & Co. P. S. Murry & Coppersmith Co. sell our paint. 28. Portage Falls Low Rate Sunday Excursions via Pennsylvania Railroad.
