## BOUNDARY CHANGES.

### Contention Between the Two Southern States Brings Out Some Sensational Facts Regarding Topography of the Country.

The testimony taken for the United States supreme court in the case of the Louisiana-Mississippi boundary has proved as sensational as it was expected to be in the matter of the marvelous changes that have taken place in the topography of the country in recent years.

The question at issue is the coast line of Louisiana in 1812, because this fixes the water boundary of the state and determines whether the oyster reefs off the coast, valued at \$10,000,000, belong to Louisiana or Mississippi. The old maps declare in favor of Louisiana. The contention of Mississippi is that these maps are incorrect, and that the country in dispute has always been the mixture of marsh, mud and water it is to-day. As the country was uninhabited and deemed valueless, the cartographers did not think it worth while to make a survey of the marsh and give petty details in which no one was interested. Therefore they made the entire section in dispute dry land in their maps.

Much testimony was heard from fisherman, yachtsmen, and others who had visited the country at different times in 25 years. They told of marvelous changes, some in a single night, of islands that had appeared and disappeared, and land that was a point one day and a bayou the following day. One witness, a leading merchant of New Orleans, who cruised through this section in 1897, visited it again this year. Although there had been no storm during this period, he had found the face of the country so changed as to be scarcely recognizable. Round island, which he visited on his first trip, had disappeared, although still shown on all maps. There is a lighthouse still shown, but this has not been in existence for years, the island washing away piece by piece.

### PUT OUT A FIRE WITH EGGS.

#### Lamp Starts Blaze, But the Improved Extinguishers Save the Day.

The name of John Snedecor, of Bay Shore, L. I., will go down to posterity as the discoverer of an egg fire extinguisher. He left his three little children in the dining-room while he went to the grocery before supper. There was a big lamp on the table. When Snedecor got home the lamp lay on the floor in the midst of a pool of blazing oil. Huddled against the wall at the back of the room, unable to get past the blaze, were the three children.

In a paper bag Snedecor was carrying a dozen and a half of eggs he had just bought. Three at a time he hurled them on the floor along the edge of the flame, meantime yelling for other members of the family to souse a blanket in a pail of water and bring it to him quickly.

The albumen, phosphates, nitrates and water in the bursting eggs seemed to retard the flames. They were almost egged out when the wet blanket arrived, and Snedecor soon quenched the last of the blaze.

### WILHELMINA IN AN AUTO.

#### Holland's Queen Pleas'd with First Drive in a "Buzz Wagon" and Intends to Have One.

Queen Wilhelmina, of Holland, has just made her first trip in an automobile and has expressed herself as delighted with the experience. Her majesty was accompanied on the trip by the prince consort. She wore a long white cloak, while the prince was gorgeous in a showy military uniform.

The tour was personally conducted by M. Verwey, the owner of the vehicle in which the queen and her consort rode. He was at the wheel all of the time.

Three other machines followed. They were driven along at the top speed of 40 miles an hour where the roads would permit it, and the queen declared that it was the most exhilarating sport she had ever known. Her majesty says she means to have a touring machine.

The body of an 11-year-old daughter of Rev. Elijah Mott, who died five years ago at Aulsebrook, Scott county, Ill., was exhumed the other day for removal and found to be in a state of perfect preservation, though heavy as stone. The body retained its natural form and color.

## LEARNING THINGS

### We Are All in the Apprentice Class.

When a simple change of diet brings back health and happiness the story is briefly told. A lady of Springfield, Ill., says: "After being afflicted for years with nervousness and heart trouble, I received a shock four years ago that left me in such a condition that my life was despaired of. I could get no relief from doctors nor from the numberless heart and nerve medicines I tried because I didn't know that the coffee was daily putting me back more than the Drs. could put me ahead."

"Finally at the request of a friend I left off coffee and began the use of Postum and against my convictions I gradually improved in health until for the past 6 or 8 months I have been entirely free from nervousness and those terrible sinking, weakening spells of heart trouble."

"My troubles all came from the use of coffee which I drank from childhood and yet they disappeared when I quit coffee and took up the use of Postum." Name given by Postum Co., Battle Creek, Mich.

Many people marvel at the effects of leaving off coffee and drinking Postum but there is nothing marvelous about it—only common sense.

Coffee is a destroyer—Postum is a builder. That's the reason.

Look in each pkg for the famous little book, "The Road to Wellville."

# Filipinos at St. Louis World's Fair

## Wonderful Music Rendered Daily by Islanders on Plaza of Philippine Building.

HERE are some people who still assert that the United States obtained nothing, through the annexation of the Philippines, but a lot of naked savages. In spite of the government's display at the World's Fair, which shows, in addition to the four wild tribes, the refined Visayans with their beautiful fabrics and their delicate embroideries, the loyal brown soldiers of Uncle Sam and the cultured commissioners and officials, there are some prebend individuals who refuse to see that the Filipino is anything but a nuisance and a menace to our country.

That he could be capable of civilization and uplifting seems utterly ridiculous to those who have studied him? No, to the class who dare not visit the Philippine reservation at the World's Fair for fear of being convinced against their will. That a great many of the natives of the islands could already be cultured and refined would be set down as utterly preposterous by this class.

The soreheads need not be bound and carried by violence across the facade of the Philippine building, through the Walled City to the heart of the most wonderful section of the entire exposition. They should only be enticed to listen for an hour to the playing of the Constabulary band. No man with an ounce of appreciation in his soul could hear that band without being convinced that the 81 men who compose its membership are far above the ordinary in both intelligence and sentiment. A nation or a race may be judged by its music. A natural feeling for rhythm and harmony is not an attribute of a chaotic or unbalanced mind. It is discord that leads the way to senseless vandalism and causeless rebellion.

In behalf of the Filipino it must be said that he is a natural musician. Even the savage head-hunters, in their peculiar tribal dances, manifest a remarkable feeling for rhythm. There is none of the Indian's wild noise and broken time in their beating of brass tom-toms and their somewhat monotonous singing. They possess the musical instinct that, with time and training, may be developed into just what the members of the two Philippine bands already possess.

The Scout band is an exceptionally good military band, such as we have heard before. The Constabulary band is in a class by itself. It is not to be compared with any of the other exposition bands. Its concerts are held daily in the large bandstand in the Philippine plaza, and those who have heard one concert will gladly forsake the most interesting exhibit and walk the entire distance from the heart of the grounds to the reservation in order to hear another.

The men who compose the constabulary and who have done so much to promote law and order in the islands are to be distinguished from the natives in the regular army by their uniforms. The military Filipino wears the blue of the American soldier. The

members of the civil police force wear the khaki. It is these little men in yellow attire who have come to the World's Fair to show Americans what we, as a nation, have really acquired as an accidental result of Admiral Dewey's spectacular victory.

The members of the Constabulary band were all finished musicians before Lieut. Loving, their leader, took them in hand. Each one was an artist in his own line, and all of them had seen service in the military bands of the Spanish regime. However, there was a tremendous task for the bandmaster. The men possessed execution without idea. They could read notes faultlessly, and could keep perfect time; but that is only a small part of concerted playing.

Naturally quick to catch new ideas, they soon grasped the meaning of the "attack," on which the effect of a band's work so largely depends. Then they learned all the mysteries of shading, from the most delicate tone to the most powerful crescendo, and it is in this that their playing is so marvelous. In the tender, sympathetic passages of a selection the tone is subdued to the most exquisite murmur, from which it rises, without a crash and without a blare, sweeping majestically upward and onward, until the enraptured listener is engulfed in a mighty billow of sound. Nothing could be more inspiring than the burst of melody in such a climax as that which occurs in the sextette of Lucia, and no band ever handled its climaxes better.

In the most powerful tone, there is not the slightest suggestion of brassiness. It is all liquid music. This is due almost wholly to the instrumentation, which is absolutely faultless. More than half the instruments are reeds, and instead of the large number of saxophones, the instrumentation includes four sarrusaphones and two sousaphones. Moreover, the clarinets are not used merely for accompaniment, but actually carry the second voice.

The music produced is not simply that of a brass band, but is varied for effect to resemble strings, human voices and even the pipe organ. Among the players there are several excellent violinists, and the personnel of the band is sometimes rearranged into an orchestra of 40 men and also into a guitar club.

The leader, Lieut. Loving, is a native of St. Paul, and a graduate of the New England conservatory of music. To his genius and devotion much of the success of the Constabulary band is due. Would that every American citizen might listen to one of his matchless programmes, drink in all the harmony and all the splendor of the best band in the United States, yes, and stay to the close. The close is the most impressive part of the concert. No one could listen to the playing of "The Star Spangled Banner" by that band of Filipinos, the pavilion surrounded by other Filipinos, their hats over their hearts and their heads bowed, and doubt that they are loyal Americans.

## BANANA A PROMINENT FOOD

### Long Regarded as a Luxury by Natives of Tropics—Bread and Coffee Facts.

Long regarded only as luxury for children or proper food for the dark-skinned natives of the tropics, the banana has advanced to a place of prominence as a great food product. The United States and other great nations having colonies in the tropics have been investigating the food value of the banana and the results obtained are so satisfactory that the nutritious banana is taking its place as a staple food among all civilized nations.

To overcome all objections, the banana has been especially dried and prepared for food by making into a fine flour out of which bread is made, and other process turns the soft mushy banana into a wholesome coffee.

The St. Louis Exposition is being used by the manufacturers of banana bread and banana coffee to introduce this new food to the world. Now this nutritious bread and coffee are served daily to visitors in the Palace of Agriculture, as one of the many object lessons in food at the World's Fair.

### Many Varieties of Potatoes.

Three hundred and fifty varieties of Irish potatoes, big and little, are exhibited in the New York section of the Palace of Agriculture at the World's Fair. The specimens are the result of cross breeding of standard types.

### Features in Food and Drink.

The World's Fair is full of new things, new features and interesting experiments in the way of food and drink. Prominent among the new beverages introduced at the Exposition are banana coffee and prune coffee.

At one of the California county exhibits in the Palace of Agriculture the prune coffee is furnished by the county, to teach the public the value of this experiment as a pleasant beverage.

The banana coffee is served in the same building, but at a different exhibit, the purpose being to show the wonderful food value of the banana.

## COFFEE DISPLAY EXTENSIVE

### South and Central America Exploit Their Great Product—Porto Rico Represented.

The value of the St. Louis Exposition as an advertising institution and school of instruction is fully appreciated by the great coffee growing countries of South and Central America. These countries are showing their coffees to the thousands of World's Fair visitors and creating new demands for the better varieties produced, which now find a market at home or in England and Germany.

The countries claim as great merit for their high grade coffees as is possessed by the famous Mocha and Java, and they seek to give the public an object lesson in the use of coffee. Brazil serves coffee every afternoon to all visitors at the Brazil building, free of charge, in order that they may sample a better grade of Rio.

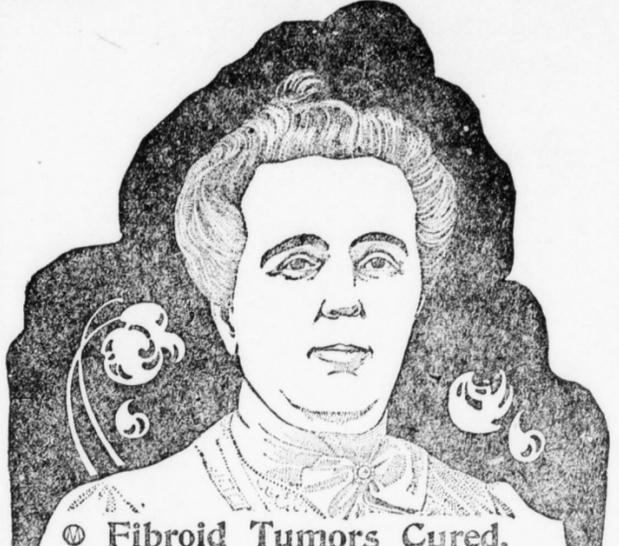

### Porto Rico also has an extensive coffee exhibit, with the hope of promoting a larger trade with its new mother country.

### Pygmies Discard Tents for Huts

The Pygmies from Africa at the World's Fair became tired of living in the tent provided for them and have built themselves small huts of saplings, covered with grass and rushes in order to give the huts the proper dimensions, a novel system of measurement was employed. The corner poles were stuck in the ground and the architect then lay down on his stomach, stretching out both arms to see if the hut would be large enough.

### Organ Recitals Daily.

Five regular recitals are now given each day upon the large mechanical organ in the splendid French section of the Palace of Liberal Arts at the World's Fair. The recitals begin at 10:30 and 11:30 o'clock a. m. and at 2:30, 3:30 and five p. m., and consist of selections from well-known operas and other classical and popular music. The space about the organ is always filled with people. In addition to being a very perfect instrument from a musical standpoint, it is elaborately decorated.

## Fibroid Tumors Cured.

A distressing case of Fibroid Tumor, which baffled the skill of Boston doctors. Mrs. Hayes, of Boston, Mass., in the following letter tells how she was cured, after everything else failed, by Lydia E. Pinkham's Vegetable Compound.

### Mrs. Hayes' First Letter Appealing to Mrs. Pinkham for Help:

"DEAR MRS. PINKHAM:—I have been under Boston doctors' treatment for a long time without any relief. They tell me I have a fibroid tumor. I cannot sit down without great pain, and the soreness extends up my spine. I have bearing-down pains both back and front. My abdomen is swollen, and I have had flowing spells for three years. My appetite is not good. I cannot walk or be on my feet for any length of time. "The symptoms of Fibroid Tumor given in your little book accurately describe my case, so I write to you for advice."—(Signed) Mrs. E. F. HAYES, 252 Dudley St., (Roxbury) Boston, Mass.

Note the result of Mrs. Pinkham's advice—although she advised Mrs. Hayes, of Boston, to take her medicine—which she knew would help her—her letter contained a mass of additional instructions as to treatment, all of which helped to bring about the happy result.

"DEAR MRS. PINKHAM:—Sometime ago I wrote to you describing my symptoms and asked your advice. You replied, and I followed all your directions carefully, and to-day I am a well woman. "The use of Lydia E. Pinkham's Vegetable Compound entirely expelled the tumor and strengthened my whole system. I can walk miles now."

"Lydia E. Pinkham's Vegetable Compound is worth five dollars a drop. I advise all women who are afflicted with tumors or female trouble of any kind to give it a faithful trial."—(Signed) Mrs. E. F. HAYES, 252 Dudley St., (Roxbury) Boston, Mass.

Mountains of gold could not purchase such testimony—or take the place of the health and happiness which Lydia E. Pinkham's Vegetable Compound brought to Mrs. Hayes.

Such testimony should be accepted by all women as convincing evidence that Lydia E. Pinkham's Vegetable Compound stands without a peer as a remedy for all the distressing ills of women; all ovarian troubles; tumors; inflammations; ulceration, falling and displacements of the womb; backache; irregular, suppressed or painful menstruation. Surely the volume and character of the testimonial letters we are daily printing in the newspapers can leave no room for doubt.

Mrs. Hayes at her above address will gladly answer any letters which sick women may write for fuller information about her illness. Her gratitude to Mrs. Pinkham and Lydia E. Pinkham's Vegetable Compound is so genuine and heartfelt that she thinks no trouble is too great for her to take in return for her health and happiness.

Truly it is said that it is Lydia E. Pinkham's Vegetable Compound that is curing so many women, and no other medicine; don't forget this when some druggist wants to sell you something else.

**\$5000 FORFEIT** if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness. Lydia E. Pinkham Medicine Co., Lynn, Mass.

**W. L. DOUGLAS**  
 WHICH MADE \$3.50 & \$3 SHOES FOR MEN  
 \$5.00 AND \$4.00 CUSTOM BENCH WORK IN ALL THE HIGH GRADE LEATHERS.  
 \$2.50 POLICE, THREE SOLES, \$2.50 AND \$2.00 WORKING MEN'S, BEST IN THE WORLD.  
 \$2.50 \$2.00 AND \$1.75 SHOES FOR DRESS AND SCHOOL WEAR.  
 W. L. Douglas makes and sells more men's \$3.50 and \$3.00 shoes than any other manufacturer in the world. The reason they are the greatest sellers is, they are made of the best leathers, hold their shape, fit better, wear longer, and have more value than any other shoes.  
 W. L. Douglas guarantees their value by stamping his name and price on the bottom. Look for it—take no substitute. Sold by shoe dealers everywhere. *Fast Color. Expeditious and exclusive.*  
 "AS GOOD AS \$7.00 SHOES."  
 "Hereafter I have been wearing \$7.00 shoes. I purchased a pair of W. L. Douglas \$3.50 shoes, which I have worn every day for four months. They are so satisfactory I do not intend to return to the more expensive shoes."  
 W. M. GRAY KNOWLES, Asst. City Solicitor, Phila.  
 Brockton Leads the Men's Shoe Fashions of the World.  
 W. L. Douglas uses Corona Coltskin in his \$3.50 shoes. Corona Coltskin is considered to be the finest Patent Leather made. W. L. Douglas, Brockton, Mass.

If You are not familiar with the excellence of the Cameron County Press as a FAMILY newspaper, why not subscribe for it now. We are certain that you will be pleased. The cost is nominal, \$1.50 Per Year.

**FREE to WOMEN**  
 A Large Trial Box and book of instructions absolutely Free and Post-paid, enough to prove the value of Paxtine Toilet Antiseptic.  
 Paxtine is in powder form to dissolve in water—non-poisonous and far superior to liquid antiseptics containing alcohol which irritates inflamed surfaces, and have no cleansing properties. The contents of every box makes more Antiseptic Solution—lasts longer—goes further—has more uses in the family and does more good than any other toilet preparation you can buy.  
 The formula of a noted Boston physician, and used with great success as a Vaginal Wash, for Leucorrhoea, Pelvic Catarrh, Nasal Catarrh, Sore Throat, Sore Eyes, Cuts, and all soreness of mucus membrane.  
 In local treatment of female ills Paxtine is invaluable. Used as a Vaginal Wash we challenge the world to produce its equal for thoroughness. It is a revelation in cleansing and healing power; it kills all germs which cause inflammation and discharge.  
 All leading druggists keep Paxtine; price, 60c. a box; if you do not send to us for it, Don't take a substitute—here is the only one to get.  
 Write for the Free Box of Paxtine to-day. R. PAXTON CO., 4 Pope Bldg., Boston, Mass.
