In Wurttemberg, under the law of March 22, 1895, those who have completed the common schools must attend either a general or an industrial continuation school for the period of two years, unless they wish to attend some higher school or receive adequate private instruction.

The minister of commerce has received an official report of the last census of France, begun in 1901. It shows the population to be 38,961,945, or a gain of only 444,613 in ten years.

Critics of the modern "sky-scrapers," with their frowning steel frames, have predicted that these lofty buildings will be short-lived, and that they are all destined to crumble away.

A fan that gives out, instead of a cooling breeze, a blast of hot air, has been invented by M. de Mare, a Belgian. The blades are of mica, on which the arranged resistance coils that are electrically heated to a high temperature.

According to estimates of an eminent civil engineer, the water running from the present land surface of the globe to sea level would produce, if all utilized, 10,340 million horse power, day and night.

Farmers throughout the United States, especially in regions traversed by swift-flowing streams, are beginning to realize that close to their doors is an opportunity to apply electricity to the work on the farm.

The longest and largest cableway is to be constructed on the Argentine side of the Andes mountains by the engineering firm of Adolf Bleichert & Co. of Leipzig, Germany.

Scouting with the aid of the telephone is a feature of warfare used by the Japs. Two scouts start from the lines toward the enemy, one, the observer, is a skilled army officer who makes the observations, which are transmitted back to headquarters through a telephone line paid out from a reel carried by an electrician of the signal corps.

THE DEMOCRATIC LORELEI OF 1904.

FREE TRADE IN ENGLAND.

It Has Brought Distress and Degradation to Millions of Men Willing to Work.

All students of economical systems and every man of affairs should consider and reflect upon the terrible condition of the English working classes, as shown in the recent investigations of Mr. Charles Booth, and published by the Macmillans.

Two-thirds of the total population of the British capital dwell in "homes" of exceeding four rooms.

Think of that, American pessimists! And in these "homes" of one, two and four rooms, was found dirt and filth and degradation most appalling in character.

Nearly 60 years ago Richard Cobden and his associates succeeded in having England repeal most of her duties on imports, and to-day England is reaping the harvest.

What a contrast to protected, prosperous, busy America, where two-fifths of the population are on the farms, getting good prices for their products, and themselves forming a market for manufactures greater than all Great Britain combined.

Some Bolters We Don't Want. A Memphis paper announces that young Jesse James has bolted Parker and will vote the republican ticket.

The Reverse. Round Sergeant—What! Asleep again? Can it be that this is from force of habit?

How He Got Even. "I am very sorry, Mr. Elderleich, but I can be nothing more to you than—" "Oh, never mind," interrupted Singleton, "it is useless to say the rest. I have two grandmothers already."—Cincinnati Enquirer.

PARKER IS WITH BRYAN.

Gold Democrats Are Beginning to See That That Esopus Telegram Was a Fake.

It was demonstrated beyond all question at the St. Louis convention that no plank could be adopted which in any way recognized the gold standard.

When the famous message from Esopus was received, says the Chicago Chronicle, it was not deemed safe to ask the convention to indorse even that Delphic deliverance.

It is just as certain that no man could have been nominated for president by that convention who was suspected by the Bryanites of favoring the gold standard.

It was only then that they consented to confirm the nomination. If they had not been convinced that he was a silver man playing a verbal trick to catch the votes of gold men they would have demonstrated very quickly that no gold man could be nominated and as completely as they had already demonstrated that no gold plank could be adopted.

Those gold democrats who have not yet seen this will see it distinctly before election day.

PICKED UP AT RANDOM.

Grover Cleveland finds the governorship of New Jersey no temptation. Think what a chance this would be to wrestle with the trusts right where they live.—National Tribune.

Speaker Cannon and Congressman Grosvenor not only predict a good majority for the republican ticket, but even have taken the field to make it both greater than the prediction.—St. Louis Globe-Democrat.

"We've got a sure thing of winning," shouts the sanguine Mr. Taggart, "but we can use a few voluntary contributions in celebrating the victory. Make all checks payable to yours truly."—Chicago Chronicle.

Judge Parker does not think it proper for a candidate for president to make speeches, and Grandpa Davis does not believe it proper for a vice presidential candidate to put up money for campaign purposes. So there you are.—Chicago Daily Sun.

No matter what David Bennett Hill may announce that he intends to do, no matter what he may appear to do, the public will continue to judge him by his record as one of the craftiest, most resourceful, most selfish and least to be trusted of all the political "bosses" in this country.—Chicago Post.

If protective tariffs are really responsible for the trusts the democratic party, headed by Parker, Wall street's candidate, and by Davis, the biggest monopolist in West Virginia, will be in a lovely position to cut these tariffs down in case of success at the polls. Won't it, though.—Mapa (Cal.) Register.

BELL ELECTED.

REPUBLICAN CANDIDATE'S PLURALITY IS OVER 30,000.

Vermont Election Returns Show Republican Gains—Democrats Tried Hard to Bring Plurality Down.

White River Junction, Vt., Sept. 7.—Returns received at midnight indicate that the republicans in Tuesday's state election elected the head of their ticket by a plurality equal, if not greater, than that returned for William W. Stickney when he was elected governor in 1900.

Returns from 233 out of 246 cities and towns give Bell, republican, for governor, 46,242; Porter, democrat, 13,663.

The same places four years ago gave Stickney, republican, 45,823; Senter, democrat, 15,538.

David J. Foster, of Burlington, was elected to congress from the First district and Kittredge Haskins, of Brattleboro, from the Second district.

The campaign was hard fought by both of the leading parties, the democrats bending their efforts to a reduction of the republican majority of 31,000 given to William W. Stickney for governor in 1900.

The law requiring majority elections for all candidates necessitated in several of the cities and larger towns balloting two or three times.

At Burlington the third ballot for representative began at 10 o'clock and the polls were not closed until midnight. The vote for governor had not then been tabulated.

SEVEN KILLED, 30 INJURED.

A Wabash Passenger Train Jumped the Track Near Pendleton, Mo. Moberly, Mo., Sept. 7.—The south-bound Wabash passenger train which left Des Moines for St. Louis at 6:40 a. m., was wrecked Tuesday near Pendleton, Mo., killing seven passengers and injuring more than 30 others. The dead:

J. E. Nichols, Macon, Mo. Mrs. Henry Polch, Huntington, Pa. Mrs. C. H. Graves, La Plata, Mo. Edna Patterson, La Plata, Mo. Mrs. Henderson, La Plata, Mo. Mrs. Anna Brenner, Macon, Mo. Miss Hebler, daughter of A. F. Hebler, Macon, Mo.

The train, which was composed of an engine, baggage and smoking cars, day coach, diner and Pullman sleeper, was well filled, it being estimated by Wabash officials that there were about 500 persons on board.

The day coach left the track and, breaking loose from the baggage and smoking cars, plunged down an embankment, dragging the diner with it. The Pullman did not leave the track.

The heavy dining car crashed on top of the coach, and the majority of those killed and injured were passengers in the latter.

A STRIKE IS AVERTED.

Both Sides Made Concessions and the New York Elevated Road Will Not be Tied Up. New York, Sept. 7.—The threatened elevated railroad strike here has been averted, an agreement having been reached at a five-hour conference which ended last night, between representatives of the Interborough Rapid Transit Co. and of the engineers, firemen and other employees of the road.

The men conceded an hour and the company conceded 50 cents pay, the men having demanded \$3.50 for a nine-hour day and the company having declared it would pay only \$3 for a day of ten hours.

Odell Has Had Enough. New York, Sept. 7.—Gov. Odell declared yesterday at a conference of republican state leaders that he would under no circumstances be a candidate for renomination.

A Visit from European Lawmakers. West Point, N. Y., Sept. 7.—The members of the Inter-Parliamentary union, a body comprising delegates from England and from every legislative body in Europe, were the guests of the United States yesterday when a tour of the country began under the auspices of this government.

Do not let an old colored woman, of Virginia, visited a doctor and informed him that her husband was seriously ill. The doctor hastened home with her, and upon making a diagnosis of the man's case informed the wife that he had a hopeless case of gastritis.
