JAPS LOST 7.000 Men.

JAPS LOST 7,000 Men.

Che Foo, Sept. 29.—Russians residing here claim to have received information that the Japanese losses in the last assault on Port Arthur, which begun September 19, were 7,000.

A Chinese who left the fortress on September 26 says that the Russian losses were between 500 and 600.

This Chinaman says that the Japanese were unable to remain in the three supplementary forts which they captured and that they retired on the afternoon of September 26, after enduring several days of tremendous firing from the inner forts.

Chinese say that the most severe at-

Chinese say that the most severe attacks were made on the supplementary forts of the Itz and Anshu mountary forts of the fiz and Alisau mountain forts. The Russians had undermined the ground and several hundred Japanese were blown up on September 23. Reports received from the Miaotao Islands mention a terrific report which shook the houses there on that date.

London, Sept. 29.—A dispatch from Vladivostok says that according to reports from Port Arthur two Japanese torpedo boats and a Japanese steamer have been sunk by mines near Port Arthur during the last few days. A Lapanese cruiser was haddy dameged.

Japanese cruiser was badly damaged. St. Petersburg, Sept. 29.—Move-ments at the front, so far as disclosed ments at the front, so far as disclosed by the meagre dispatches received here, are confined almost to continuous outpost skirmishes by means of which Gen. Kuropatkin is keeping in close touch with the Japanese along the whole of their front. Field Marshal Oyama's advance appears to be extremely deliberate. There are no indications as yet that he has begun to overlap Russian positions.

The Japanese have again resumed the offensive and Thursday's dispatches indicate that sharp fighting may soon be expected southeast of Mukden. St. Petersburg hears that the Japanese have taken Da Pass, a strategic point in the mountain range about 40 miles southeast of Mukden. Several other passes are now in their hands. It is believed in St. Petersburg that Kuropatkin is withdrawing his force to the less rugged country to the northwest of Mukden, where he may decide to give battle. Japan has amended her conscription regulations in a manner which will increase her available fighting force by about 200,-1000 men. A new scheme of divisional organization is also contemplated.

London, Sept. 30.—Telegraphing from New Chwang, September 29, the

Daily Mail's correspondent says:
"The main force of the Russian
army has retired to the north of Mukden. Strong bodies of troops have been thrown out to defend both flanks and the southern approaches to the city have been carefully mined. The indications are that no serious attempt will be made to hold Mukden."

will be made to hold Mukden."

St. Petersburg, Sept. 30.—A special dispatch received here from Che Foo says three Japanese warships are blockading Che Foo. This evidently is under an agreement with China, in order to prevent the possibility of any of the ships of the Port Arthur sound of the ships of the Port Arthur sound. of the ships of the Port Arthur squad

of the ships of the For Arthur squarron seeking refuge at Che Foo.

Communication with Mukden has been practically suspended, and St. Petersburg is therefore suffering another period of anxlety and suspense. just when the intimation had been given that important developments were imminent between the armies of Gen. Kuropatkin and Field Marshal

JAPS' ATTACKS REPULSED.

London, Oct. 1.—According to the Morning Post's Shanghai correspondent it is reported there that the Japa nese have been victorious in a general engagement at Mukden.

Mukden, Oct. 1.—A great change in the situation here has occurred. The Japanese now appear anxious to act on the defensive, and have fortified a position northwest of the Yentai

According to the best estimates obtainable, the Japanese army confront-ing Gen. Kuropatkin comprises a grand total of 180 battalions. ing 800 men to a battalion, there are smoke that arose from tons of 144,000 infantry. In addition there are the Cudahy cellars. When t

6,300 cavalry and 638 guns.
St. Petersburg, Oct. 1.—In view of the fact that advices have been received from the Russian consulate at Che Foo saying the Japanese assaults on Port Arthur September 20 to Septemwere successfully beaten off, the authorities at the war office dis-credit the Che Foo report that the Japanese have captured the main forts at Port Arthur. The information of the war office proves that the Jap-anese losses during the siege have been 45,000 killed or wounded.

Gen. Sakharoff reports that between September 16 and September 29 there were several skirmishes in the Yentai district, all of which resulted favorably to the Russians. The Japanese advance posts before Yentai Station. Gen. Sakharoff adds, have been reinforced. On September 28 a strong vanguard of Japanese was encountered on the Mandarin read and driven ed on the Mandarin road and driven back to Yentai, losing 20 in killed and

Conditions at Mukden are bad. There are 30,000 refugees there without resources and in the deepest poverty.

Parker and Gorman Confer.

New York, Oct. 1.-Judge Parker took the 6:45 train last night from Weehawken for Esopus. He is ex pected to return here next Monday Senator Gorman, of Maryland, visited the judge yesterday, and during the hour he spent with the democratic nominee they went over together all that has been done during the campaign and all that has been contemplated. Their discussion, it is said, had to do largely with the reconciliahad to do largely with the reconcilia-tions among the many elements of the democratic party which have not been in harmony.

MANY FAMILIES HOMELESS.

Trinidad, Col., Under Water, Due from Heavy Rains.

Trinidad. Col., Oct. 1 .-- A terrific flood has struck the city of Trinidad and the whole valley along the Las Animas river, devastating a wide sec tion and causing a loss which will reach several hundred thousand dol-lars. So far as known there was no loss of life, but several are reported missing and there were many narrow

Every bridge in the city of Trinidad is out, the Santa Fe station is demol-ished, all the railroads are tied up and pended. More than 30 city blocks in the residence and business portion were from two to four feet under water along the river. The flood was caused by a heavy rain which has been falling for two days.

At 8 o'clock Thursday night the storm assumed cloudburst proportions and at 3 c'o'clock. Friday, rooming the

and at 2 o'clock Friday morning the Las Animas river went over its banks. At 3:30 it was impossible to get with in a block of the river bed at any point and Commercial street was flooded for three blocks in the heart of the business district. Meantime the electric light and gas plants had been flooded

and the city was in complete darkness.
Santa Fe, N. M., Oct. 1.—Rallroad traffic in New Mexico is at a standstill owing to heavy rains. Every one of the three railroads centering at Santa Fe is washed out. No train has arriv-ed since Thursday afternoon and all the wires are down. The washouts are the worst west of Albuquerque and between Albuquerque and El Paso. All telegraph wires in this city are down. Many bridges were carried away by the flood. No loss of life is reported, but prepared with property downs. is reported, but property dam throughout the territory is heavy.

TRADE BULLETIN.

Indications of Growing Confidence are Numerous and Labor Disputes are Decreasing.

New York, Oct. 1.-R. G. Dun & o.'s Weekly Review of Trade says: The last quarter of 1904 opens with much brighter prospects than prevailed a year ago. At that time securities had fallen an average of \$34 a share from the top point a year previous, and there was a general disposition to curtail manufacturing and commercial operations because of the heavy losses. The nation was entering on a period of conservatism, augmented by numerous labor controversies.

At the present time there are no alarming features, strikes are few and unimportant, while the indications of growing confidence are numerous. Business does not show the hesitation customary during the closing weeks of a presidential campaign, and the prospect of profitable agricultural results stimulates trade, especially among retailers at the west and south Building operations are expanding, providing a better demand for lumber and materials. Manufacturing plants are decreasing the proportion of idle

machinery.
Failures this week numbered 223 in the United States, against 226 last year, and 18 in Canada compared with

A STUBBORN BLAZE.

Dozens of Firemen Were Overcome by a Fire that Raged for Hours in New York City.

New York, Oct. 1.-After 22 hours' fighting of a fire that proved to be one of the worst the New York department has had to contend with for years Chief Croker last night at 8 o'clock called all the men and apparatus away from the ruins of a block of meat packing and refrigerating plants in West Fourteenth street, leaving but one engine and a fire boat to water down the smouldering heaps. The fire started Thursday night in a building occupied by the Cudahy nre started Intrisday night in a building occupied by the Cudahy Packing Co. and T. A. Wheeler & Co. and Conroy & Co., dealers in poultry. Besides this building it practically destroyed the hotel of D. F. Cunningham and two four-story houses occupied by T. A. Wheeler & Co. and G. H. Hamper & Co. The loss is about \$200,000.

mond & Co. The loss is about \$200,000 During the fire nearly all of the 150 men who were engaged in fighting it were either overcome by the fumes of ammonia, of which there were a num ber of tanks in the refrigerating plants or by the smotherin When the am monia tanks exploded firemen were moved down as though by reapers

MAIL POUCHES WERE LOOTED. A Mysterious Robbery on a Train Running Between Paris and Havre,

Paris, Oct. 1.—A bold robbery was committed Thursday evening on a mail car between Paris and Havre, containing a quantity of American mail. The train which left here at midnight had two mail cars. The firs was an ordinary mail car, in which the distribution was going on. The sec ond car was entirely given up to mail for the United States. There were about 100 mail pouches on this car, which was sealed and locked. On arriving at Rouen Friday morning it was found that the American mail car had been broken open and that the pouches were in great disorder. Ninety-one bags had been opened and their contents rifled of such valuables

as they may have contained.

The robbery was reported to the postal headquarters here and a number of inspectors will investigate it.

Production of Gold and Silver.

Washington, Oct. 1.—George E. Roberts, director of the mint, has completed his calculation of the production of gold and silver in the United States for the calendar year 1903. The figures for the United States show \$73,591,700 gold and \$29,322,000 silver. The total output of gold shows a decline of \$6,400,000 and of silver a lecline of 1,200,000 ounces from the figures of the previous year. The fall-ing off in both metals is almost entirely due, according to Mr. Roberts, to labor troubles in Colorado.
