ARTISTIC FLOWER STANDS.

Late Designs in Garden and Conservatory Decorations Add to the Beauty of the Plants.

The application of the artistic to the useful, the movement begun by Ruskin and Morris, has finally entered the field of garden and conservatory decorations, where it might be imagined from their constant associations with beauty that such ideas would have emanated.

The Chicago Journal says that in place of the ugly, unadorned clay pots

ARTISTIC FLOWER STAND.

or their still uglier ornaments of frilled crepe and tissue paper, or the old style of painted washtubs in use in conservatories, are now set upon bronze stands of highly polished woods, banded by hoops of brass.

The shapes vary, ovals, squares, rectangles and circles being employed according to their fitness to the plants they hold. Some of the designs in the bronze work are quaint. Although many are original, others are reproductions of medieval work. The lack of monotony is favorable compared to the old styles.

One conservatory varies these artistic novelties with wicker baskets of divers designs, that inclose the clay pots closely, painted green or white, their lighter colorings making a pleasing contrast under the brilliancy of the flowers and the shining green colorings of the leaves, to the black Chinese teakwood and reddish bronze of these new plant-holders.

A rhododendron in a teakwood tub, with green bronze hoops and supports, is the most admired of all the plants in a north side conservatory.

Something Quite Unusual. Little Bessie was so accustomed to seeing the baby crawl around the room on his hands and knees that she thought it was his natural mode of traveling. One day he succeeded in standing up with the aid of a chair and Bessie, very much astonished, ran to her mother and exclaimed: "Oh, mamma, come quick! Baby is standing up on his hind legs."

THE NEAT GIRL'S SECRET.

It Consists in Nothing More or Less Than the Proper Care of All of Her Clothes.

We all have among our acquaintances the girl, who, without being in the least good-looking, always manages to look neat and well dressed. Perhaps she has only a small dress allowance, and whenever you happen to meet her she looks smart and attractive, while other girls with twice the money at their command too often look shabby and dowdy.

What is the neat girl's secret? Nothing more or less, says the New York Weekly, than taking care of her clothes; she has a place for everything, and everything is kept in its place, her ribbons, gloves, handkerchiefs, veils, etc., are not all huddled together in one drawer, neither do they lie about on the tables and chairs until they are wanted. Every article of apparel is put away with the most scrupulous care, first being dusted, shaken or mended as the case may be.

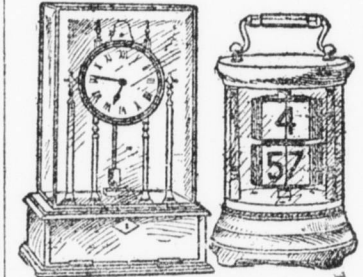

There is a great difference, too, in the way in which girls put on their clothes, and very often a girl dressed in a shirt waist and plain skirt will look twice as neat as one clad in a \$50 gown, the reason being simply and solely this: The one has put her dress on anyhow, the other has taken care that all shall be neat and fresh.

It is the duty of all parents to see that their children are taught from their babyhood, to take proper care of their wearing apparel; for the child who lets her clothes drop off her and tie in a heap on the floor invariably grows into the careless, untidy woman with whom we are so familiar.

FOR LOVERS OF NOVELTIES.

Cleverly Contrived Clocks Which Are Calculated to Attract Interest of the Public.

Ingenuity has of late been turned in the direction of clock making, with the result that a number of cleverly contrived timepieces are now in the market. One of these is the Plato clock without hands or dials. The hours and minutes are shown in large

TWO CLOCK NOVELTIES.

bold figures upon revolving flaps. The clock is wound and set as an ordinary clock; its special advantage lies in the fact that the time is seen instantly and from quite a long distance. The second ingenious novelty is an electrical-propelled clock warranted to go for 12 months without interference. The battery, it is claimed, is easily replaced by any one. The clock stands on a base of solid wood and is covered with plate glass.—Brooklyn Eagle.

A Mind-Reader.

"Johnnie, why don't you ask the little girl to have a piece of your candy?" "Cause she looks like she would." —Houston Post.

ARE OPPOSED TO ALL LAWS.

Curious Sect in England, Believing Social Life All Wrong, Returns to Primitive State.

An inquest held in Beeston, England, has developed the existence of a strange religious sect, entertaining tenets that they will not divulge.

For several years this sect, or brotherhood, had a sort of colony at Purleigh, in Essex, from which they were driven away, it is said, by the persecution of the people living in the district.

Within the last 12 months a branch has been established at Beeston, where the members have lived quietly and are well spoken of by the neighbors.

Both the men and women are clever boot and shoe repairers, and the women make something, in addition, by nursing and sewing. All money received goes into a common fund, said one in the course of an interview.

"We have made a kind of return to primitive Christianity. Social life today is based on an error of fundamental fraud, denial of the brotherhood of men leading to social caste.

"We repudiate all human law absolutely. We follow literally the precept, 'Judge not that ye be not judged.'"

New Kind of Rubber.

During the past few months discovery has been made that there are in the interior of Brazil vast forests of trees from which can be produced a high grade of rubber known as "manicoba." The area is said to be very large, but cannot be defined, as the region has not been fully explored. The attention called to the first discovery has led to further exploration, with the result that from time to time comes notice of other sections where like trees occur in profusion. The output of manicoba rubber has rapidly increased during the last few years and bids fair to be a large item in the exports of Brazil.

Aluminum Shoes for Horses.

In the Russian army aluminum horseshoes are said to have been tried with good results. A few horses in the Finland dragoons were first chosen, and shod with one aluminum shoe and three iron shoes each. The experiments showed that the aluminum shoes preserved the foot better than the iron ones.

Advice is free; the expensiveness sometimes comes in following it.—Chicago Tribune.

As the season wanes the fish stories strengthen, which leads to a suspicion that the fishermen have engaged a competent press agent.—New Brunswick Times.

"De man dat devotes hiself to fault finding," said Uncle Eben, "turns out many a fine job of work, dat doesn't give satisfaction to nobody."—Washington Star.

"A man who is addicted to the tobacco habit," remarked the moralizer, "will do anything for a smoke." "Yes," rejoined the demoralizer, "he will even travel in a smoking car."—Chicago Daily News.

People who scoff at the perils of the Bull Run campaign do not know what they are talking about. A brigadier general almost had an eye put out by a champagne cork the other night.—Chicago Chronicle.

It shows how lucky some men are when Reggy Vanderbilt is made a hero of because he refused to lend \$100,000 to a titled foreigner. Most anybody could do that, and nothing would be said about it at all.—Cincinnati Enquirer.

Instead of digging a hole in the earth 12 miles deep, as an English scientific man proposes, science might benefit the world more by digging a 12-mile hole through some obstructive mountain standing in the way of commerce.—Boston Globe.

In the Maine Woods.

Deer hunting has commenced; also the man who thought it was a deer.—New Bedford Standard.

Sorry We Didn't Suit.

William Waldorf Astor finds America changed in some respects, but still objectionable.—Chicago Tribune.

Time to Move.

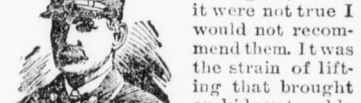

Two Texas negroes have just celebrated their ninety-second wedding anniversary. They are looking forward to a happy old age together.—Chicago Record-Herald.

THE STRAIN OF WORK.

Best of Backs Give Out Under the Burden of Daily Toil.

Lieut. George G. Warren, of No. 3 Chemical, Washington, D. C., says: "It's an honest fact that Doan's Kidney Pills did me a great lot of good, and if it were not true I would not recommend them. It was the strain of lifting that brought on kidney trouble and weakened my back, but since using Doan's Kidney Pills I have lifted six hundred pounds and felt no bad effects. I have not felt the trouble come back since, although I had suffered for five or six years, and other remedies had not helped me at all."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y.

W. L. DOUGLAS UNION MADE \$3.50 SHOES FOR MEN. W. L. Douglas makes and sells more men's \$3.50 shoes than any other manufacturer in the world. The reason W. L. Douglas \$3.50 shoes are the greatest sellers in the world is because of their excellent style, quality and superior wearing qualities. If I could show you the difference between the shoes made in my factory and those of other makes and the high-grade leathers used, you would understand why W. L. Douglas \$3.50 shoes cost more to make, why they hold their shape, fit better, wear longer, and are of greater intrinsic value than any other \$3.50 shoe on the market to-day, and why the sales for the year ending July 1, 1904, were \$6,263,040.00.

W. L. Douglas guarantees their value by stamping his name and price on the bottom. Look for it—take no substitutes. Sold by shoe dealers everywhere. Last Color Eyelets used exclusively.

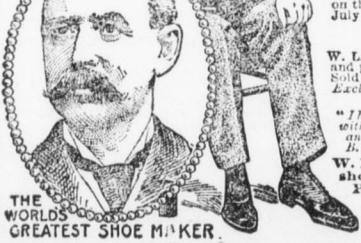

Superior in Fit, Comfort and Wear.

"I have worn W. L. Douglas \$3.50 shoes for the last twelve years with absolute satisfaction. I find them superior in fit, comfort and wear to all other shoes I have worn."—W. S. McCull, Dept. Coll., U.S. Int. Revenue, Richmond, Va.

W. L. Douglas uses Corona Coltskin in his \$3.50 shoes. Corona Colt is conceded to be the finest Patent Leather made.

W. L. DOUGLAS, Brockton, Mass.

Many women are denied the happiness of children through derangement of the generative organs. Mrs. Beyer advises women to use Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I suffered with stomach complaint for years. I got so bad that I could not carry my children but five months, then would have a miscarriage. The last time I became pregnant, my husband got me to take Lydia E. Pinkham's Vegetable Compound. After taking the first bottle I was relieved of the sickness of stomach, and began to feel better in every way. I continued its use and was enabled to carry my baby to maturity. I now have a nice baby girl, and can work better than I ever could before. I am like a new woman."—MRS. FRANK BEYER, 22 S. Second St., Meriden, Conn.

Another case which proves that no other medicine in the world accomplishes the same results as Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I was married for five years and gave birth to two premature children. After that I took Lydia E. Pinkham's Vegetable Compound, and it changed me from a weak, nervous woman to a strong, happy and healthy wife within seven months. Within two years a lovely little girl was born, who is the pride and joy of my household. If every woman who is cured feels as grateful and happy as I do, you must have a host of friends, for every day I bless you for the light, health and happiness Lydia E. Pinkham's Vegetable Compound has brought to my home. Sincerely yours, Mrs. MAM P. WHARRY, Flat 31, The Norman, Milwaukee, Wis."

Actual sterility in woman is very rare. If any woman thinks she is sterile let her write to Mrs. Pinkham at Lynn, Mass., whose advice is given free to all would-be and expectant mothers.

\$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness. Lydia E. Pinkham Med. Co., Lynn, Mass.

Advertisement for Cameron County Press, featuring the headline 'If You are not familiar with the excellence of the Cameron County Press' and a price of '\$1.50 Per Year.'

Advertisement for Three Handsome Tailor Suits, designed for fall exhibit, but can be worn all through the winter.

THE gowns here illustrated were designed for the American Dressmaker by Mme. Baker and were exhibited at the fall exhibit of the National Dressmakers' association, recently held at Chicago. The first is a tailor suit of white mixed and brown tannine, with lines of brown soutache braid for finish; brown satin belt; skirt cut with panel and deep yoke in one piece, lower part circular. The second is a tailor suit of blue pongee; vest of blue and green Japanese embroidery; skirt plain and full, laid in two box plaits in front. The third is a tailor suit of gray checked suiting, edges piped and stitched with gray silk; vest of white silk, braided with red and gold; skirt in four gores and plaited panels.

Advertisement for PILES ANAKESIS, featuring a testimonial from a man who cured his piles using the medicine, and a price of '\$
