## CARNEGIE MEDALS FOR HEROES The Commission Adopts Rules to Limit the Awards,

Pittsburg, Oct. 20.-At a meeting yesterday of the Carnegie hero fund commission it was decided that no awards of medals or benefits will be made by the Carnegie hero fund commission before the next meeting of the commission, which has been fixed for January 18, 1905. At that time the executive committee of the organization is expected to report upon the 59 cases now under consideration, and medals and benefits will probably be awarded at the coming meeting. The report of the organization com-mittee follows: "The scope of the fund shall be

confined within the following limita-2 01 2 10 tions:

tions: "First—To acts on which conclusive evidence may be obtained showing that the person performing the act voluntarily risked his own life in sav-ing or attempting to save the life of a fellow being, or who voluntarily has sacrificed himself in an heroic manner for the benefit of others. "Second—Such acts must have been

"Second—Such acts must have been performed by persons, the nature of whose duties in following their regular vocation does not necessarily require them to perform such acts

"Third-Such acts must have been performed in the United States, Can-ada, or the colony of Newfoundland and the waters thereof.

"Fourth-Such acts must have been performed on or after April 15, 1904. "Fifth—Heroic acts may be brought to the attention of the commission by direct application or through the public press

The report of the financial commit-tee showed that the \$5,000,000 worth of 5 per cent. first mortgage bonds of the United States Steel Corporation were registered in the name of the commission on May 13 last. About \$50,000 interest has already accrued on these bond

A special resolution was passed by the commission authorizing the ex-ecutive committee in its investigation of all cases to secure such representa-tives to aid them as will be necessary in finding out the minutest details concerning every alleged act of heroism.

The medal of honor to be selected by the commission will probably be of bronze or silver. It is not the desire of the commission to have gold medals, on account of their intrinsic value. It is argued that the medal is a symbol to commemorate the deed and if it is of small value it will be prized all the more and be kept by the reachent. recipient.

#### SUFFERED GREAT HARDSHIPS.

Crew of a Wrecked Steame. Were Rescued from Islands Off the Coast of Labrador.

North Sydney, C. B., Oct. 20.—After Subsisting on scant rations for several weeks, during which time they suf-fered intensely from the cold, the 11 survivors of the stranded steamer Viking have been picked up from oth-erwise uninhabited islands off the coast of Labrador by the tug Douglas H. Thomas, which had been sent to their relief. They were taken to the Hudson Bay Co.'s post at Rigolet and the tug returned here yesterday. When the men were rescued their ra-tions had dwindled to an insignificant amount of salt pork, flour and water, and their condition was desperate. The Viking with a full cargo of pro-visions and supplies for a lumber con-cern at Grand River, Hamilton Inlet, was wrecked at Shag Rock, Gross Water Bay, last August. Soon after a gale swept the wreek, carrying away the greater part of her stores and forcing the crew to abandon her. The North Sydney, C. B., Oct. 20 .- After

the greater part of her stores and forcing the crew to abandon her. The captain and two of the crew sought refuge on a small island to the wind-ward of the wreck, while the other eight men reached an island to the leeward. A vessel, formerly sent to bring back the Viking's crew, was also wrecked. The Viking is a tota' loss.

### REVIEW OF TRADE.

More Activity Is Noted in Nearly Every Branch of Manufacturing. New York, Oct. 22.—R. G. Dun & Co.'s Weekly Review of Trade says:

Trade reports are more encouraging each week, while the feeling of optim-ism regarding the future is becoming general. With its customary disposition to discount commercial prosper-ity, Wall street has lifted the average price of the 60 most active railway shares above par for the first time since May of last year. Manufactur-ing plants steadily increase output, a particularly gratifying feature of the week being the large tonnage of steel purchased by the railways, and the advanced prices for pig iron suggest that the depression in that industry has run its course.

Textile mills are doing more work, Textile mills are doing more work, even the New England cotton centers reporting less procrastination among buyers, which is the more noteworthy because the new contracts were plac-ed at a time when the raw material was declining. Shippards are more fully concerned and structural work was declining. Shipyards are more fully engaged, and structural work begins to assume normal proportions. Jobbing and wholesale trade in

spring goods makes a better compari-son with last year's volume and cur-rent retail distribution of merchan-dise is increasing. Payments are still somewhat irregular, yet there are comparatively few complaints. Failures this week numbered 215 in the United States accents 279 last

in the United States, against 279 last year, and 39 in Canada, compared with 26 a year ago.

SLEUTHS AND ROBBERS CLASH. Two Detectives and One Suspect Were Killed.

St. Louis, Oct. 22.—In a desperate battle Friday between five detectives and three suspects whom they were endeavoring to arrest, two detectives were killed and one seriously injured

and one of the suspects was killed and two others badly wounded. The fight occurred in the front room of a house on Pine street and the men whom the detectives sought to arrest are suspected of being implicated in a train robbery at Centralla, Ill., a few train robbery at Centralia, Ill., a few

The house had been under police surveillance for several days, but yes-terday was the first time that any of the suspects were seen to enter or leav

Blair made a statement that he, Rose and others had been seated in the room when the door was opened and the detectives entered.

#### Disastrous Caveins.

Scranton, Pa., Oct. 22......Mine cave-ins at Duryea yesterday caused a rise in the Lackawanna river. The flood poured into the workings of the Hal-stead mine and damaged much sur-face near the Polish Catholic church. A score of houses also suffered dam. age. The mine was flooded during the strike of 1902 from similar causes and the water had just been pumped out preparatory to getting the mine ready to operate. It may now be wholly abandoned, which will mean the loss of over \$100,000 to the Lackawanna Co
