A MAN. HIS WIFE AND TWO CHILDREN MURDERED.

The Unknown Assassin Sets Fire to the Home of the Murdered Family in Order to Cover

Cal., Nov. 12.-Julius is wife, their 19-year-old Bertha and their son Paul, years, were murdered Thurst by an unknow assassin, are to the home in an effort his crime. Before the fire is any great headway the the murdered woman and children were rescued from

in the burning timbers and his body was found in the bath room of the dwelling. He had been shot down before being left to be consumed by the

The body of Mr. Weber was so badly burned that it has been impos-sible to ascertain how often he was shot. It has been ascertained beyond a doubt that the women were killed in one room and their clothing set on fire, and that they were then dragged

to some extent, the apartment in which they were lying was not on fire when the firemen broke in, which showed that they had been killed in some other portion of the house, partially burned and then dragged into the room where they were restricted in the woods.

A SERIES OF FIRES.

Three Lives Were Lost and 20 People Injured in New York City.

Robinson are making a thorough in-

coroner and sheriff he said he did not think the motive was either robbery or revenge. When asked if he had a theory he said he had, but would not give it. He did say, reluctantly, that his father had a violent temper.

## REVIEW OF TRADE.

Demand for All Products Is Broaden. ing, Steadily and Rapidly.

New York, Nov. 12.—R. G. Dun & o.'s Weekly Review of Trade says: All measures of trade indicated the customary loss due to holiday interruption, but subsequently much of the deficit was regained, numerous evidences of increasing confidence being seen in the disposition to place orders for distant shipment. Increased con-sumption of pig iron is also significant and in other leading branches of manufacture there is a steadily di-minishing percentage of idle machinery. Woolen mills are busy, despite the fact that it is between seasons, and the raw wool market is very

Developments in the leading manufacturing industry are about equal to the most sanguine expectations. Demand is broadening in a wholesome manner, large contracts calling for a heavy tonnage of plates, wire, pipe and sheets. Orders for structural shapes are heavier than at any previous time this year, and sales of bar are made at \$2 above the list prices.

# A RISING STOCK MARKET.

It Caused the Failure of a Brokerage Firm with 50 Branch Offices.

Boston, Nov. 12.—The pronounced ise in the stock market was responsible yesterday for the suspension of the Federal Stock and Grain Co., of this city, one of the largest concerns of the kind in the country. The company had four offices in Boston and 50 or more in other cities. Treasurer D. E. Murray states that the concern has lost \$1,000,000 in the last six months, and adds that the claims against it do not exceed \$150,000.

While most of the branch offices are in New England, the concern had agencies in Montreal, Denver and sev-

All branches were closed shortly after the announcement of the suspension, and in several places attachments have been filed against funds standing in banks to the credit of the concern. The company is said to have cleared \$2,000,000 last year. Of late, however, steady losses have been sustained.

# A Famous Detective Dies.

A Famous Detective Dies.

St. Louis, Nov. 12.—George S. Diee, chief office inspector of the St. Louis district, died last night at his home here, aged 56 years. He had been connected with the postoffice department for 22 years. He was once chief inspector of the New Orleans district and the principal processing with the postoffice respector of the New Orleans district. and the principal prosecuting witness in the famous Louisiana lottery trial.

An Attempt to Wreck a Train.

Philadelphia, Nov. 12 .-- An attempt last night to wreck the northbound Cape May express train on the West Jersey & Seashore railroad near Woodbury, N. J. A railroad Le was stood up on one end in the initially of the tracks and was braced so that it could not fall. The train was supplied to the tracks and the tracks of the tracks and the tracks of the tra running at such high speed that the tic was buried from the track without any damage being done the train. The trainmen saw a man disappear in the darkness just as the train crashed into the obstruction. A pay train had preceded the express.

### A DOUBLE MURDER.

Brother of a .Constable .Who .was Killed by a Policeman Murdered a Sheriff and Another Citizen.

Huntington, W. Va., Nov. 11.-Fayette county is excited as never before over a double murder which occurred
Thursday following the murder of
Constable W. A. Jackson by Policeman Will Elliott, of Montgomery.
Wednesday night in a quarrel between the two efficers. Leakers be-

tween the two officers Jackson was shot and killed. Harvey Jackson, a brother of W. A. Jackson, and two other brothers armed themselves and started out to "clean up" the entire police force of the town, which is a small hamlet near Fayett

had made any great headway the bodies of the murdered woman and her two children were rescued from the burning house.

An examination of the bodies showed that Mrs. Weber and the children had been murdered before the fire had been started. Mrs. Weber and her daughter had been killed by pistol wounds. On the boy's head were several deep cuts. He had also been shot.

All efforts to reach Julius Weber, the father who was thought to be in the burning house, were abandoned until Friday, when a search was made in the burning timbers and his body was found in the burning timbers and his body was found in the bath room of the bodies.

dead. Then reloading his revolver and pulling another from his pocket he brandished them in the air and defied any one in the town to take him. The other Jackson boys came into

town and met their brother immediately after the shooting.

For half an hour the three men paraded the streets firing revolvers and defying the town. The people were in nre, and that they were then dragged into the apartment where their bodies were discovered.

One very peculiar circumstance of the tragedy is that while the bodies of the mother and daughter were burned to some extent, the apartment is panic and crawled into the cellars.

room where they were found.

The physicians are holding an autopsy over the badly charred remains of Julius Weber. Coroner Shepard, Sheriff Kean and District Attorney Robinson are making a thorough investigation of the tragedy.

The robbery theory is about experimentally and the first ware in various parts of the city yesterday. In nearly every case, the first ware in temperature to the city yesterday. In nearly every case, the first ware in temperature to the city yesterday. vestigation of the tragedy.

The robbery theory is about exploded. Adolph Weber, the son, aged 20, who is the only member of the family alive, talks but little, but to the

That no more lives were lost un-doubtedly was due to the fact that the flames were discovered in every instance before they had made great eadway, and the excellent use made of life saving appliances by the fire-men. Life nets, scaling ladders and other apparatus enabled the firemen to save many persons whose escape had been cut off by flames and choking smoke.

ing smoke.

Nearly all the fires started in the lower parts of the buildings and although in no case did the money loss exceed a few thousand dollars, the dense clouds of smoke which swept up through halls and elevator shafts drove the panic-stricken tenants to roofs and fire escapes. Many were overcome before reaching the outer air, but with the exception of three all were found by firemen and carried out in safety.

A false alarm of fire also contributed to the day's list of injured.

The most serious fire of the day was that in an upper East Side apartment house in which three lives were lost, several persons were injured and many thrilling rescues were made.

# TO DEFEND OUR COASTS.

The Ordnance Board Says that 600

Additional Big Guns are Necessary. Washington, Nov. 11.—The annual report of the board of ordnance and fortifications shows that an unusual amount of experimental work has been performed by the board during. the past year. Many devices of novel design have been tested, but no novelty of real merit has been developed. One of the most important phases of the experimental work was the de-termination of the relative perforating qualities of capped and uncapped shells when fired at armor plate at considerable angles. These experiments are being continued on a larger scale. Only seven 12-inch guns out of the total of 100 guns contracted for in 1891 remain to be completed and the last of these will be made by August

of next year. The board renews its recommenda-tion of last year for the immediate procurement of medium calibre rapid fire guns for coast defense to the ex-tent of 200 semi-automatic high veloc-ity 6-pounder guns on pedestal mounts: 200 semi-automatic guns of a calibre large enough to fire shrapnel mounted on field carriages, and automatic machine guns, 30 calibre.

# The New Jersey Is Launched.

Quincy, Mass., Nov. 11.—The bat-tleship New Jersey, built for the Uniteeship New Jersey, built for the Uni-ted States government by the Fore River Shipbuilding Co., was success-fully launched yesterday in the pres-ence of a large number of guests, in-cluding Gov. Murphy, of New Jersey; Gov. Bates, of Massachusetts, and ex Secretary of the Navy Long. The bat-tleship was christened by Mrs. Wil-liam B. Kinney, daughter of Gov.

# A Strike Is Averted.

New York, Nov. 11 .- A strike which threatened to affect all the mills of the International Paper Co. in the east has been averted by an agreement which was reached between representatives of the paper workers and the company here yesterday. The trouble directly settled by this agree-ment was that at Berlin, N. H., where the company's employes were on strike, but many other mills were in directly affected, inasmuch as decided action in sympathy with the Berlin strikers had been threatened in other
