EDITORIAL MENTION.

Judge Parker is in luck, financially speaking. The Supreme Court of New York has given him two commissioners appointments, worth from \$5,000 to \$7,000 each. At this rate he will soon have a law practice as large as a United States Senator's.

Illinois having raised \$50,000 towards the McKinley memorial to be built at Canton, Ohio, it is now stated that the fund of \$600,000 has been secured. This is the largest sum of money ever raised in so short a time to build a monument for a President.

It is pleasant to note that owing to the steady increase in railroad traffic some 30,000 railway employees, who were laid off last spring, have returned to work, most of them in shops. The Pennsylvania road has taken back 11,400 men.

After considerable discussion the American Federation of Labor, in session in San Francisco, has voted to aid the striking textile workers in Fall River, Mass., to the extent of \$75,000. As the mills are open for all who wish to work it seems unnecessary to prolong the strike. The Federation considered a government pension for all persons over sixty who have earned no more than \$1,000 a year, by paying them \$12 a month.

Two hundred farmers of Dunklin county, Missouri, have petitioned the legislature of that state to cede their county to Arkansas, as "they are too self respecting to reside in a state which has gone Republican." This is taking defeat pretty hard, but it is a question whether a state would be allowed to cede a county to another state even if disposed to do so, and even if the reason were sane.

A short time ago it was said that Gen. Black would be made commissioner of Pensions, to succeed Mr. Ware, since the President wishes for a younger and more active man at the head of the Civil Service Bureau. Notwithstanding this statement it is now said that Senator Cockrill, a man considerably older than Gen. Black, is likely to be made the chief of the Civil Service. There must be a mistake somewhere. Only the President knows who will be the new commissioners.

A Frightened Horse.

Running like mad down the street dumping the occupants, or a hundred other accidents, are every day occurrences. It behooves everybody to have a reliable Salve handy and there's none so good as Bucklen's Arnica Salve. Burns, Cuts, Sores, Eczema and Piles disappear quickly under its soothing effect. 25c, at L. Taggart's Drug Store.

A Pleasant Pill.

No pill is as pleasant and positive as DeWitt's Little Early Risers. DeWitt's Little Early Risers are so mild and effective that children, delicate ladies and weak people enjoy their cleansing effect, while strong people say they are the best liver pills sold. Sold by R. C. Dodson.

Warning.

All persons are hereby forbidden from trespassing upon the property of this Company without a permit from this office, or the Superintendent at the works.

KEYSTONE POWDER MFG. CO. Emporium, Pa., August 1st, 1903. 24-1f.

Heals Everything. It beats anything in the healing line we ever used. My little girl had been troubled with dark purple sores on her legs for two months. Everything failed to help her until we tried San-Cura Ointment, which made a complete cure in a few applications. J. M. Fenton, Sheldahl Springs, Pa. San-Cura Ointment, 25c and 50c, at druggists. For sale by R. C. Dodson.

A man's place in heaven may be quite different from his pew down here.

She Struck Luck. About six years ago I sent to the store for some medicine and they sent me some Thompson's Barosma or Kidney and Liver Cure. The first bottle did me so much good that I bought the second and it cured me of female weakness, with which I had been troubled over two years. I gained in strength and flesh and have been well ever since. Mrs. M. Grove, Plum, Pa. For sale by R. C. Dodson.

It is worth a whole lot to be weary, if our work has provided a place of rest.

THE CHRISTIAN churches at Constantinople, Turkey, and Yokohama, Japan, have long used the Longman & Martinez Paints for painting their churches.

Liberal contributions of L. & M. Paint will be given for such purpose wherever a church be located.

F. M. Scofield, Harris Springs, S. C., writes: "I painted our old homestead with L. & M. twenty-six years ago. Not painted since, looks better than houses painted in the last four years."

W. B. Barr, Charleston, W. Va., writes, "Painted Frankenburg Block with L. & M. shows better than any buildings here have ever done; stands out as though varnished, and actual cost of paint was less than \$1.20 per gallon. Wears and covers like gold."

These Celebrated Paints are sold by H. S. Lloyd.

Faith has a way of looking right over the top of facts.

Beware of Counterfeits.

"DeWitt's is the only genuine Witch Hazel Salve" writes J. L. Tucker, of Centre, Ala. "I have used it in my family for Piles, Cuts and Burns for years and can recommend it to be the best Salve on the market. Every family should keep it, as it is an invaluable household remedy, and should always be kept on hand for immediate use." Mrs. Samuel Gage, of North Bush, N. Y., says: "I had a fever sore on my ankle for twenty years that the doctors could not cure. All salves and blood remedies proved worthless. I could not walk for over two years. Finally I was persuaded to try DeWitt's Witch Hazel Salve, which has completely cured me. It is a wonderful relief." DeWitt's Witch Hazel Salve cures without leaving a scar. Sold by R. C. Dodson.

The ideal tree may count for more than the real timber.

A Continual Strain.

Many men and women are constantly subjected to what they commonly term "a continual strain" because of some financial or family trouble. It wears and distresses them both mentally and physically, affecting their nerves badly and bringing on liver and kidney ailments, with the attendant evils of constipation, loss of appetite, sleeplessness, low vitality and dispendency. They cannot, as a rule, get ride of this "continual strain," but they can remedy its health destroying effects by taking frequent doses of Green's August Flower. It tones up the liver, stimulates the kidneys, insures healthy bodily functions, gives vim and spirit to one's whole being, and eventually dispels the physical or mental distress caused by that "continual strain." Trial bottle of August Flower, 25c; regular size, 75c. At all druggists. 48-ly.

It is no trouble for a train of thought to run on the downward grade.

Reduced Rates to Erie.

For the benefit of those desiring to attend the meeting of the Pennsylvania State Grange, Patrons of Husbandry, to be held at Erie, December 13 to 16, the Pennsylvania Railroad Company will sell round-trip tickets to Erie from all stations on its lines in the State of Pennsylvania, December 12 to 15, good to return until December 17, inclusive, at reduced rates (minimum rate, 25 cents.) 3398-41-2t.

Material Used in Making Note Paper.

It is not a pleasant thought that the brilliant white note paper which your hand rests upon may have in it the fibers from the filthy garment of some Egyptian fellow after it has passed through all the stages of decay until it is saved by a ragpicker from the gutter of an Egyptian town, and yet it is a fact that hundreds of tons of Egyptian rags are exported every year into America to supply our paper mills. Mannheim, on the Rhine, the American importers have their ragpicking houses where rags are collected from all over Europe, the disease infected Levant not excepted, and where women and children, too poor to earn a better living, work day after day, with wet sponges tied over their mouths, sorting these filthy scraps for shipment to New York. Our best papers are made of these rags and our common ones of wood pulp, which is obtained by grinding and macerating huge blocks from some of our soft wooded forest trees.—National Geographic Magazine.

The First Locomotive in Maine.

The first locomotive used in the state of Maine came from England, having been built at the works of Robert Stephenson & Co. in the year 1835, and made its first trip over the Bangor Oldtown and Milford railroad on Aug. 19, 1837. This road was then generally known as the "Veazie road," and the track was made of wooden rails strapped with iron. The shackles used to connect the engine and cars were made of three thicknesses of sole or belt leather held together by copper rivets and had a hole in each end so as to hook over an upright stationary pin bolted or driven into a rigid beam extending from the end of the car. It is said that for a time the engine was run in opposition to a six ox team employed by a Bangor lumber dealer who was not willing to pay the rates charged on the railroad, and it was not until the management of the line came to what he considered fair charges that he turned his traffic over to it.

In Nature's Wonderland.

There is but one Grand canyon. The name should never have been given to lesser gorges. The very fact that there is a so called Grand canyon in Colorado is misleading. "The Grand canyon of Colorado" does not sound much different from "the Grand canyon of the Colorado." Hence many people confuse them.

The canyon of the Colorado river, which flows through Arizona, forms the boundary line between that territory and California and then empties into the gulf of California.

It is the grandest gorge in the world. In it 3,000 of the wonderful gorges of the state of Colorado could be buried. With its tributaries, many of which have never yet been explored, it would reach, if all the canyons were placed one after another, nearly around the world.—Four Track News.

The Queer Man.

Of all forms of temper there is none more tiresome to deal with than that which is known as "queer." Down comes a bolt from the blue in the midst of apparent sunshine, and a sudden gloom and moroseness hide our friend completely from our view. An injured attitude is assumed, a martyr's halo carefully planned on, and happy, everyday life becomes an impossibility. People who want to be loved or even liked should never be difficult. Society has not time, even if it had the inclination, to study their idiosyncrasies and play up to all their petty prejudices. The passionate and even the sulky temper is forgiven sooner than the difficult one and is perhaps more possible to cure.—Edith H. Fowler in London Mail.

Lovely Liverpool Lasses.

Can you or your readers give any explanation of the remarkably heavy percentage of splendidly handsome ladies to be seen in Liverpool's city thoroughfares? When I say handsome, I refer not only to facial beauty, but also to symmetry of form and perfect physique. Walk from the Central station via Lord street to, say, the Landing stage, any day in the week, and you will behold a phalanx of superb womanhood. I am a Manchester man by birth and sentiment, but I must confess our city can produce nothing to compare with Liverpool's battalions of tall, lovely girls.—St. James' Gazette.

Effectually Suspended.

Only one dog has ever had the audacity to enter parliament during the proceedings. A hundred years ago the lords were thrown into consternation by a dog's entry. Lord North was addressing the house, and the dog promptly proceeded to bark furiously at him. Lord North, considerably upset, moved that the member who "was interrupting him should be suspended. Thereupon the dog was driven out and suspended in such a manner that he never interrupted again.—London Opinion.

The Number Forty in the Bible.

The rain that produced the flood fell for forty days and forty nights, and after it ceased it was forty days before Noah opened the ark. Moses was forty days on the mountain fasting, and the spies spent forty days investigating matters in Canaan before making their report. Elijah fasted forty days in the wilderness, and Jonah gave the people of Nineveh forty days in which to repent. The forty days' fast of Jesus is known to all readers of the New Testament.

Loaded For Them.

"Eddie, do you know what happens to bad little boys?" "Yes; the bears eat 'em up." "Then why don't you try to be good?" "Huh! 'S'pose I am afraid of bears? Say, I got a toy pistol!"—Erie Dispatch.

Starting a Row.

Nell (pinning for pleasant words)—Oh, George, I cannot understand it. Why do you lavish this wealth of love on me when there are so many girls more beautiful and more worthy than I am? George—I'm sure I don't know.

Opening the Door.

She—Faint heart never won fair lady, you know. He—True, I fear I shall never muster up courage to propose. She—But then ladies are not all fair. I'm a decided brunette.

Knowing Itself.

The chronicles of crime in the newspapers do not show that the world is growing worse, but that it is just learning how bad it is.—Philadelphia Inquirer.

A metal roof is said to be positive protection against the building it covers being struck by lightning.

SINNAMAHONING.

Charles Krebs killed a fine bear last week—found it in a hole. Wm. Gore killed a fine buck Monday. The hunters on Carthus moved in Tuesday 18 men but no deer.

Pap Blodget has the cigars up that he has the biggest hog in Wye side.

J. R. Batchelder caught two wild cats this week and is after some more of them.

Albert Jordan and family and Geo. Batchelder and family spent Sunday at Huntley.

Geo. P. Shafer tendered the use of his hall room to the P. O. S. of A., free of charge until they could rebuild. Mr. Shafer is an American all the way through.

Hunters report that parties in Clinton county are hounding deer with dogs and have killed quite a number that way this fall.

Frank Wolfseen a black bear one day last week bigger than his horse. He only had a 44 Winchester and did not dare shoot at it. He wanted a 45-110 calibre.

Lloyd McCloskey met with a painful accident last Saturday on the wood mill. An edging came from the bolter and went clear through his hand.

The fire of the 18th was a severe loss to the societies here. The P. O. S. of A., paraphernalia loss was \$587.00, insured for \$200.00. The P. O. of A., paraphernalia loss was \$309.87 no insurance, the L. O. T. M., loss on paraphernalia was \$60.00 no insurance. The A. D. K., loss on paraphernalia was \$75.00 no insurance. The different orders are meeting in Brooks' hall until a new hall can be built.

DEBSE.

Camels in War.

The camel is a good soldier. It may be stupidity, and it may be bravery, but a camel is as steady under fire as a tower. The Persians mounted small cannon on the backs of their camels and called them zambwahs, or little wasps. This fashion was adopted in India, and after the battle of Sobraon 2,000 of the artillery camels were captured. In the Indian mutiny the British had a camel corps of 150 beasts, and on the back of each camel sat a Scotch highlander in his kilt. In 1878 the British used camels against the Afghans, and the government paid for 50,000 camels that died in those campaigns. Many of these were driven to death by their owners in order that they might claim the government bounty. There was also a camel corps which did good service in the Sudan war against the mahdi.

EAST HUNTLEY.

On looking over the silly writing of A. J. Ajax from Huntley, I observed that the writer is either "loony" or else he has been misinformed about some of the items which appeared some time ago, concerning him and that young lady's wedding garments, etc. I want it distinctly understood that at the time these items were printed that I was not correspondent, and beside that, they did not appear in the "Gazette," but in the Press. The few items which appeared in the "Gazette" last spring about the jewelry store, and the watch and ring were not written by me either, I can prove myself clear by the editor. Mr. Ajax, if you think there is no danger of involving your paper in a liable suit, just keep on a little longer and see the result. Yours truly, T. W. KAILBOURN.

[Our correspondents will suit the Press editor if they cease these personal items. They are not news and only cause heart burns. Stop it.]—EDITOR.

The Deadliest Poison.

Cyanide of potassium and hydrocyanic or prussic acid are considered by most people to be about the most poisonous of known substances. This is an error. They are the most rapidly acting of all poisons, but not the most potent. One drop of pure prussic acid placed in the eye of a large dog will kill it within two seconds, and such a dose will kill a man. But there is an alkaloid in acetonite root called pseudocoumarin, one three-hundredth part of a grain or which will kill a moderate sized animal. This is the deadliest poison known, being 300 times as toxic as prussic acid.
