A DAINTY XMAS CALENDAR.

Pretty Home-Made Present That Will Be Acceptable to Anyone Receiving It.

The Christmas calendar here illustrated may be done in pen and ink or pyrography. It is also very pretty done with holly in place of the mistletoe and is one of the hundreds of accessories...

APPROPRIATE HOLIDAY PRESENT.

Acceptable little gifts that may be made by either the children or grown-up in the home during the early winter evenings, and be quite as acceptable to the recipient as a more expensive trifle purchased ready made.

RULES FOR GOOD HEALTH.

- 1. Be regular in your habits. 2. If possible, go to bed at the same hour every night. 3. Rise in the morning soon after you are awake. 4. A sponge bath of cold or tepid water should be followed by friction with towel or hand. 5. Eat plain food. 6. Begin your morning meal with fruit. 7. Don't go to work immediately after eating. 8. It is safer to filter and boil drinking water. 9. Exercise in open air whenever the weather permits. 10. Keep the feet comfortable and well protected. 11. See that your sleeping rooms and living rooms are well ventilated. Sleep with your window open and door shut. 12. Brush your teeth at least twice a day, night and morning; better do so after every meal. 13. Don't worry; it interferes with the healthful action of the stomach. 14. You must have interesting occupation in vigorous old age. Continue to keep the brain active. Rest means rust.

Bad News for Loving Girls.

It is a well-known fact that resting the cheek in the warm palm of the hand rapidly assists the fading of that cheek; but a doctor declares that this injury is not so rapid as that suffered by repeated kisses. The warm lips of another, it appears, create sad havoc on a fresh, rosy cheek and red lips when pressed there to often.

APPROVED WAYS OF DRESSING THE HAIR.

For the first time in this generation it is the fashion to study the contour of the head and modeling of the face and to adapt the hairdressing to bring out artistic effects. So women with individuality of mind or beauty are originating styles of coiffures, or imitating those of early periods that suit their outline. Usually the effects striven for are simple, and almost invariably paintable—that is, with an artistic expression that would be beautiful in a picture forever, regardless of modes. The affectively picturesque is still as bad form as it has been for several years past, when there was only one smart conventional style of hairdressing for women of all types and ages. You may look like a Burne-Jones picture, if you want your hair to be in a fluffy knot; but you must look exactly like one, not like a poor copy made by an amateur student. You may even have curls floating down from a chignon, with a garland of maidenly innocence circling your brow; but you must be young, ingenuitous and of the Empress Eugenie type if you attempt it and don't want to look like a Thackeray caricature of "Vanity Fair" ladies. You may do your hair as plainly as that of the loveliest Carlo Dolci Madonna or puffed out over your ears if you are of a slender type; but you must look authentic, as though you were signed and remarked, not a French poster or German chromo. The way to look genuine is to think out your coiffure, to select the style with the aid of the mirror, not to decide that a certain parting or puff or twist is pretty and so adorn your head without regard to its harmony with your type of beauty or plainness. The illustration shows a number of styles of hair dressing adapted to as many different styles of feminine beauty, but it is for each individual woman to choose that which suits her best.

BACK TO THE CHEMISE.

Paris Has at Last Abandoned the Corset-Cover in Its Favor.

Paris has dropped the corset cover as abruptly as the nondescript little garment was taken up and not a single trousseau of the hundreds made for wealthy or titled autumn brides includes one. Women of fashion who were permitted to feast their eyes on the truly royal outfit of Mlle. Anna Massena d'Essling de Rivoli, recently married to the ambitious young marquis of Albufeira, looked in vain for the abbreviated waist long regarded as an indispensable adjunct to stays. Instead, they saw stocks of wondrous chemises, each prettier than its predecessor, on which nimble fingers plainly had lavished unusual beauty to insure their welcome. As the bridegroom is a Bonaparte, a great-grand-son of the Lucien of that name, and as the bride derives her ancestry from several of the oldest families in the imperialist nobility, being a great-grandniece of Massena, it may be supposed the lingerie is designed with an eye to the newest fashion. The Tuxedo set doubtless will cling to the corset cover for awhile, but it must yield in the end—the chemise has come to its own again.

PROTECTING CHILD'S BED.

How the Little One May Be Given Fresh Air Without Danger of Drafts.

The illustration shows a device for keeping the air from an open window from blowing upon the heads of sleeping children, and also for keeping restless little sleepers from falling out of bed, says the Rural New Yorker. A triangular piece of cloth is tacked

TO PROTECT THE BABY.

with round-headed brass tacks to the side of the bed. The upper corner has a ring to go over a brass hook in the head-board. During the day this piece of cloth can be folded in under the mattress. If made of some pretty material and neatly bound, this addition to the bed's furnishings will not look at all unattractive, if left in place during the day.

LITTLE HINTS.

The front panel is quite the newest thing in skirts. Most of the small hats are tricorne or boat-shaped turbans. The crown is quite distinct from the brim in the new turbans. Tulle is one of the latest trimming ideas and is used in great quantities. Coq de roche is most effective as a relief note with gray-green and brown. Not for years has the separate wrap been such an important feature of dress. Ribbon of two contrasting shades is very smart for trimming tailor hats. Lots of fire brown and spinach green will be exploited in panne velvet and net.

OFFICIAL CUP OF COFFEE.

Proper Method of Brewing the Beverage to Be Determined in Washington.

By direction of the secretary of agriculture the bureau of plant industry is to take up at once experiments to determine the best manner in which to brew a cup of coffee. To this end, says a Washington report, F. L. Lewton, a specially trained expert, has been engaged. The view of the department is that a cup of coffee is good because of the manner in which it is brewed, rather than from the quality of the bean from which the beverage is made. It will be appreciated by all persons acquainted with the art and mystery of coffee-making that various conditions, apparently trivial in themselves, have to be taken into consideration in producing the beverage. For instance, in the process of roasting the beans may be more or less damaged by being under or over done, and the flavor of the coffee thus impaired to a corresponding degree. Hence the necessity for ideal conditions in roasting. Again, the effects of water at various temperatures upon the ground coffee and the proper period for infusion will, for the first time in the history of coffee-making, be thoroughly and accurately ascertained. The retention of caffeine, the active principle of coffee, to which it owes its stimulating effects, and the elimination of the caffeotannic and caffeic acids, which are not only injurious to health, but communicate an unpleasant, bitter taste to the beverage, will be, of course, the principal objects.

MURMURS FROM GROUND.

Strange Sounds Heard for Many Centuries on the Red Sea Borders.

A singular phenomenon occurs on the borders of the Red sea to a place called Nakous, where intermittent underground sounds have been heard for an unknown number of centuries. It is situated about half a mile distant from the shore, whence a long reach of sand ascends rapidly to a height of 300 feet. This reach is about 800 feet wide and resembles an amphitheater, being walled by low rocks. The sounds coming up from the ground at this place recur at intervals of about an hour. They at first resemble a low murmur, but ere long there is heard a loud knocking, somewhat like the strokes of a bell and which at the end of about five minutes becomes so strong as to agitate the sand. The explanation of this curious phenomenon given by the Arabs is that there is a convent under the ground here and that these monks ring for prayers. Such they call it Nakous, which means a bell. The Arabs affirm that the noise so frightens their camels when they hear it as to render them furious. Philosophers attribute the sound to suppressed volcanic action—probably to the bubbling of gas or vapor underground.

Her Mistake.

"Mamma," said a little West side girl yesterday morning, "I can't go to school to-day. My tooth is achin' awful." "All right, Lucy," said her mother, "get your jacket and I'll take you to a dentist and have the tooth pulled." The child hesitated a moment and then said: "Oh, mamma, I made a mistake. It ain't my tooth—it's my head that's achin'."—Kansas City Times.

A Teacher's Testimony.

Hinton, Ky., Nov. 28 (Special)—It has long been claimed that Diabetes is incurable, but Mr. E. J. Thompson, teacher in the Hinton school, has pleasing evidence to the contrary. Mr. Thompson had Diabetes. He took Dodd's Kidney Pills and is cured. In a statement he makes regarding his cure Mr. Thompson says: "I was troubled with my kidneys for more than two years and was treated by two of the best doctors in this part of the state. They claimed I had Diabetes and there was little to be done for me. Then I started to use Dodd's Kidney Pills and what they did for me was wonderful. It is entirely owing to Dodd's Kidney Pills that I am now enjoying good health." Many doctors still maintain that Diabetes is incurable. But Diabetes is a kidney and kidney disease that Dodd's Kidney Pills will not cure has yet to be discovered.

Miss Whittaker, a prominent club woman of Savannah, Ga., tells how she was entirely cured of ovarian troubles by the use of Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I heartily recommend Lydia E. Pinkham's Vegetable Compound as a Uterine Tonic and Regulator. I suffered for four years with irregularities and Uterine troubles. No one but those who have experienced this dreadful agony can form any idea of the physical and mental misery those endure who are thus afflicted. Your Vegetable Compound cured me within three months. I was fully restored to health and strength, and now my periods are regular and painless. What a blessing it is to be able to obtain such a remedy when so many doctors fail to help you. Lydia E. Pinkham's Vegetable Compound is better than any doctor or medicine I ever had. Very truly yours, Miss EASY WHITTAKER, 604 39th St., W. Savannah, Ga."

No physician in the world has had such a training or such an amount of information at hand to assist in the treatment of all kinds of female ills as Mrs. Pinkham. In her office at Lynn, Mass., she is able to do more for the ailing women of America than the family physician. Any woman, therefore, is responsible for her own trouble who will not take the pains to write to Mrs. Pinkham for advice. Her address is Lynn, Mass., and her advice is free.

A letter from another woman showing what was accomplished in her case by the use of Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM: I am so grateful to you for the help Lydia E. Pinkham's Vegetable Compound has given me that I deem it but a small return to write you an expression of my experience.

"Many years suffering with weakness, inflammation, and a broken down system, made me more anxious to die than live, but Lydia E. Pinkham's Vegetable Compound soon restored my lost strength. Taking the medicine only two weeks produced a radical change, and two months restored me to perfect health. I am now a changed woman, and my friends wonder at the change, it is so marvellous. Sincerely yours, Miss MATTIE HENRY, 429 Green St., Danville, Va."

The testimonials which we are constantly publishing from grateful women prove beyond a doubt the power of Lydia E. Pinkham's Vegetable Compound to conquer female diseases.

\$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness. Lydia E. Pinkham Med. Co., Lynn, Mass.
