WASHINGTON LETTER.

(From our Regular Correspondent.)

Washington, Dec. 31st, 1904.

Editor Press:—

A few of the members of the lower house of Congress who are interested in the administration of the Panama canal announce that they have studied out a way to reduce the number of the Canal Commissioners, and possibly to abolish the Commission altogether. They declare that they have a powerful ally in the President whose views regarding the commission have been considerably modified by the report of Col. Symons who states that after a visit to the Isthmus and a thorough examination of the conditions there he considered the system of administration awkward and inefficient. The law as it stands gives the commissioners practically continuous tenure. The right is reserved to the President to remove the Commissioners, and it is plain that he could reduce the Commission and refuse to appoint others in their place, but since it was the Senate which insisted on the commission and recommended the appointment of the officers it is not likely he will make use of this privilege. However the law for the administration of affairs in the canal strip expires at the close of the present session of Congress and members of the House, it is said, will take advantage of the necessity for re-enactment to urge a provision to extend the power of the chief engineer and to curtail that of the Commission. If the sentiment of the Senate should be too strongly opposed to this the whole subject could be thrown into conference for compromise. Col. Hepburn, chairman of the Interstate commerce committee is one of the most earnest advocates for a reorganization of the system of administering canal affairs, and is pretty solidly backed by his committee the members of which visited the Isthmus in a body last summer. The result of that visit was the unanimous opinion that Chief Engineer Wallace was the most competent man the Government had in its employ there and he should be given the fullest power possible in the conduct of affairs.

Among the recent callers at the White House was Representative Robert Hitt who would like to be the successor of General Porter as Ambassador to France. Mr. Hitt was first secretary of the American legation in Paris in 1874 and now that he has acquired wealth and honors in his own country he would like to return to the gay city. That its gayety makes an appeal is doubtful for Mr. Hitt has reached the uncertain age of seventy odd summers, and is in poor health. These disadvantages, it will be remembered, were urged against him last summer when his name was suggested for the Vice-Presidency. Mr. Thomas Walsh, the Colorado millionaire, has also been talked of as the next ambassador to France, where he made many friends by his lavish entertaining during the last exposition, but altogether the chances for the appointment are with George L. Meyer, of Massachusetts, now ambassador to Italy, who is a personal friend of the

President. Either of these three men have the means to establish and maintain a fine establishment in Paris, where though the charm of social life is great the expense is greater and a fortune behind one's salary is necessary for the position. Among the twenty-three Assistant Secretaries now in office the greater number served also under President McKinley and were of his selection. Of these, it is said, many will be retained for the President is averse to changing.

Womanly Health, Strength and Beauty

Strength and beauty in woman depend entirely upon her health. A woman cannot look her best if suffering from one or more of the many ailments peculiar to her sex. These ailments invariably cause, sooner or later, the loss of her symmetry of form and freshness of complexion.

AUNT DINAH'S OLD VIRGINIA Herb Tea

Makes Strong and Beautiful Women.

It is a most pleasant and effective remedy for the troubles which cause so much suffering among women the world over. It relieves immediately and eventually cures all cases of disordered menstruation, female weakness, proflapsus, chronic constipation, sick head aches, nervousness and sleeplessness. These are the ailments which deprive a woman of her youth and beauty and make her old before her time. The use of the Herb Tea will enable her to retain these qualities. It clears the complexion and improves the form. A cupful at bed time will give a woman health and strength.

Chicago, April 19, 1903.
Hamlins Wizard Oil Co., Chicago, Ill.
Gentlemen—My wife had been suffering with female weakness and extreme nervousness which latter the physician who has been attending her for a long time attributed to her being unable to sleep. After tossing about all night she would invariably rise in the morning with a terrible headache. The doctor seemed to be able to do nothing for her and she was constantly getting worse. She decided to try your Herb Tea and drank a cupful before retiring. In the morning she arose after a good night's rest without a headache for the first time in months. She has continued taking it during the past three months and has forgotten what a sleepless night means. She is feeling splendid and every one remarks how well she is looking. Her complexion is as clear as a young girl's and her figure has improved wonderfully. Yours truly,
