Peasants of Southern Russia Expect the Czar to Order a General Division of Land.

#### RESERVES REFUSE TO SERVE

The General Situation Is Becoming More Alarming Every Day and the Peace Party Is Steadily Gaining in Strength and Influence.

St. Petersburg, Feb. 25.—The beginning of a very dangerous movement has been observed among the peasantry of some of the southern prov-inces, where revolutionary agitators are circulating reports that the emperor will on March 4 issue a mani-festo providing for a general division of lands. A new allotment has been the dream of the moujiks ever since emancipation, and, according to private reports, the stories have spread like wildfire and are implicitly believed. In the government of Tulai a large proprietor went to his estate last week and found the peasants at work

measuring off and staking their shares.

Among the reservists agitators are spreading the story that the war is (e) Flag stations. (\*\*) Trains do not stop it Telegraph offices. Train Nos. 8 and 10 wife earry passengers. Tains 8 and 10 do. B. A. McCLURE Gen'l Supt. Coudersport, Pa. over. A case is cited which occurred a fortnight ago at Riazan, where 200 reservists who had been called in flatly told the officer they did not intend to serve.

Private reports also leave no room for doubt that the strikes in the whole region below Moscow are almost entirely political in character. The situation generally in the south Russia is becoming worse instead of

Moscow, Feb. 25 .- The employes of the Moscow-Kazan railroad struck Friday, as they had not received the management's reply to their petition. Warsaw, Feb. 25.—The police of this city threaten to strike for higher

pay.

The operating departments of the Warsaw division of the St. Petersburg

railway have struck,

The governor of Warsaw has been notified by the Warsaw & Vienna Rail-road Co. that the railway council at St. Petersburg has consented to increase wages of employes of the road this year by a sum of \$325,000.

Minsk, Feb. 25.—The manager of the

Libau-Romny railway says that Em-peror Nicholas has ordered the estab-ishment of a nine-hour day in all railway stations and workshops and that the employes will be allowed to elect representatives to report upon their grievances. An increase of pay is also promised.

#### A BUNCH OF INDICTMENTS.

Federal Grand Jury Finds True Bills Against Mrs. Chadwick and Bankers -Other Bank Officials Indicted.

Cleveland, Feb. 22.—The federal grand jury on Tuesday brought in several indictments against Mrs. Cassie . Chadwick; also indictments against

A. B. Spear, cashier of the wrecked Oberlin bank, was indicted for the misapplication of \$80,000 of the funds

misapplication of \$50,000 of the lands of the bank on August 24, 1903.

Mrs. Cassie L. Chadwick, "alias Mrs. C. L. Chadwick, alias Madame Devere," was also indicted for aiding and abetting in all of the above offenses. She was also indicted for alleged complicacy with C. T. Beckwick. leged conspiracy with C. T. Beckwith, president of the defunct Oberlin bank, and A. B. Spear to commit the offenses against the United States, so

the indictment reads.
Cleveland, Feb. 25.—Mrs. Chadwick and J. P. Dawley, her attorney, defied the authority of the United States, as vested in Referee Remington, in the bankruptey court Friday, stubbornly refusing to allow the woman to be sworn, though the court ordered her to rise and take the oath. In reply to this order she only looked at Dawley When, after a conference with him, she returned to the court and took the oath, she refused to answer practically all of the ques-

#### Decision Is Favorable to Russia.

Paris, Feb. 23.—A semi-official statement appeared last night relative to the work of the international commission which has been considering the North Sea incident. It follows: "The Hull commission met Wednesday in order to proceed to a final examination of the report recapitulating its conclusions. The commission gives no opinion on the question of the presence or absence of Japanese torpedo boats in the North sea, declaring merely that the Russian admiral quite egitimately believed that his squadon was endangered and that he had the right to act as he did."

#### Japs Defeated Russians.

St. Petersburg, Feb. 25.—A dispatch from Sachetun dated February 24, says: "The Japanese in superior numbers forced the Russian detachment to abandon their base at Beresneff Hill. The battle has been desper ate on both sides.

#### Foul Play Is Suspected.

Montclair, N. J., Feb. 24.—One person was burned to death, another is missing and five houses were destroy ed in a fire in High street, this city Thursday. The police are making an investigation of the fire, fearing that it was incendiary and that a murder was committed. The person burned to death was Mrs. Hannah Ross, and her coachman is missing. No trace of the coachman's body was found in the ruins and the police have begun a search for him in the belief that he may be able to cast some light on the origin of the fire.

Gave \$20,000 for a Crystal Ewer.

London, Feb. 25.—At an auction here Friday an Elizabethan ewer of rock crystal, mounted on silver, only 6½ inches high, belonging to the Marquis of Anglesey, was sold for the sensational price of \$20,000.

#### ASSAULT ON A WHITE GIRL.

Mississippi's Governor Hastily Ordered a Regiment of Militia to Prevent a Lynching at Jackson.

Jackson, Miss., Feb. 25.—Develop-ments in the case of the assault by a negro on Miss Marsh, a young white woman, came thick and fast yesterday and last night the streets of Mississippi's capital city were crowded with men, while a provisional regiment hastily organized by Gov. Vardiman will maintain order.

Early in the day a negro church was urned. The cause of the fire is unburned. known, but it is thought to have been the work of an incendiary.

The police arrested a negro named Stewart Johnson. His clothes were bloody and he bore other evidence of having been in a struggle. His mother and sister told conflicting stories in regard to the whereabouts of the negro at the hour of the assault.

His shoes were placed in the tracks where the assault was committed and they fitted exactly. Later in the day the police discovered a young negro named Jake Turnbull, about 14 years of age, who says he was on the other side of the street when the assault was committed Thursday night. He was taken to the jail and identified the negro Johnson as the one who committed the assault. Last night crowds began to gather in the uptown business district and talk of lynching was freely indulged in.

The negro was removed at the instance of Gov. Vardaman, though the officials refuse to say where he is.

#### TRADE IMPROVES.

The Influence of Better Weather Is Shown by Increased Sales in All Lines.

New York, Feb. 25 .- R. G. Dun & Co.'s Weekly Review of Trade says: Better weather has greatly improved rade in many sections of the country, spring merchandise being dis-tributed freely by jobbers, while retail business and mercantile collections are more normal. Interior buyers are placing liberal orders in the large cities, and preparations for structural work are hurried. Manufacturing lines have made splendid progress since the opening of the year especially the opening of the year, especially the various divisions of the steel industry, and textile mills are well engaged.

Shoe shops have ample spring business, but orders for fall delivery are delayed by the recent advance in prices that was necessitated by higher cost of production—particularly as to the raw material. In almost every branch of business there is confidence in active trade with the appearance of ettled weather.
Failures this week numbered 252 in

the United States, against 240 last year, and 29 in Canada, compared with 22 a year ago.

#### PIERCED THE ALPS.

The Simplon Tunnel Is Completed, Af-ter Seven Years' Work.

Gondo, Switzerland, Feb. 25.—Pierc ing of the Simplon tunnel through the Alps was completed Friday. The work was commenced in 1898.

The meeting of the two boring par-ties (Swiss and Italian) was signalled throughout Switzerland by ringing of church bells and salutes by cannon. Now that the borers have met it will enable the water accumulated in the

north gallery to be drawn off.

The work of preparing the tunnel for a permanent railway will be pushed as rapidly as possible and it is hoped to inaugurate the tunnel about March 20. The piercing of the Simplon is re-

garded as being one of the greatest engineering achievements of the age. Many difficulties were encountered and overcome. The length of the tunnel from Briga, Switzerland, to Izelle, on the Italian side of the mountain, is about 12 miles. The Swiss and Italian governments jointly financed the un-dertaking share and share alike at the

#### Steamboat Wrecked by Ice.

cost of \$15,000,000.

Maysville, Ky., Feb. 25.—The heavy ice gorge in the Ohio river at this point was dislodged Friday by a rise from the Kanawha river. Consider-able damage was done by the ice. The steamer Big Kanawha was torn from her moorings and floated down with the ice. As she passed the ferryboat Lawrence she tore the outer guards off the ferry boat. A quarter of a mile further down the ice tore a large hole in the hull of the Big Kanawha, she sank and the ice completely wrecked her.

#### A Double Murder or Suicide.

Homer, Mich., Feb. 25.—Louis Hardy and wife, aged about 40 years, were found dead in bed last night. Each had been shot once in the head and once under the heart. The police are working on a theory of murder, as the position of the bodies seemed to deny the possibility of either the hus-band or wife having fired the fatal shots.

#### An Attempt to KIII Morales.

Washington, Feb. 25.—United States Minister Dawson, at San Domingo City, cables the state department that an attempt was made there Friday to assassinate President Morales; that the attempt falled; that five of his assailants were captured and that the remainder escaped. No further details are supplied.

Boiler Explosion Caused Death. Antigo, Wis., Feb. 25.—The boiler in the planing mill of the Wunderleigh Lumber Co. exploded Friday, wrecking the mill and killing the engineer. A part of the boiler, passing over the high school, in which there were 600 children, wrecked two dwellings half

a mile away. Gave \$20,000 for a Crystal Ewer.
