# ON SWEEPING A ROOM.

## Hardwood Floors Infinitely Preferable to Carpets, But Where Latter Are Used Clean Strenuously.

"Yes, I learned ju-jitsu." "Yes," I learned ju-jitsu." "Yes," and when I was attacked by a huge hold-up man the other night I ap-piled my knowledge." "That's interesting." "Yes: I sprang at him and applied the grip called 'the come-along.' by which the ju-jitsu expert catches his victim and leads him wherever he will." "That was great, wasn't it?" "It would have been, but the footpath had never heard of ju-jitsu, and he picked me up and slammed me down till I thought every bone in my body was bro-ken, then he robbed me at his leisure and left." "To what do you ascribe your failure?" "To the fact that he had never studied ju-jitsu; had he done so he would have known that my hold rendered him power-less."-Houston Post. Just a Supposition. It requires skill and patience to sweep a room properly. The chief mistake made by the novice is in taking long, heavy strokes. Short, light strokes which are firm do the work as it should be done. It is always best to sweep a heavy Brussels carpet or one of similar make once with the grain and then across it, going over each three or four yards in this way until the entire carpet is swept. When a carpet is old and worn

evenly this is not necessary, but if it is new or has perceptible ridges in the weaving this method should be followed. After going over a room thoroughly, allow the dust to settle, and in ten or fifteen minutes give it the final brushing

-sweeping once again rather lightly. This can be done with a carpet sweeper or dampened broom. Tea leaves scat-tered over the carpet, however, are better than either. They should be wrung out and loosely sprinkled over the carpet just before this final sweeping.

Last spring and summer I used Dr. Pusheck's-Kuro with marvelous results. I regard this remedy as the wonder of the age. For years I have suffered with Nerv-ousness, and when I got up mornings would be dizzy and for moments would have blind staggers. I have been under the care of four physicians; their treat-ment did not do me a particle of good. I have used three packages of Pusheck's-Kuro and am now a well and happy wom-an. Pusheck's-Kuro has created new blood and flesh for me; since using it I have gained 30 pounds. I lose no optor-tunity to recommend it to my many friends here. Very respectfully. Mrs. W. Oury. It is a good plan to add a cupful of salt to every two cupfuls of tea leaves used. The salt seems to brighten the colors of a faded carpet, as well as to aid in the removal of dust. When this second sweeping is over use a whisk broom around the corners and at the edges of the carpet.

After the walls are dusted and the carpet is thoroughly swept, some house-keepers wipe off the carpet's surface with a cloth dipped in salt and water and then thoroughly wrung out. This will remove every atom of dust. A cloth used for this purpose must be frequently rinsed out in fresh water, and then dipped again into salt and water, wring-It is easy enough to be cheerful when things are coming right, but the man who faces adversity with a smile is the man who wins out in the end. ing thoroughly. These locomotives will pull more passenger cars at a higher rate of speed than any other kind. The company is also having built three they can be pushed out and the dust under them removed.

It is a great mistake to neglect sweeping as thoroughly as this once a week. Dust that becomes ground into a carpet wears it out more than anything else. Fortunately, many houses of to-day are built with hardwood floors, so that this burden of sweeping is materially lessened. Wood floors are easily swept with hair brushes or rubbed with crude petroleum or simply polished with a waxing brush .-- N. Y. Tribune.

WOMEN NOT TRUTHFU

This Statement Has Been Unjustly Made, Because Modest Women Evade Questions Asked By Male Physicians.

Is it any wonder, then, that women continue to suffer and that doctors fail to cure female diseases when they cannot get the proper information to work on 2

This is the reason why thousands and thousands of women are now corre-sponding with Mrs. Pinkham. To her they can and do give every symptom, so that she really knows more about the true condition of her patients, through her correspondence with them. If you suffer from any form of trouble

If you suffer from any form of trouble peculiar to women, write at once to Mrs. Pinkham, Lynn, Mass., and she will advise you free of charge. The fact that this great boon, which is extended freely to women by Mrs. Pinkham, is appreciated, the thou-sands of letters received by her prove. Many such grateful letters as the fol-lowing are constantly nouring in lowing are constantly pouring in.

An eminent physician says that "Women are not truthful; they will lie to their physician." This statement should be qualified; women do tell the truth, but not the whole truth, to a male physician, but this is only in re-gard to those painful and troublesome disorders peculiar to their sex. There can be no more terrible ordent to a delicate, sensitive, refined women than to be obliged to answer certain questions when those questions are asked, even by her family physician This is especially the case with un-married women.
