Chance for Another Guess. A guest who went to pay his bill not long since at a fashionable Florida hotel, was given a statement which showed him indebted to the house to the extent of \$124. As he had been there only four days, and had had few extras, he thought it a little steep, but he never flinched.

RESTORED HIS HAIR. Scalp Humour Cured by Cuticura Soap and Ointment After All Else Had Failed.

"I was troubled with a severe scalp humor and loss of hair that gave me a great deal of annoyance and inconvenience. After unsuccessful efforts with many remedies and so-called hair tonics, a friend induced me to try Cuticura Soap and Ointment. The humor was cured in a short time, my hair was restored as healthily as ever, and I can gladly say I have since been entirely free from any further annoyance. I shall always use Cuticura Soap, and I keep the Ointment on hand to use as a dressing for the hair and scalp." (Signed) Fredk. Busche, 213 East 57th St., New York City.

Rheumatism is a dread malady. It cripples many thousands each year, and in many cases it is little short of a lingering death. The new remedy—Pusheck's Kuro—is accomplishing many marvelous cures, and even the most obstinate cases yield to this medicine. Inflammatory, muscular or joint rheumatism can receive no treatment equal to Pusheck's Kuro. You will notice an almost instant improvement. At most druggists or direct from Dr. C. Pusheck, Chicago, upon receipt of \$1. Write for illustrated book.

From the surgical news that is floating around we may reasonably understand that this is a sort of reconstruction period for physical man.—Toledo Times.

A 480 ACRE FARM YIELDS 25 PER CENT. PROFIT A YEAR.

What a Mercer County (Ohio) Farmer Received from One Year's Crop.

Extracts from an interesting letter from P. H. Rynhard, of Starbuck, Manitoba, Canada, gives an excellent idea of the prosperity of those who have gone from the United States to Canada. He says:

"I bought, August, 1903, 480 acres of land, paying \$12,000 for it. We threshed 2,973 bushels of wheat and between 1,200 and 1,300 bushels of oats and barley from 200 acres. But part of the wheat went down before filling, and was not harvested except for hay. The crop was worth at threshing time \$3,000. Besides 120 acres laying idle, except a timothy meadow, which is not included in this estimate. Counting the value of the product and the increase of value of land will pay me more than 25 per cent. on the investment. Two brothers in the same neighborhood bought 160 acres each six years ago. They have not done a single thing to this land except to fence it and break and cultivate about one-half of it. Harvested last year 28 bushels wheat per acre. This year 27 bushels per acre. They can get any day \$25 per acre. These are only a few of many hundreds of such chances. It looks like boasting, but truth is justifiable, and the world ought to know it, especially the home-seeker. I know of quite a few farmers that have made fortunes in from 10 to 20 years, retired with from \$20,000 to \$100,000.

Writing concerning another district in the Canadian West, S. L. Short says: "Dear Sir:—I have to inform you that I have just returned from the Carrot River Country in Saskatchewan, where I located land of the very finest black vegetable loam, which I am proud of, and will move in the spring. Farmers are still plowing there. A mild climate and beautiful country to behold. Cattle are fat and running outside. Wood and water good. Saw oats weighing 42 pounds to bushel. Potatoes large and well ripened; also wheat that brought there 82 cents. The country exceeded my expectations. Saw oats in stock, thicker on the ground than appears in many of the illustrations sent out in descriptive pamphlets. I have been in many western states, but the soil excels any I ever saw."

The Canadian Government Agents at different points report that the inquiries for literature and railroad rates, etc., to Western Canada are the greatest in the history of their work.

No Practice. He—I had to keep a secret sometimes, isn't it? She—I don't know; I've never tried it.—The Royal.

Effects of Prosperity. In the six years of the country's greatest prosperity, from 1897 to 1903, average prices of breadstuffs advanced 65 per cent., meats 23.1 per cent., dairy and garden products 50.1 per cent., and clothing 24.1. All these were products of the farmer and stockman who profited more than any other class of the community by these advances. The miner benefited 42.1 per cent. by that advance in the average price of metals. The only decrease in the average prices of commodities in that period was in railway freight rates, which decreased from .798 per ton-mile in 1897 to .763 in 1903, a loss of 4.4 per cent. The report of the Interstate Commerce Commission shows that the average increase in the pay of railroad employes in that period was 8.5 per cent.

A CONSPIRACY TO DEFAUD

Stanley Francis, a Director of the Storey Cotton Co., is Remanded for Trial.

Philadelphia, April 1.—On the testimony of two former employes of the defunct Storey Cotton Co., Stanley Francis, accused of being one of the promoters and directors of the concern, was yesterday remanded for trial by United States Commissioner Craig with bail fixed at \$50,000. The original charge against Francis was using the mails for fraudulent purposes and he was arrested at the instigation of the postal authorities. The two important witnesses against the accused man were Miss Margaret Hope, a stenographer, and Miss Gertrude Sundheim, a book-keeper, who gave testimony which the commissioner held to be sufficient to convince him that the defendant was party to a conspiracy to defraud.

A statement of the concern's business showing assets of \$700,000 was produced by District Attorney Thompson and, after examining it, the witness said there was nothing on the cash book to show such assets. The book did show, however, that the company had lost \$1,178,417, but there was no indication that this sum was lost in cotton transactions.

DUN'S BUSINESS BULLETIN

Trade Returns Very Satisfactory—Iron and Steel Trade Prosperous.

New York, April 1.—R. G. Dun & Co.'s Weekly Review of Trade says: Trade returns are increasingly satisfactory, continued high temperature accelerating distribution in all leading lines. The closing days of March brought greater confidence regarding the future, and results for the first quarter of 1905 proved even more favorable than was anticipated when the year opened.

Reports from the south indicate that the period of hesitation is about over and agricultural sections are stimulated by prospects of a good season for planting.

A steady demand is noted in all departments of the iron and steel industry, orders constantly coming forward, and most plants are assured of activity for many months, while some mills decline contracts for shipment any time before 1906.

Failures this week numbered 244 in the United States, against 208 last year, and 33 in Canada, compared with 16 a year ago.

The Packers Show Fight.

Chicago, April 1.—Threatened indictments against persons connected with the big meat packing industries failed to materialize yesterday. Indications now are that the grand jury, for the present at least, will be content with listening to a continuation of evidence. Instead of further indictments being returned, it is said that the attorneys for the packers will force the issue in the indictment already returned against T. J. Connors, general superintendent for Armour & Co. Eight witnesses were heard by the grand jury Friday and the proceedings seemed to be running with a great deal more smoothness than heretofore. Five of the eight witnesses were men employed by Swift & Co. in Swift's Chicago plant.

Admits a Shortage of \$8,500.

Boston, April 1.—Charged with the larceny of \$8,500 from the estate of which he has been trustee for over ten years, Charles M. Reed, a lawyer, 60 years old, was arrested Friday and held at the city prison in default of \$10,000 bail. Reed was trustee of the Samuel W. Cushing estate at Kingston, valued at between \$55,000 and \$60,000. His arrest was brought about at the request of the Bankers' Surety Co., which furnished surety for him when he assumed charge of the estate. Reed collapsed when taken into custody and, according to the police, admitted the shortage.

Both Shot to Kill.

Malone, N. Y., April 1.—Summer Hazen, a bridegroom of a week, and John Hall, his wife's brother, are dead as the result of an exchange of pistol shots at Hall's home Thursday night. When Hall learned that Hazen and his sister were to be married he warned Hazen that he would prevent the ceremony. Nothing came of the threat and the newly married couple started for a visit to the bride's brother's home. They had hardly crossed the threshold before Hall drew a revolver and sent a bullet into Hazen's body. As Hazen fell he returned the shot.

Photographer was Blown to Pieces.

Omaha, Neb., April 1.—As a result of the explosion of a flashlight photograph apparatus here Friday one man is dead and another badly injured. Preparations were being made by an unknown person to take a flashlight photograph of a saloon, when without warning the apparatus exploded and fragments of the photographer's body were blown in all directions. William Murray, a bystander, was seriously cut about the head. The saloon building was wrecked by the explosion.

Japs' Army Again Advances.

St. Petersburg, April 1.—News from the front indicates that Field Marshal Oyama has begun a genuine advance of his main army, with wings far extended. Heavy reconnaissances are being made against the Russian center.

Explosion a Great Epidemic.

New York, April 1.—Before the present year is over, according to Health Commissioner Darlington, New York will be visited by a great epidemic of measles, perhaps the greatest in its history. The commissioner says there will probably be 20,000 cases.

Wreck was Fatal to Three.

Dickinson, N. D., April 1.—Patrick Riley, a traveling salesman; Henry Doty, of Bowling Green, O., and David Simons, of Montana, were killed in a stock train wreck near Medora, on the Northern Pacific road.

Use LION COFFEE, because to get best results you must use the best coffee. Grind your LION COFFEE rather fine. Use 1/2 tablespoonful to each cup, and one extra for the pot. First mix it with a little cold water, enough to make a thick paste, and add white of an egg (if egg is to be used as a settler), then follow one of the following rules: 1st. WITH BOILING WATER. Add boiling water, and let it boil THREE MINUTES ONLY. Add a little cold water and set aside five minutes to settle. Serve promptly. 2d. WITH COLD WATER. Add your cold water to the paste and bring it to a boil. Then set aside, add a little cold water, and in five minutes it's ready to serve. (Don't boil it too long. Don't let it stand more than ten minutes before serving. DON'TS (Don't use water that has been boiled before. TWO WAYS TO SETTLE COFFEE. 1st. With Eggs. Use part of the white of an egg, mixing it with the ground LION COFFEE before boiling. 2d. With Cold Water instead of eggs. After boiling add a dash of cold water, and set aside for eight or ten minutes, then serve through a strainer. Insist on getting a package of genuine LION COFFEE, prepare it according to this receipt and you will only use LION COFFEE in future. (Sold only in 1 lb. sealed packages.)
