WHEREAS, Our Heavenly Father has removed from our midst our late Past President, Mrs. Laura E. One whose long and faithful service won the respect and confidence of her co-workers whose loss we sincerely feel Resolved, That we extend to her family our sympathy in their bereavement.

Resolved, That these resolutions be entered on the minutes, and our Charter be draped for a period of thirty days.

MRS. HATTIE A. GREGORY,  
MRS. MATHILDA H. DODGE,  
MRS. MARIAN B. JUDD,  
Committee.

Emporium, Pa., April 13, 1905.

By death, Gladiola Hive, Lady of the Maccebes, has been deprived of the faithful service and loyal support of Mrs. Laura E. Heilman, the first Lady Commander of our Hive. Her death is a sad loss to the Hive in whose organization she was an ardent worker as a charter member true to the principles of the order, charitable in the work, strong in the faith of its ritual and helpful in placing the beloved order upon firm footing. The committee, into whose hands is entrusted the Hive, unanimously Resolved, That recognizing the will of Him who is the foundation of our belief, we submit to the providence of Omnipotence and cherish the memory of our departed sister and counselor and consign to nature her mortal remains in the hope and belief that her immortal spirit has entered the Great Hive of a living and forgiving God.

MRS. D. W. ENSIGN,  
MRS. THOS. CUMMINGS,  
MRS. I. K. HOCKLEY,  
Committee.

WHY not have your mouth placed in a healthy condition? Today the practitioner of medicine recognizes that a clean condition of the mouth of his patients is absolutely essential to their health and welfare; that there is remarkable immunity from disease in both adults and children who have clean, healthy mouths; that 75 per cent of dental troubles are of dental origin; that 90 per cent of neuralgias are the result of imperfectly inserted metallic fillings, impacted wisdom teeth or roots covered by the gums. The satisfaction and comfort derived from a clean mouth is worth far more than the time and money expended in its production.
