NOW IS THE TIME FOR HYOMEI. Far Easier to Cure Catarrh Now Than

at Any Other Season. Now is the time to use Hyomei, when the early summer days make it so easy to cure catarrh troubles. The Hyomei treatment, breathed for a few minutes three or four times a day in May or June, will do good twice as quickly as it did in January, and nearly everyone knows that used faithfully then, it completely rids the system of catarrh.

Hyomei is a purely vegetable preparation whose active curative properties are given off when it is breathed by the aid of the pocket inhaler that comes with every outfit. It destroys all germ life in air passages, purifies the blood by supplying additional ozone, and its healing, volatic, antiseptic fragrance reaches every corner of the respiratory tract as no medicine taken through the stomach can possibly do.

The complete Hyomei outfit costs but one dollar, and consists of a neat inhaler that can be carried in the purse or vestpocket and will last a lifetime, a medi-cine dropper, and a bottle of Hyomei. Extra bottles of Hyomei can be procured, if desired, for fifty cents.

At this season of the year when ea-tarrhal troubles can be so quickly and read cured, the merits of the Hyomei treatment should be carefully investigated by overyone and a complete outfit should be in every home. L. Taggart gives his personal guarantee with every Hyomei outfit they sell to refund the money if it does not give satisfaction. There is no risk whatever to the purchaser of Hyomei.
