RAILROAD RATE LEGISLATION

It Is Unconstitutional and Unnecessary to Confiscate the Property of the Railways.

Testifying before the Senate Committee at Washington, Inter-State Commerce Commission Prouty said in discussing the proposition to give to that Commission the power to regulate railway rates:
"I think the railways should make

their own rates. I think they should be allowed to develop their own business. I have never advocated any law, and I am not now in favor of any law, which would put the rate making power into the hands of any commission or any court. While it may be necessary to do that some time, while that is done in some states at the present time, while it is done in some countries, I am opposed to it. . . . The dry spell comes they yield to it quick-railway rate is property. It is all the er than do most of our common milproperty that the railway has got. The rest of its property is not good for anything unless it can charge a rate. Now it has always seemed to me that when a rate was fixed, if that rate was an unreasonable rate, it deprives the railroad company of its property pro tanto. It is not necessary that you should confiscate the property of a railroad; it is not necessary that you should say that it shall not earn three per cent. or four per cent. When you put in a rate that is inherently unreasonable, you have deprived that company of its rights, of its property, and the Circuit Court of the United States has jurisdiction under the four-

teenth amendment to restrain that.
. . I have looked at these cases a great many times, and I can only come to the conclusion that a railroad company is entitled to charge a fair and reasonable rate, and if any order of a commission, if any statute of a state legislature, takes away that rate, the fourteenth amendment protects the railway company."

HER WEAKNESS GONE

HOT FLASHES AND SINKING SPELLS CONQUERED AT LAST.

Mrs. Murphy Tells Her Fellow-Sufferers How She Got Rid of Serious Troubles by Simple Home Treatment.

"I had been bothered for several years," said Mrs. Murphy, "by stomach disorder, and finally I became very weak and nervous. Flashes of heat would pass over me, and I would feel as if I was sinking down. At such times I could not do any household work, but would have to lie down, and afterwards I would have very trying nervous spells."
"Didn't you have a doctor?" she was

asked.
"Yes, I consulted several doctors but my health did not improve. One day a friend asked me why I did not try Dr. Williams' Pink Pills. She assured me that they had proved of the greatest benofft in the case of her daughter. In fact, she praised them so enthusiastically that my husband got me a box."
"And what was the result?"

"Before I had taken half of the first box my condition was greatly improved. The quickness with which they reached and relieved all my troubles was really surprising. After I had used only three boxes I had no more heat-flashes or weak spells. Thanks to them, I have become a well woman."

Mrs. Mary D. Murphy lives at No, 1903 Force street, Fort Wayne, Indiana. Dr. Williams' Pink Pills, the remedy which she found so satisfactory, furnish directly to the blood the elements that give vigor to every tissue of the body. They can be depended on to revive failing strength, and to banish nervous-ness. Their tonic properties are absolutely unsurpassed.
As soon as there is drag, or dizziness, or

pallor, or poor circulation, or disordered digestion, or restlessness, or pains, or ir-regularities of any kind these famous pills should be used. They have cured the most obstinate cases of anæmia, dyspepsia, rheumatism, neuralgia, nervous prostration and even partial paralysis.

If you desire information specially suited to your own case write directly to the Dr. Williams Medicine Company, Schenectady, N.Y. Every woman should have a copy of Dr. Williams' "Plain Talks to Women." which will be mailed free to any address on request. Any druggist can supply the pills.

SICK HEADACHE

CARTER'S Positively cured by these Little Pills.
They also relieve Distress from Dyspepsia, Indigestion and Too Hearts Eating. A perfect rem edyfor Dizziness, Nausea, Drowsiness, Bad Taste in the Mouth, Coated Tongue, Pain in the Side, TORPID LIVER. They

regulate the Bowels. Purely Vegetable. SMALL PILL. SMALL DOSE. SMALL PRICE.

FOXTAIL MILLET.

Several Varieties of the Plant Are Being Grown in America-Are Large in Form.

Under the name of Japanese millets several kinds of foxtail millet are being grown in this country. Most of these millets are large in form and yield heavily in seed and forage, under favorable conditions, but do not withstand drouth well, and when a dry spell comes they yield to it quick-

There have also been introduced

KOREAN FOXTAIL MILLET from Korea millets known as foxtall, which differ considerably from the millets grown in this country and also from the Japanese says Farmers' Re-We illustrate the Korean millet. This millet has done well on the grounds of the agricultural department in Washington, but as yet little ex-perimentation has been done with them in the country as a whole.

TO ESCAPE INSECTS.

Rotation of Crops Effects Much Good in Ridding Farm of Destructive Life.

On a farm of good size the best way to keep the destructive insects down is to rotate crops. I find that in that way I can generally escape the worst of the insect pests, says a Michigan farmer in the Farmers' Review. Where the same crop is planted on the same field year after year the insects have a chance to establish themselves in colonies. In the case of the plant lice on corn roots there is little danger the first year because the ants are the real mischief-makers. If the field has been in oats the previous year we may expect to find no ants there, for lice do not feed on the roots of the oat plant. Not till corn has been on the same land for several years will the ant invasion become serious, and without the ant invasion we have nothing to fear from the lice.

The Hessian fly is quite easily stamped out by taking away his food supply for one year, but we must do that by depriving this insect of all of his main-stays in feeding—wheat, rye and barley. Not only must we put the land into something else than those crops, but we must be careful that in the field planted to corn or potatoes no volunteer wheat, rye or barley is permitted to grow.

One Bee Tree.

In June last we cut a bee-tree. The bees, though considerably scattered about by the tree breaking when it struck the ground, were hived and at once went to work. When we went after them, however, the hive was empty. In passing the spot four months later we noticed been flying and found the swarm under a portion of the tree. They had built a number of combs, a foot in depth, and had considerable brood and honey, all out in the open air.

Good Drinking Fount.

A good drinking fount for little chicks is made by filling a shallow crock or pan with pebbles about the size of hickory nuts or as large as walnuts, and then filling with water. chicks can drink between the pebbles, but cannot get wet or drown. The vessels should be scalded out two or three times a week .-- Commercial

Milk a Perfect Food.

It needs to be frequently repeated that milk is a perfect food, and alone would sustain life. Eggs, bananas and some other foods will do the same. But Irish potatoes will not. Pure, un-skimmed milk is adapted to all ages, and is difficult to surpass as food.

Have the Collar Fit

The collar is a thing a horse must wear all day, when at work. Not only that, he must pull against that collar all the time while doing his work: so it should fit the shoulders as perfectly as possible.-Farm Journal.

Keep Incubator Clean.

After every hatch thoroughly wash the incubation chamber with hot soap suds and leave it open until perfectly dry and sweet. No amount of ventilation will counteract the ills of a foul chamPiscatorial Expert.

you were worth.—Brooklyn Eagle.

Happy Thought.

Mrs. Bacon—I see the walls of many of the houses in Mexico are from three to six feet thick.

Mr. Bacon—I wish you'd run down there and see if you can find a flat to suit us.—Yonkers Statesman.

Thought She Couldn't Live.

Thought She Couldn't Live.

Moravia, N. Y., June 5.—Mr. Benjamin Wilson, a highly respected resident of this place, come very near losing his wife and new that she is cured and restored to good health his gratitude knows no bounds. He says:—

"My wife has suffered everything with Sugar Diabetes. She has been sick four years. She doctored with two good doctors, but kept growing worse. The doctors said she could not live. She failed from 200 pounds down to 130 pounds. This was her weight when she began to use Dodd's Kidney Pills, and now she weighs 190, is well and feeling stronger every day.

weighs 190, is well and feeling stronger every day.

"She used to have Rheumatism so bad that it would raise great bumps all over her body and this is all gone, too.

"Dodd's Kidney Pills are a God-send to those who suffer as my wife did. They are all that saved her. We can't praise them enough."

The people who think they can accomplish things merely by pushing hard generally have to be fished out of the wreckage sooner or later.—Puck.

To Wash Lace Collars.

Shave Ivory Soap in boiling water; add a pinch of soda and drop the collar in, stirring it until the dirt is removed. Rinse in a pint of hot water to which has been added a teaspoonful of gum arabic and a few drops of coffee or real Indian tea. To iron, pick out and press on white flannel, press with a moderately hot iron. ELEANOR R. PARKER.

If the man who thinks only of saving his own soul ever gets into heaven, he will probably fall out through a knothole.

Some men are so level-headed that it's wonder they can get hats to fit them.—N. Y. Times.

Piso's Cure cannot be too highly spoken of as a cough cure.—J. W. O'Brien, 322 Third Ave., N., Minneapolis, Minn., Jan. 6, 1900.

It takes more than dogma and creed to make a Christian.—The Commoner.

Backache, "The Blues

Both Symptoms of Organic Derangement in Women-Thousands of Sufferers Find Relief.

Surely such testimony is convincing. Mrs. J.G. Holmes, of Larimore, North Pakota, writes:

Dear Mrs. Pinkham:—

"I have suffered everything with backache and womb trouble—I let the trouble run on until my system was in such a condition that I was unable to be about, and then it was I commenced to use Lydia E. Pinkham's Vegetable Compound. If I had only known how much suffering I would have saved, I should have taken it months sooner—for a few w.k.ks' treatment made me well and strong. My backaches and headaches are all gone and I suffer no pain at my menstrual periods, whereas before I took Lydia E. Pinkham's Vegetable Compound I suffered intense pain"

Mrs. Emma Cotrely, 109 East 12th Street, New York City, writes:

Advice—A Wonan Best Understands a Woman's Ills.

How often do we hear women say: "It seems as though my back would break," or "Don't speak to me, I am all out of sorts?" These significant remarks prove that the system requires attention.

Backache and "the blues" are direct symptoms of an inward trouble which will sooner or later declare itself. It may be caused by diseased kidneys or some uterine derangement. Nature requires assistance and at once, and Lydia E. Pinkham's Vegetable Compound instantly asserts its curative powers in all those peculiar aliments of women. It has been the standby of intelligent American women for twenty years, and the ablest specialists agree that it is the most universally sucessful remedy for woman's ills known to medicine.

The following letters from Mrs. Holmes and Mrs. Cotrely are among the many thousands which Mrs. Pinkham has received this year from those whom she has relieved.

Surely such testimony is convincing Mrs. J. G. Holmes, of Larimore, North

No other medicine in the world has received such widespread and unqual-fled endorsement. No other medicine has such a record of cures of female troubles. Refuse to buy any substitute.
