O. B. TANNER, Gibson. GEO. A. WALKER, JR., Emporium. Election, Tuesday, Nov. 7th.

It is indeed unfortunate that the federal deficit on June 30, the close of the fiscal year, should have so far exceeded Secretary Shaw's estimate.

It amounted to \$24,300,000, or \$6,300,000 more than the Secretary had believed was possible.

Every cloud has a silver lining however, and it is more than probable that the President will find the growing deficit a powerful weapon in his coming fight for tariff readjustment.

There is no doubt but that the views of Secretary Hay contributed to the tenacity with which the President has insisted that the time has come for the Republican party to readjust the tariff schedules to suit changed conditions.

Mr. Hay was an intensely loyal protectionist none more so, but he believed in customs duties which would closely equal the difference between the wages of foreign and domestic labor, and in not a penny more.

Can anyone read the list of prominent Chicagoans indicted in connection with the Government's prosecution of the Beef Trust and for a moment doubt the sincerity of the President's campaign against the trusts?

It is perfectly amazing how excited some people can get over little things. It is reported that some of the labor unions are "up in arms" over the President's order regarding the Chinese exclusion law.

Can they not realize that all the President has done is to insist that the law be enforced precisely as its framers intended that it should be? Is there any possible reason why a man whose duty it is to exclude a Chinaman should use harsh and brutal methods instead of positive and polite ones?

Judge Hooker of New York believes that the Tammany Senators will prove powerful enough to effect his whitewashing. If there is any dirty work to be done it is the Tammany statesmen who are expected to perform it.

Chief Engineer Wallace must regret that Secretary Taft ever got off the lid. The Chief Engineer probably has an impression that it was the lid itself that struck him.

The new engineer of the Panama Canal, Stevens has promised Taft that he will not come away from Panama without orders unless he does so "in a pine box."

The revisers of the litany should add a line something like this: "From a Panama pension-list, Oh! Lord deliver us."

Mr. Rockefeller may count on finding defenders as long as his money lasts.

Obviously the Czar is carrying out his original disarmament proposition possible because he can't help it.

The Great Canadian Assurance Co.

On another page of this paper our readers will see an advertisement of the Sun Life Assurance Company of Montreal, Canada.

This company is deserving of the confidence of the people because of its fair dealing to its policy holders and the liberality of its contracts.

The Canadian Companies embody many things that at present our own companies do not. The exposures of the Equitable Life Insurance Company and the allegations made by Mr. Lawson develop the fact that there are some serious defects in our insurance laws.

President Roosevelt in his last message to Congress urged that a national bureau of insurance should be established. At present all insurance legislation is by states, and unfortunately it is too much for the protection of the management and too little for the protection of the policy holders.

On the other hand the Canadian Companies are under national supervision and it is recognized that the insurance laws of Canada are the best in the world. So strict are the laws of Canada that no regular life insurance company in that country has ever failed or has a policy holder ever lost a penny, consequently a person insuring in the Sun Life Assurance Company of Canada has not only the protection of the splendid laws of Canada, but also the same protection that he would have in any home company because the Sun Life Assurance Company of Canada has to comply with every law and every requirement that any home company has to.

The Sun Life not only issues all the regular forms of policies that all other companies do, but it makes a specialty of what is known as the triplet policies and the life income endowment.

A Life Income Endowment is a policy that allows the assured to make an absolute protection for himself and his beneficiary as follows:

In case the assured dies during his term of 20 years the company will pay from \$50 to \$5,000 a year to the beneficiary for 20 years and as long thereafter as the beneficiary may live, but should the assured survive the 20 years, the income of \$50 to \$5,000 a year will revert to him as long as he lives and should his beneficiary survive him the amount will continue to be paid the remainder of the beneficiary's life.

So under that system anyone during their producing years can secure an absolute income for themselves and those dependent upon them the remainder of their lives.

The Triplet form is a combination of regular insurance and income. For example: A person takes a \$10,000 triplet policy. In case of his decease, the company immediately pays \$10,000 to the beneficiary and after paying the \$10,000 they will pay another \$10,000 in 20 annual installments of \$500 each, and after paying the 20 installments of \$500, they will pay another sum of \$10,000. In other words the \$10,000 triplet insurance secures to the estate \$30,000 at a cost of about 2/3 of what the same amount of insurance would call for on the regular forms.

Then again the Sun Life has a system by which it will issue policies from \$125 to \$1,000 on the different forms of Life, 20-Payment Life, and 20-Year Endowment to any who desire to take regular life insurance, but cannot see their way to pay for \$1,000 and upwards. The smaller policies of \$250 and \$500 have the same equities and surrender values as the large policies have, the chief difference being that the results instead of being estimated are guaranteed. To any desiring up-to-date, first class insurance contracts, it would be well to investigate the contracts of the Sun Life Assurance Company of Canada. We will cheerfully give any information at this office.

Mr. Pyle, at present located at New Warner, Emporium, is acting as an assistant to the management of the Erie Office and will not only be pleased to give all terms and rates, but also give information to any who desire to act as agents.

A Surprise Party.

A pleasant surprise party may be given to your stomach and liver, by taking a medicine which will relieve their pain and discomfort, viz: Dr. King's New Life Pills. They are a most wonderful remedy, affording sure relief and cure, for headache, dizziness and constipation. 25c at L. Taggart's drug store.

The Most Fatal Disease.

Diseases of the kidneys cause more deaths than any other one class of diseases. Most people who have kidney disease do not know they have it. The first symptoms are either not noticed or mistaken for something else. This is why insurance companies always require a strict analysis of urine before granting insurance.

Thompson's Barosma will at once relieve any congestion or inflammation of the kidneys and has made remarkable cures in Bright's disease, scintea and all diseases of the kidneys and liver. Pleasant to take. Thompson's Barosma 50c and \$1.00 at R. C. Dodson's.

Lazy men are always harping on the luck of fools.

How to Retain Youth.

Middle aged and aged people can retain their youthfulness by keeping certain organs in a healthy condition. In a man the liver and kidneys will cause him to look, feel and act careworn. In a woman the liver and organs peculiar to her sex will give her a careworn, sallow, wrinkles look and dragged out feelings.

All this can be avoided by Thompson's Barosma. It builds up and strengthens all those functions giving renewed youth. Thompson's Barosma retains youth. R. C. Dodson's 50c and \$1.00.

Who use molasses demand the best syrup obtainable. Treacle is not molasses although there's much treacle sailing under false colors. The difference between treacle and molasses lies in the fact that treacle comes from the sugar in the process of making, while molasses is obtained in the process of refining. You can not get good out of bad, but you can get the best from the best which comes from the sugar.
