# HANGED BUNCH OF RIOTERS

Twenty-four Leaders of the Uprising at Odessa Were Executed in Various Prisons.

### TREPOFF GETS MANY WARNINGS

The "Worst Hated Man in Russia" Is Told in Letters that He Will be Assassinated - Terrorists Planned to Blow Up Czar's Palace.

Odessa, July 14.—Twenty-four leaders of the recent disturbances here were hanged yesterday in various prisons. Another batch of 17 will be publicly executed upon the arrival

here of Gen. Ignatieff.

The battleship Georgi Pobledonostetz has arrived here with a fresh
crew for the purpose of taking 67
mutineers to Sevastopol for trial by court-martial.

Of 202 persons arrested and charged with robbery or incendiarism in connection with the recent riots here, 74 were acquitted owing to lack of control of the evidence and 28 were sentenced to six weeks' imprisonment, the time to in-clude the two weeks which they have already passed in prison. The extraalready passed in prison. The extra-ordinary outcome of these trials has aroused much comment. It is openly asserted that it is a political demon-stration against the military govern-ment and furnishes evidence of the conflict going on between the municipality and the government, as the judges are elected by the people.

St. Petersburg, July 14.—The assassin of Prefect of Police Shuvaloff, of Moscow, has been identified as a former school teacher of St. Pete sburg named Rulikovsky, who was actively connected with the political registric and is helioved to have be agitation and is believed to have be-longed to the terrorist organization. After the prisoner's escape from the

police station where he had been confined as a political suspect some days previous to the assassination of the prefect, Shuvaloff set all the police of Moscow at work to effect his recapture. The prisoner in the meantime shaved off his beard and while the police were searching for him every-where the man went to the prefect's office and committed the crime for which he will now be tried. The bullets of the revolver used by the pris-oner were filled with poison. The crowd in the ante-room of the prefecture set upon the assassin, who was dragged into the street and ter-

The terrorists have recently renew their warnings against Gen. Trep. off with ominous persistence. The general is constantly in receipt of let-ters signed by the executive committhe fighting organization in forming him that his hour has come A remarkable feature of all the communications is that the writers say that no safeguards will avail to avert his impending doom. At the same time they tell him he need not be afraid to go abroad in the streets. They add:

"Your sentence will be executed in your own room. You will die in your

The police have discovered elaborate preparations for blowing up the castle of Ilinskoje, near Moscow, where the czar with the imperial family intended to take up a brief residence. Beneath the apartments described for his wicety. tired for his majesty's use a subter-ranean passage is said to have been found leading to a cellar where 250 pounds of dynamite lay concealed. The police have made many arrests.

# PRIZES ARE AWARDED.

Cleveland and Toledo Lodges of Elks Get \$500 Apiece.

Buffalo, N. Y., July 14.—The Elks' committee on parade prizes has an nounced its decisions as follows:

Best appearing lodge in parade—
Toledo lodge, No. 53, first prize of \$500; Detroit lodge, No. 34, second prize of \$100, and silk banner.

Most unique uniform-Single prize

\$500, awarded Cleveland lodge, No. 18. Greatest mileage, \$500—El Paso, Texas, lodge.

Lodge accompanied by greatest number of ladies, \$500—Bridgeport, Conn., lodge.

Lodge having greatest number in

line, nearby lodges barred, \$500— Erie, Pa., lodge No. 67. Lodge having greatest number of men in line, home lodges barred— Rochester, first; Lockport, second.

# A Destructive Tornado.

Fairfax, S. D., July 14.—One person was killed and 14 injured, two prob-ably fatally, by a tornado which swept a portion of the Rosebud reservation vesterday. At least three small towns were struck by the storm. Roy Mc Fadden was killed near St. Eight persons were fnjured at Herrick and several buildings destroyed. At Burke six people were injured, including James Jensen, his, wife and baby

# Witte Will be Chief Peacemaker.

St. Petersburg, July 14.-Emperor Nicholas has signed the appointment of M. Witte, president of the committee of ministers, to be chief plenipo government in the peace negotiations to be conducted in the United States. The appointment clothes M. Witte with plenary powers.

# Eight Men Killed.

Oakland, Cal., July 14.—William Dwyer and seven Chinese were killed Thursday by an explosion at the Giant powder works, ten miles from here.

### DEATH ON THE RAIL.

Three People Killed and 16 Injured in a Collision of Passen-ger Trains.

Chicago, July 15.—A northbound assenger train on the Chicago & Eastern Illinois railway collided yes-terday with a suburban train at Steiger, Ill., 30 miles from Chicago. Three were killed and 16 passengers were injured.

some of the injured may die. The engines of both trains were demolished and the first coach on the suburban train was smashed. The dead:

James Lyke, engineer of suburban

George Epstein, Chicago.

Charles Horn, Crete, Ill.

The cause of the collision was an open switch which let the through train onto a siding on which the sub-urban train was standing.

That the switch which caused the wreck was opened by some one, either carelessly or with malicious intent, is the theory of the officials. Search is being made for a laborer at Steiger upon whom suspicion rests. The man disappeared soon after the wreck. A warrant has been sworn out for his arrest.

### STRUCK A SNAG.

Trial of Justice Hooker Halts Because of an Editor's Refusal to Give Information.

Albany, N. Y., July 15.—Editor-in-Chief Ervin Wardman, of the New York Press, was the storm center Friday in the state legislature. His refusal to give the reasons for his exfusal to give the reasons for his ex-pressed belief that members of the legislature had been the subject of improper influences in connection with the trial of the charges against Supreme Court Justice Warren B. Hooker produced intense excitement and the question of the disposal of his case has entirely overshadowed in incase has entirely overshadowed in interest here the charges against Justice Hooker. Incidentally the situation has raised far-reaching questions status and powers of the present joint session.

This situation developed unexpect-edly out of the desire of members of the legislature to learn who wrote an article in the Press of last Wednesday, in which it was asserted that both political pressure and "boodle" were being invoked in behalf of Justice Hooker to prevent his removal from office as a justice of the supreme

### TRADE REVIEW.

Retail Business at Many Points Exceeds Expectations.

New York, July 15 .- R. G. Dun & Co.'s Weekly Review of Trade says: Seasonable merchandise goes into consumption more freely than usual, retail trade exceeding expectations at many points, and preparations for fall and winter business is on a liberal scale, except in a few agricultural communities where there is a disposition to await definite assurances regarding the crops. The official report was more encouraging as to grain.

Manufacturing reports are irregular, the cotton industry being unsettled by the rise in raw material; woolen mills have a similar, but less ensational obstacle; footwear shops are shipping less freely, but are maintaining the higher level of prices and current dullness in pig iron does not weaken confidence in an early reumption of liberal purchases.

Failures this week were 223 in the

United States, against 225 last year, and 26 in Canada, compared with 20 a year ago.

# A RACE WAR IN GOTHAM.

Whites and Blacks Fought for Hours Before the Police Quelled the Riot.

York, July 15 .- "San Juan Hill," the district bounded by Amsterdam and West End avenues and Sixty-first and Sixty-third streets, so-called because of its notoriety as a battle-ground, was the scene last night of a furious race riot which required 250 policemen to quell after many shots had been fired and several persons

had been seriously injured.

The trouble began when a policeman arrested Edward Connolly for attacking Henry Williams, a negro, and was pursued to the station house with his prisoner by a mob of Connolly's riends hurling showers of When the station house reserves turned out the whole neighborhood was in an uproar and, whites and blacks en gaged in desperate struggles in the

# A Destructive Storm.

Detroit, Mich., July 15.—Hundreds f dollars' worth of windows were broken in this city yesterday by a ter-rific hall and rain storm. Several fires were caused by electric wires which were broken by the wind. Lightning struck a house at Oxford, Mich., and killed Miss Lizzie Dodds, a school teacher, of Toronto. Lightning also killed Douglass Hill at Shepherd,

# A Fatal Explosion.

Charleston, W. Va., July 15.—Col. George W. Patton, a prominent law-yer, was fatally burned and Mont Saunders, an employe of the county clerk's office, was badly burned Friday by an explosion of gas in a vault at the county clerk's office

# Land Owners Yield to Peasants.

London, July 15 .- The correspondent of the Standard at Odessa asserts that with a view to averting arson and murder the landed proprietors are conceding to the revolutionary peasants one-third of their crops and, in many instances, one-third of their live

# Three Trainmen Killed.

Marshalltown, Ia., July 15.—Three trainmen were killed and two more were probably fatally injured in a ireight wreck on the Iowa Central railroad near Richland, Ia., Friday.

### GOT MILLIONS IN REBATES.

A Stockholder in the Harvester Combine Makes Sensational Statements in a Lawsuit Against It.

Chicago, July 12 .-- Rodney B. Swift, formerly head of the experimental de-partment of the McCormick branch of the International Harvester Co., yes terday filed a suit against the company demanding an accounting.

Swift's connection with the company was severed some months ago, and suit was commenced against him by the officials of the company, who alleged that he had defrauded them in the sale of a patent. In his bill filed yesterday Swift, as a stockholder, demands an accounting from the com-pany, and demands that the court force the company to cease taking rebates from railroad companies, and also compel the company to return to the railroads moneys said by Swift to have been illegally extracted from the railroads in the past. Eleven railroads are also made parties to the suit.

Of the railroads made defendant in the suit two, the Chicago, West Pullman & Southern and the Illinois Northern are described in the bill filed by Swift as being the means by which tribute was exacted from the larger roads in favor of the Harvester company.

The two roads, Swift asserts, con sist principally of switch tracks. Swift declares that up to September 30, 1902, the McCormick branch of the Harvester company alone forced the railroads to pay it, through rebates and the operations of the Illinois Northern road, a sum in excess of \$3,000,000. Up to the same date, the money received in rebates by the Plano branch of the Harvester company through the agency of the Chicago, West Pullman & Southern rail. road amounted to \$500,000.

Since September 30, 1902, it is de clared that all the other railway com-panies have been making payments of rebates to the International Harvester Co. under the guise of an alleged divi sion of freight rates with the Illinois

It is further declared that the unlawful course of the directors of the corporation has damaged the Harvester company to the extent of \$5,000,000. which amount Swift demands the directors repay to the company.

The injunction demanded by Swift asks that the court prevent purchase by the company of any manufacturing plants when the purpose of the pur-chase is in whole or in part the suppression of competition.

### A NEW SPEED RECORD.

It Was Made by a Santa Fe Train
During a Run from Los Angeles
to Chicago.

Chicago, July 12 .- With every car blackened by a record breaking run from Los Angeles to Chicago, the Walter Scott special on the Santa Fe railroad arrived here at 11:54 a.m. Tuesday, having beaten all previous records by hours, as well as bettering

the special train's own schedule.

Consisting of a baggage car, diner and private llving car, the train which left Los Angeles at 1 p. m. Sunday, came into the Polk street station almost at top speed, having made the run of 2,265 miles in 44 hours and 56 minutes. This is a trifle over 23 hours faster than the time of the regular Santa Fe limited; it is three hours and four minutes faster than the original contract called for (which was 48 hours) and beats even the later schedule of 45 hours by four minutes.

The best previous time for this run

was made by the Peacock special in 1900 in a "race against death," but the record of this train by the performance consummated yesterday is beaten by seven hours and 55 minutes. Extraordinary time was made eastward from Dodge City, Kan., where the train arrived 35 minutes late. But a good roadbed, clear track and expert work by the engineer and fireman not only regained the lost time, but beat the closest and most hopeful calculation by four minutes.

# SCORES OF LIVES LOST.

Cardiff, Wales, July 12 .- An explosion of firedamp in No. 2 pit of the United National Colliery Co. at Wattstown, in the Rhonda valley, the center of the great Welsh coal fields, Tues-day morning, is believed to have resulted in the loss of 126 lives

The explosion was followed immedi ately by the belching of clouds of smoke and dust from the pit shaft, in which 150 men were working. The force of the explosion wrecked the machinery at the mouth of the pit. All communication with the doomed men in this direction is completely cut off. No. 1 shaft adjoining, has ordinarily afforded communication with No. 2. The 800 men in No. 1 and the few who

escaped from No. 2 were drawn up.

A rescue party descended, but i work was seriously impeded by the foul air and the falling masses earth dislodged by the explosion.

Altogether 68 bodies have been re-Heroic efforts were made for hours

to reach the entombed men, but late last night the absence of all sound from the interior of the mine told the tale of the worst disaster that has taken place in South Wales since 1894. Prosecutions are Expected.

Washington, July 12 .- Secretary Wilson has turned over to the attorney general all the papers in connection with the cotton leak investigation. It is intimated that this is done with the expectaton that prosecution of the persons mentioned in the report of the secret service officers will follow.

# Dowie Has Paid His Debts.

Chicago, July 12.—John Alexander Dowie yesterday had all bankruptcy proceedings against him dismissed in the United States district court by Judge Bethea.

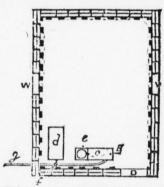

### AN UP-GROUND CELLAR.

Detailed Plans and Specifications for Building One of Them.

An up-ground cellar, properly constructed, will guard against frosts in winter and serve as a cool dairy house in summer. It avoids the toiling up and down steps of the underground cellar, and obviates the necessity for drainage in level countries where such would be impracticable.

The building blocks or square tiles

used in this plan are 8x10x16 inches, and have an extra partition through the center, thus supplying two hollow or dead-air spaces in the outer wall. The excavation for cellar should be thrown out at least two feet in depth and filled with fragments of stone finely broken. After filling six or eight inches the outer wall should be laid

CELLAR ARRANGED FOR DAIRY

up in good cement. Thus the hollow wall extends down below the frost line, and the frost will not cross in onto the

After the tile walls are laid the required height, a row of studding is placed around the inside wall (see illustration). Back of these next to the wall is placed a lining of heavy, tarred paper. These studs are lathed and heavily plastered. Plates for rafters are placed upon top of wall, and joists for ceiling spiked to these plates. Undersides of joists are ceiled with matched flooring, a lining of heavy paper, and stripped with 2x2 lath, same way joints run. Lath and plaster are applied to these, making dead-air space between plaster and flooring. Tops of joists are floored with matched material, paper lined, making two dead-air spaces. Roof may be made of shingles or other material carefully fitted to exclude air currents, and gable double boarded, all being lined with tarred

Next fill remainder of excavation with crushed stone and cement making a smooth floor level with doorsten Make stone and cement very compact to avoid cracking. A chimney in one end is a good means of ventilation and gives opportunity for a stove in extremely cold weather.

A building similar to this with two double windows and one door, placed in corner for convenience, if built 14x 16 feet and 10 feet from bottom of foundation to eaves, should cost not over \$125 to \$150. Below is a bill for a cellar 14x16x10 feet, including everything necessary: 660 building blocks 4 barrels good cement; 15 yards crushed stone; 1 door frame 28x68 inches; 2 window frames 20x28 inches; 45 studs 2x4, 9 feet long; 12 joists 2x6, 14 feet long; 2 plates 2x8, 14 feet long; 2 rafter plates 2x8, 18 feet long, allowing 4 feet for spring shed; 20 rafters 2x5, 9 feet long; 360 feet sheathing for roof; 500 feet matched flooring and siding; 3,250 shingles; 1,000 plastering lath; 75 yards plaster; 1,000 square feet building paper; 300 brick for chimney; 1 door 28x68 inches; 4 win-A Mine Disaster at Wattstown, Wales, Causes the death of 120 Men.

Chimney, 1 door 2000 and dow sash, 20x28 inches; 5 pounds spikes; 5 pounds lath nails; 15 pounds 8-d nails: 9 pounds shingle nails.

From this list the cost of erection in any locality can be ascertained. Care should be taken to have windows and doors fit closely, avoiding cracks. An extra "storm door" for winter use would be an added protection against

freezing.

The illustration may be explained thus: D, doorway; B, sink drain; c, sink; e, milk separator, where milk and cream are drawn off into vessels separator washed; d, refrigerator; f, basin conveying waste water from tank into sink drain; drain; w, window.-Ohio Farmer.

# Intensive Dairying.

In the vicinity of great cities intensive dairying must be followed. The cows must be kept in large numbers on small areas, and the product of these cows must be disposed of at a higher price than is obtainable for butter The location must to a considerable degree determine the phase of dairying that is to receive the most attention. Cream selling is one of these phases that is most accentuated on high priced land near cities.

Coal Ashes in the Current Bushes. Coal ashes should always be used as a mulch or to lighten up heavy soil. When it is applied thickly be tween the rows of currant bushes it acts as a mulch and at the same time keeps down weeds. Capillary action does not readily take place in loose ashes, and so the soil moisture below is saved for the currant bushes.

The boar should be kept some dis tance from the sows. His quarters should be strong. He should have a good clover pasture.

# WESTERN POLITICIAN WON.

Made the Secretary a Proposition Which Was Too Much for Him.

When Richard Olney was secretary of state he frequently gave expression to the opinion that appointees to the consular service should speak the languages of the countries to which they were respectively accredited, relates the Philadelphia Record

It is said that when a certain breezy and It is said that when a certain breezy and enterprising western politician who was desirous of serving the Cleveland administration in the capacity of consul at one of the Chinese ports presented his papers to Mr. Olney, the secretary remarked:

"Are you aware, Mr. Blank, that I never recommend to the president the appointment of a consul unless he speaks the lunguage of the country to which he desires to go? Now, I suppose, you do not speak Chinese?"

Whereupon the westerner grinned breed.

Chinese?"
Whereupon the westerner grinned broadly. "If, Mr. Secretary," said he, "you will ask me a question in Chinese I shall be happy to answer it."
He got the appointment.

### Arriving at a Verdict.

Arriving at a Verdict.

Kushequa, Pa., July 10.—(Special)—In this section of Pennsylvania there is a growing belief that for such Kidney Diseases as Rheumatism and Lame Back there is only one sure cure and that is Dodd's Kidney Pills. This belief grows from such cases as that of Mrs. M. L. Davison of this place. She tells the story herself as follows:—

"I have suffered from Rheumatism for thirty years and find that Dodd's Kidney Pills have done me more good than any medicine. I have ever taken. I was also bothered with Lame Back, and I can only say that my back hasn't bothered me since I took Dodd's Kidney Pills."

Considering that Mrs. Davison only took two boxes of Dodd's Kidney Pills, the result would be considered wonderful if it were not that others are reporting similar results daily. Kushequa is fast arriving at a verdict that "Dodd's Kidney Pills are the one sure cure for Rheumatism."

There never was a gasoline can standing around with its lid off, but that somewhere in the universe was some one with a lighted match looking for it.—St. Louis Globe-Democrat.

### The White River Division.

The White River Division.

St. Louis, July 8.—The White River division of the Iron Mountain Route, between Newport, Ark., and Carthage, Mo., is rapidly approaching completion, and report of representatives of the general passenger department, who recently made a complete trip over the line, indicates that through trains will be running inside of sixty days.

"While several thousand tourists have already made the trip from each end of the completed line, and we have hauled during the month of June over forty fishing parties from Carthage, who desired to make the five-day float from Galena to Branson, returning on train in 50 minutes, for the complete daylight run over the new line." said Mr. H. C. Townsend, general passenger agent, "there will be a tourist travel unprecedented over any line in this part of the country. The fishing proposition is becoming so well known that a number of club houses on the James river, between Galena and Branson, are now completed and are taxed to their capacity."

"The romantic features of the new line are naturally the ones to attract the most general attention, but the agricultural and mineral possibilities of this new region are remarkable."

"The road itself is a marvel of engineering, and the 85-pound rails, with rock ballast, promises the highest degree of speed and safety."

One of the professors says lying is unnatural and has to be learned. This may be true, but it seldom is necessary to serve a long apprenticeship.—Chicago Record-Herald.

TORTURING, DISFIGURING Humors, Eczemas, Itchings, Inflammations, Burnings, Scalings and Chafings Cured by Cuticura.

The agonizing itching and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of the scalp, as in scalled head; the facial disfigurements, as in pimples and ringworm; the awful suffering of infants, and anxiety of worn-out parents, as in milk crust, tetter and salt rheum—all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Soap, Ointment and Pills are such stands proven beyond all doubt by the testimony of the civilized world.

It is highly improbable that the world will ever again see a time when it will not consider itself on the threshold of a new era.—Puck.

# General Weakness.
