Pennsylvania THE SCHOOL-GIRLS

HONEST, PAITHFUL WORK WINS IN THE END.

The "Sketchy" Girl Must Cram for Examinations-She May Get High Marks, But Will Finally Be Distanced by Her More Conscientious Schoolmate - Perseverance Will Bring Even the Dull Girl Its Reward-A Little Study During Holidays Keeps the Mind Facile-Nature Work for Out-of-Doors.

BY MARGARET E. SANGSTER. (Copyright, 1995, by Joseph B. Bowles.) Examinations loom large in school life, because they are tests of prog-When the school year is at an end, and you look back over its course, as over a journey from one point to another, the examinations stand out in memory like milestones on the road. some schools there are weekly tests, in others reviews come monthly and in nearly every school there are halfyearly examinations which very fairly show the work that has been assigned and demonstrate the faithfulness with which it has been done.

A student whose work is fairly well performed every day, who never brings half-learned lessons to a recitation, who never shirks a task or accepts help, instead of working out problems for herself, need have no dread of examinations. They will take care of themselves. But there are girls who have an easy way of slipping through their tasks, who are not at all thorough, nor diligent, and yet who manage to seem prepared when they are just the reverse. I have known such girls, brilliant and superficial, who glanced over their work at the last moment, and hoped for an easy question, or who looked as if they knew so much that the teacher passed them over, and put her query to a duller girl in the next seat. These sketchy girls when examination time comes are obliged to "cram." They spend frantic hours in making up in a hurry what ought to have been at their fingers' ends throughout the term. They possibly pass a written examination, and send in papers that receive high marks. But in the end they will be distanced by other girls who were faithful all through.

Girls who are merely clever are like

merchants who put all their goods in the shop windows, and have nothing on the shelves. Unless we have plenty to draw from besides what we put in front for the public to see, we shall soon find our working capital exhausted, and our resources hopelessly crippled.

I wonder if you understand precisely what I mean? It is so important that a woman should in these days be equipped at every point, for her home life or her business oppor-tunities, or her profession, whatever it may be, that no girl at school can afford to waste her opportunities. You have been told over and over until the words seem but an idle tale, that you are in life's morning, that these are your best days, and that if you do not make the most of the present, will never be in your power to retrieve the loss.

Half the time you listen to this sort preaching with bored resignation, when it comes from parents and teachers. But, dear girl, it is true. The mill will never grind again with water that is passed. What you lose to-day you cannot gain to-morrow. The real value of education to girls, is that it is preparing them to take their places in the world, and to make the world better in days to come. A girl who does not make the most of more conscientious,

The shirring or rows of lace insertion. The effect in the tiny dresses is exquisite. systematically in brain and heart and body, she will have to take a back seat in the audience when others are on the platform, directing the purposes of the assembly. She will be in the rear, and the procession will finally drop her from its ranks.

I want to say something to encourage the dull girls, who have to work tremendously for all they secure. In talking one day with a noted educator, silver on white, steel on black, and silver on white, steel on black, steel on black, and silver on white, steel on black, and silver on white, steel on black, st pupils had passed, and who had made a profound study of the possibilities of young people, I was impressed with something he said. It was this: "I am not very much interested in the clever and brilliant girls who toss off their work as if it were a bagatene.

They may be trusted to achieve some good results, unless they depend too much on their native quickness, or and failures. A plodding numi their work as if it were a bagatelle who has to wage a battle for every inch of ground gained, awakens my enthusiasm and stimulates me to offer all the help that is in me. we strive for we prize, and also that steady application, with a given object in view, in the long run, is better than swift spurts, with lapses of idleness between them.

However, we are not all alike. Some of you have one method, some another. Whatever else you leave undone, I beg you never to let a day end until you have finished fully the things that belong to that day. The long va-cations which we have ought to be put to good use by school girls, partly in view of next year's work, and partly because it is absurd to drop wholly for one fourth or one sixth of

The summer holiday is not in the least too long for the teacher, but it is much too long an interval for girls who wish to make the most of the flying years, to spend in entire idleness. Why not take two hours every day and devote them to some earnest study which will keep the mind facile, and help you along an-other year? Why not get up examination papers of your own? If you like and if you have no conditions, to oc-cupy you before you pass to a higher grade, a good plan may be to take hold of some study that will keep you much out of doors. The woods and fields are full of flowers. The brook and river wave with flags and rushes. Up the hill slopes climb the wild roses, beside the fence blaze the tiger lilies, over the stone wall riots the vine, and every tree and bush and shrub is a whole school of natural his-

Whether you pass your examinations in school with credit or not, sit down now at Mother Nature's feet and learn of her. Do not be discouraged if you have been surpassed by somebody else. Do your best, and leave the rest. If at first you don't succeed, try, try again.

Especially for Women.

Champion, Mich., July 24th.—(Special).
—A case of especial interest to women is that of Mrs. A. Wellett, wife of a well-known photographer here. It is best given in her own words.

"I could not sleep, my feet were cold and my limbs cramped," Mrs. Wellett states. "I had an awful hard pain across my kidneys. I had to get up three or four times in the night. I was very nervous and fearfully despondent.

"I had been troubled in this way for five years when I commenced to use Dodd's Kidney Pills, and what they caused to come from my kidneys will hardly stand description.

"By the time I had finished one box of Dodd's Kidney Pills I was cured. Now I can sleep well, my limbs do not cramp, I do not get up in the night and I feel better than I have in years. I owe my health to Dodd's Kidney Pills."

Women's ills are caused by Diseased Kidneys; that's why Dodd's Kidney Pills always cure them.

This great remedy for women has done more in the way of restoring health to the women of America than all other medicines put together. It is the safeguard of woman's health.

Following we publish, by request, a letter from a young wife. Mrs. Bessie Ainsley of 611 South 10th

Street, Tacoma, Wash., writes Dear Mrs. Pinkham:-

Dear Mrs. Pinkham:—

"Ever since my child was born I have suffered, as I hope few women ever have, with inflammation, female weakness, bearing-down pains, backache and wretched headaches. It affected my stomach so that I could not enjoy my meals, and half my time was spent in bed.

and that cure is Lydia E. Pinkham's Vegetable Compound. Take no substitute.

If you have symptoms you don't understand write to Mrs. Pinkham, Lynn, Mass., for special advice—it is free and always helpful.

"Lydia E. Pinkham's Vegetable Compound made me a well woman, and I feel so grate-ful that I am glad to write and tell you of my marvelous recovery. It brought me health, new life and vitality."

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Ainsley it will do for every woman who is in poor health and ailing.

Its benefits begin when its use begins. It gives strength and vigor from the start, and surely makes sick women well and robust.

Remember Lydia E. Pinkham's Vegetable Compound holds the record for the greatest number of actual cures of the greatest number of actual cures of woman's ills. This fact is attested to by the thousands of letters from grate-ful women which are on file in the Pinkham laboratory. Merit alone can produce such results.
