NO MORE HEADACHE
GENERAL WEAKNESS AND FEVER
DISAPPEAR TOO.

How a Woman Was Freed from Troubles
That Had Made Life Wretched for
Many Years.

The immediate causes of headaches
vary, but most of them come from poor
or poisoned blood. In anemia the blood
is scanty or thin; the nerves are imper-
fectly nourished and pain is the way in
which they express their weakness. In
colds the blood absorbs poison from the
mucous surfaces, and the poison irritates
the nerves and produces pain. In rheu-
matism, malaria and the grip, the poison
in the blood produces like discomfort. In
indigestion the gases from the impure
matter kept in the system affect the
blood in the same way.

The ordinary headache-cures at best
give only temporary relief. They deaden
the pain but do not drive the poison out
of the blood. Dr. Williams' Pink Pills
on the contrary thoroughly renew the
blood and the pain disappears perman-
ently. Women in particular have found
these pills an unfailing relief in head-
aches caused by anemia.

Miss Stella Blocker recently said: "Dr.
Williams' Pink Pills did me a great deal
of good. I had headache nearly all the
time. After I had taken three boxes of
these pills I became entirely well."
"How long had you suffered?" she
was asked.

"For several years. I can't tell the
exact date when my illness began for it
came on by slow degrees. I had been
going down hill for many years."
"Did you have any other ailments?"
"I was very weak and sometimes I had
fever. My liver and kidneys were af-
fected as well as my head."
"How did you come to take the reme-
dy that cured you?"

"I saw in a southern newspaper a
statement of some person who was cured
of a like trouble by Dr. Williams' Pink
Pills. My physician hadn't done me any
good, so I bought a box of these pills.
After I had taken one box I felt so much
better that I kept on until I became en-
tirely well."
Miss Blocker's home is at Leander,
Louisiana. Dr. Williams' Pink Pills are
sold by all druggists. Besides headache
they cure neuralgia, sciatica, nervous
prostration, partial paralysis and rheu-
matism.

CURRENT CONDENSATIONS.

The number of insane in London ex-
ceeds 20,000.
Rifle bullets are now photographed
in their course by means of the elec-
tric spark.
The Michigan, "Old Ironsides," the
only United States warship in fresh
water, will be dismantled.
The locomotives on the new fast ex-
presses between Cologne and Berlin
are built after the American pattern.
The Jews celebrate this year the
two hundred and fiftieth anniversary
of their settlement in the United
States.
By buying tea in packets it is cal-
culated that in 1903 the British public
paid tea prices for 5,988,648 pounds of
paper and twine.
Addressed on the gummed side, a
postage stamp, says the Dundee Adver-
tiser, has been delivered at Fife, Scot-
land, as a letter.
The water is so clear in the fjords
of Norway that objects one and one-
half inches in diameter can be distin-
guished at a depth of 150 feet.
Electro-plated lace may yet be the
fashion. A French writer says that a
complete set of ecclesiastical vest-
ments has been made at Lyons of these
plated laces, and suggests that society
people adopt them for ball dresses.

When Children Are Truthful.
"My little boy never tells a lie."
"Aw, come off!"
"When there are visitors present.
Wait until I finish, can't you?"—Cour-
rier-Journal.

EVER TREAT YOU SO?
Coffee Acts the Jonah and Will
Come Up.

A clergyman who pursues his noble
calling in a country parish in Iowa,
tells of his coffee experience:
"My wife and I used coffee regu-
larly for breakfast, frequently for din-
ner, and occasionally for supper—al-
ways the very best quality—package
coffee never could find a place on our
table.
"In the spring of 1896 my wife was
taken with violent vomiting which we
had great difficulty in stopping.
"It seemed to come from coffee drink-
ing, but we could not decide.
"In the following July, however, she
was attacked a second time by the
vomiting. I was away from home
filling an appointment at the time, and
on my return I found her very low;
she had literally vomited herself al-
most to death, and it took some days
to quiet the trouble and restore her
stomach.
"I had also experienced the same
trouble, but not so violently, and had
relieved it, each time, by a resort to
medicine.
"But my wife's second attack satis-
fied me that the use of coffee was at
the bottom of our troubles, and so we
stopped it forthwith and took on
Postum Food Coffee. The old symp-
toms of disease disappeared, and dur-
ing the 9 years that we have been
using Postum instead of coffee we have
never had a recurrence of the vomit-
ing. We never weary of Post-
um, to which we know we owe our
good health. This is a simple state-
ment of facts." Name given by Post-
um Company, Battle Creek, Mich.

Wellville," in each pkg.

UNIQUE LAMB TROUGH.
Swinging Device Recommended by a
Correspondent of the Breed-
er's Gazette.

There are a good many ways of plac-
ing grain before lambs in order to fos-
ter their growth, but the accompany-
ing illustration will give a new idea
to many readers. This device is skill-
fully designed to play upon the inquisi-
tive nature of the lamb. He notices the
swinging movement and in investigat-

ing is lead to taste the ground feed
placed there for him. The man who
designed the plan says that it works
with marked success. In addition to
this feature there is the minimum
danger of the grain becoming fouled in
any way. In a late issue of the Breed-
er's Gazette a correspondent gives the
following directions for construction:
Take two pieces of lumber, say two
by four's, each six feet long, allowing
two feet to go into the ground; on top
of these two timbers is placed a four
by four, as seen in the sketch. Sus-
pend two wires from timber, B, fasten
to trough as shown, a. Let the
trough hang 18 inches from the
ground.

BEDDING FOR HORSES.
Needed in the Summer Time Just as
Much as During the Winter Months.

Some horse owners seem to think
that because it is summer and no heat
is needed that a horse can be comfort-
able without bedding. Such men ought
to try sleeping on the bare springs of
their beds for a while, says the Mid-
land Farmer. Is is no waste of mat-
ter to make the bed of the horse as
comfortable during the summer as in
the winter; it is not necessary to be so
liberal with the straw as on a cold
night, but there should be enough so
that the bed is comparatively soft.

If one wishes to economize try the
plan of buying a load of shavings (the
short ones), from a planing mill and
use these in the stall several inches
deep, then cover them with the long
straw or other material used. It re-
quires less straw and the shavings will
absorb much of the liquid excrement.
By using them liberally a top layer
may be removed and the rest will do
for a night or two. Do not, however,
use these shavings too freely in the
manure pile. Some will not injure the
manure, but will act as an absorbent.
If one has too many shavings to put in
the manure pile, use the cleanest of
them in the hog pen or in the corner
of the hog yard where the animals lie
during the day; in this way they will
be converted in the hog droppings to
good fertilizer and without injury to
the hog manure.

THE ORPHAN COLT.
Suggestions as to the Care of the
Foal When the Brood-
Mare Dies.

If one is unfortunate enough to lose
a brood mare at foaling time, and he
has an orphan colt on his hands, the
question is how to raise it. A couple
of suggestions may be in order. First,
the milk of the mare is much sweeter
than that of the cow, nature providing
for the young thing the kind of food
best adapted to its development, says
Midland Farmer. Cow's milk, there-
fore, when fed to the orphan colt,
should have a tablespoonful of white,
granulated sugar added to each quart.
As a matter of course the sugar should
be dissolved in hot water before it is
added to the milk, but do not use more
water than necessary. Every farmer
knows that the colt takes a little milk
at a time and takes it often. If there-
fore, the farmer is compelled to raise
an orphan colt, he should adopt na-
ture's method and feed it about as
often as it naturally feeds itself when
running with the dam.
One of the most convenient ways is
simply to take an old teapot and put
a kid glove on the spout, puncturing
the glove full of holes. After the first
few days the time between drinks may
be lengthened just as it is when the
colt raised by the dam is left in the
stable after she has gone to work in
the field. It goes without saying that
all milk fed to young things should be
given at about the same temperature
as that of the dam, say at about 100
degrees.

Dipping Sheep.
Dipping sheep as a remedy for ticks
is the subject of a bulletin just issued
by the Minnesota experiment station.
Lambs suffer most from the ticks just
after the older sheep have been
sheared, as they then leave the sheep
and take refuge on the lamb. It is
roughly estimated that a tick will take
from a lamb four drops of blood per
day, or possibly one-fifteenth of a fluid
ounce. As many as 100 ticks can be
found sometimes upon one lamb. If
only half that number be taken the
result would be 200 drops of blood be-
ing sucked from the lambs daily.

WHAT SHE WOULD TAKE.
Something That Would Enable Her
to Escape Those Hash-
ery Jokes.

"Gimme a little cold polar bear," said
the man in the basement restaurant to
the waitress who, having brought him a
glass of water, had stopped to get his
order, relates the Chicago Tribune.
"Polar bear's all out," she replied, with
a far-away gaze that went past his head
without seeing him.
"Got any jeeed watermelon?"
"Yeh. Want some?"
"No, not if you've got it. How about
that pickled tongue?"
"S'all right. Du want that?"
"Not any for mine. I'm married. Well,
I don't see anything here on this bill that's
old enough for a hot day in July, except
hot pancakes and coffee. Hurry 'em along,
will you? They are bound to be cold by
the time I get 'em."
The waitress swept away, still without
seeing the customer. He called her back.
"Here," said the customer, "that was
just a joke. I want a boiled dinner.
What'll you take to laugh the next time
I get funny?"
"Chloroform," said the waitress, as she
started for the kitchen.

Voice from Arkansas.

Cleveland, Ark., July 31st. (Special).—
Nearly every newspaper tells of some won-
derful cure of some form of Kidney Disease
by the Great American Remedy, Dodd's
Kidney Pills, and this part of Arkansas
is not without its share of evidence that
no case is too deeply rooted for Dodd's
Kidney Pills to cure.
Mr. A. E. Carlike, well known and highly
respected here, tells of his cure after nearly
a quarter of a century's suffering. Mr.
Carlike says:
"I want to let the public know what I
think of Dodd's Kidney Pills. I think
they are the best remedy for sick kidneys
ever made.
"I had Kidney Trouble for 23 years and
never found anything that did me so much
good as Dodd's Kidney Pills. I recom-
mend them to all sufferers.
There is no uncertain sound about Mr.
Carlike's statement. He knows that
Dodd's Kidney Pills rescued him from a
life of suffering and he wants the public
to know it. Dodd's Kidney Pills cure all
Kidney ills from Backache to Bright's
Disease.

On His Track.
"Pa," asked the senator's little boy,
"what is a 'nemesis'?"
"A 'nemesis,' my son," replied the sen-
ator, wearily, "is a female office-seek-
er who, in a moment of foolish kind-heart-
edness, promises to assist."—Catholic
Standard and Times.

ULCERS FOR THIRTY YEARS.
Painful Eruption from Knees to
Feet Seemed Incurable Until
He Used Cuticura.

Another of those remarkable cures by
Cuticura, after doctors and all else had
failed, is testified to by Mr. M. C. Moss,
of Gainesville, Texas, in the following
letter: "For over thirty years I suf-
fered from painful ulcers, and an eruption
from my knees to feet, and could
find neither doctors nor medicine to help
me, until I used Cuticura Soap, Oint-
ment and Pills, which cured me in six
months. They helped me the very
first time I used them, and I am glad
to write this so that others suffering as
I did may be saved from misery."

We never could understand why the
girl who puts up lettuce leaf sandwiches
for the picnic gets married sooner than
the one who prepares the satisfying ones
of ham and mustard.—Chicago Tribune.

Fine Opportunity for Agents.
The Perry Nursery Co., Rochester, N. Y.,

KIDNEY TROUBLES
Increasing Among Women, But
Sufferers Need Not Despair

THE BEST ADVICE IS FREE

Of all the diseases known, with which
the female organism is afflicted, kidney
disease is the most fatal, and statistics
show that this disease is on the increase
among women.

Unless early and correct treatment is
applied the patient seldom survives
when once the disease is fastened upon
her. Lydia E. Pinkham's Vegetable
Compound is the most efficient treat-
ment for kidney troubles of women,
and is the only medicine especially
prepared for this purpose.

When a woman is troubled with pain
or weight in loins, backache, frequent,
painful or scalding urination, swelling
of limbs or feet, swelling under the
eyes, an uneasy, tired feeling in the
region of the kidneys or notices a brick-
dust sediment in the urine, she should
lose no time in commencing treatment
with Lydia E. Pinkham's Vegetable
Compound, as it may be the means of
saving her life.

For proof, read what Lydia E. Pink-
ham's Vegetable Compound did for Mrs.
Sawyer.

"I cannot express the terrible suffering I
had to endure. A derangement of the female
organs developed nervous prostration and a
serious kidney trouble. The doctor attended
me for a year, but I kept getting worse, until
I was unable to do anything, and I made up
my mind I could not live. I finally decided
to try Lydia E. Pinkham's Vegetable Com-
pound as a last resort, and I am to-day a well
woman. I cannot praise it too highly, and I
tell every suffering woman about my case."
Mrs. Emma Sawyer, Conyers, Ga.

Mrs. Pinkham gives free advice to
women; address in confidence, Lynn,
Mass.

The Secret of Good Coffee

Even the best housekeepers cannot make a good cup of
coffee without good material. Dirty, adulterated and queerly
blended coffee such as unscrupulous dealers shovel over their
counters won't do. But take the pure, clean, natural flavored
LION COFFEE, the leader of all package coffees—
the coffee that for over a quarter of a century has been daily
welcomed in millions of homes—and you will make a drink fit
for a king in this way:

HOW TO MAKE GOOD COFFEE.
Use LION COFFEE, because to get best results you must use the best coffee.
Grind your LION COFFEE rather fine. Use 1/2 tablespoonful to each cup, and one
extra for the pot. First mix it with a little cold water, enough to make a thick paste, and
add white of an egg (if egg is to be used as a settler), then follow one of the following rules:

1st. WITH BOILING WATER. Add boiling water, and let it boil
THREE MINUTES ONLY. Add a little cold water and set aside five
minutes to settle. Serve promptly.

2d. WITH COLD WATER. Add your cold water to the paste and
bring it to a boil. Then set aside, add a little cold water, and in five
minutes it's ready to serve.

3 (Don't boil it too long.
Don't let it stand more than ten minutes before serving.
DON'TS (Don't use water that has been boiled before.
TWO WAYS TO SETTLE COFFEE.

1st. With Eggs. Use part of the white of an egg, mixing it with the ground LION
COFFEE before boiling.

2d. With Cold Water instead of eggs. After boiling add a dash of cold water, and set
aside for eight or ten minutes, then serve through a strainer.

Insist on getting a package of genuine LION COFFEE,
prepare it according to this recipe and you will only use
LION COFFEE in future. (Sold only in 1 lb. sealed packages.)
(Lion-head on every package.)
(Save these Lion-heads for valuable premiums.)

**"Where Ignorance Is Bliss
'Tis Folly to Be Wise"**

In some parts of the world they still
use a sharp stick and a cow to plough
their fields and goodness only knows
how they can ever make a thick paste, and
agriculture pay, even where labor is
cheap.

In many parts of this glorious up-
to-date country the women still make
abject slaves of themselves over the
wash-tub, the same as their great,
great grandmothers did more than a
century ago.

In the one instance, the antiquated
heathen doesn't know a plough from a
pumpkin and would be afraid to use
one if he did.

On the other hand, what shall we
say of a woman of the present day who
clings to the old method of washing
clothes when the small sum necessary to
buy a Majestic Rotary Washing
Machine will save her labor, time,
money and fatigue and give the most
absolute satisfaction in every way.

Write for a circular to The Rich-
mond Cedar Works, Richmond, Va.
