A CAVE-IN AT A QUARRY

TEN TO SIXTEEN MEN CAUGHT IN THE COLLAPSE NEAR GRANVILLE, N. Y.

MEN WERE KILLED

Among the Dead Is J. B. Williams, President of the Company, the Others Being Hungarian Laborers - Foreman Probably Fatally Hurt.

Troy, N. Y., Oct. 7.—Ten mcn were killed yesterday by a cave-in at the Vermont Slate Co.'s quarry about 2½ miles from Granville, N. Y. Among the dead is J. G. Williams, president of the company. The others were Hungarian laborers.

Revised figures show that there were from ten to 16 men in the quarry when the collapse occurred. It will take from one to two weeks to dig out the entombed men. Immediately after the first collapse a second one took place which damaged the machinery of the quarry. Frazer Queen, the fore-man, who was rescued, was taken to the Albany hospital, where one of his legs will be amputated. When he was found he was trying to dig his way out. His condition is said to be seri-

The cave-in was such as occurs frequently in the quarries which abound in southern Vermont, but usually they happen in the night or give sufficient warning for all to escape. This one caught a gang of men unawares and they were almost instantly buried before they could escape. The material which fell was mostly what is known as waste and several hundred tons comprised the great slide which buried the men. Mr. Williams, president of the company, was on the pile when it fell and was not buried deep, nor was his body badly disfig uren, but he was crushed internally.

WEEKLY CROP BULLETIN.

Excellent Conditions Prevail Every. where-Large Yield of Corn Is Assured.

Washington, Oct. 4.-The weekly crop bulletin of the weather bureau summarizes crop conditions as fol-

The weather conditions of the week ending October 2, as a whole, were exceptionaly favorable to agricultural interests. Under the influence of warm and generally dry weather throughout the central valleys, lake region and the central valleys, take region and Atlantic coast districts, late crops matured rapidly. Frosts occurred in the middle Rocky Mountain districts and in the upper Ohio valley, lower lake region and northern portion of the middle Atlantic states, but caused no serious interv serious injury.

Highly favorable weather prevailed throughout the principal corn states. An exceptionally large and fine yield of corn is now assured over much of the greater part of the corn belt.

A light apple crop is reported nearly everywhere, only a few unimportant apple-producing states indicating sat-

isfactory yields.
Owing to the extensive prevalence of blight and rot in the principal po-tato producing states a light crop of potatoes of inferior quality is generally promised. The fall season has so far been exceptionally favorable for plowing and seeding in the central valleys, lake region and middle At-lantic states. Columbus, O., Oct. 4.—This sum-

mary of conditions of crop in Ohio for the week ending October 2, has been issued by Section Director J. Warren

The first of the week was very cool and light frosts were general. and light trosts were general. The weather was very favorable for the ripening of corn, curing of tobacco and farm work. Corn has network weak resulting the corn of the second resulting the corn of the second resulting the second resultin matured very rapidly and most of the crop has been cut. The seeding of wheat has progressed very rapidly and the work has been completed in many districts. Pastures are in good condi-tion, except in the extreme northwest and southeast. The cloverseed yield is poor in nearly all places. The weather has not been favorable for potatoes and the crop is poor.

Passenger Train Held Up by Masked Men Near Seattle, Wash.

St. Paul, Minn., Oct. 4.—General Manager D. S. Elliott, of the Great Northern Express Co., made the following statement yesterday afternoon regarding the hold-up of the Overland passenger train Monday night near

"Our train leaving Seattle for St. Paul Monday night at 8 o'clock was held up by masked men between Metum and Richmond Beach, about ten miles north of Seattle, on the shore of Puget Sound. Two men evidently got on the front of the mail car at a railroad crossing stop and very soon after went into the cab of the engine, held up the engineer and fireman, requiring the engineer to stop the train at a given point, where they were met by probably three others who joined the party and forced the engineer and fireman at the points of revolvers to require the express messenger to open the car door.

"The messenger was then forced to leave the car. Some of the robbers got into the car and wrecked the safe by the use of dynamite, using three charges, so we are informed. Such of the contents of the safe as were not damaged by the explosion were taken by the robbers, who, it is supposed, had a boat handy to carry them away. There was very little money taken, be-ing all small remittances and amount-ing to less than \$1,000. The passengers were not molested, no one was hurt and no damage done to the bag-

President of the New York Life Says Three-quarters of the Bills Affecting Life Insurance Companies Were in the Nature of Blackmail.

New York, Oct. 5.-That John R Hegeman, president of the Metropolitan Life Insurance Co., borrowed \$50,000 from the New York Life Insurance Co. at 1½ per cent. interest, a rate below the market rate, was brought out in the insurance investi-gation last week, but yesterday Pres-ident John A. McCall, of the New York Life Insurance Co., testified that he in turn borrowed \$75,000 from the Metropolitan at the same rate.

Mr. McCall resuming, was asked about a deposit to the credit of Judge Hamilton of \$162,041 on September 1, 1905. Mr. McCall said the New York Life Insurance Co. had paid Mr. Hamilton no money, but suggested that part of it might have come from the state controller's office by reason of an assignment of tax moneys which would come to the judge by reason of his securing the repeal of the tax law which relieved the New York Life from payment of taxes.

President McCall also testified that the New York Life Insurance Co.'s ex penses for legal services from June 1, 1900, to August 31, 1905, were \$1,103, Of this amount Mr. McCall said

Earlier in the day Mr. McCall, in detailing the general legislation work of Judge Hamilton and the counsel he employed, denied any knowledge of the legislative pool which was disclosed in the examination of Alfred W. Mr. McCall on this question made the startling assertion that three-quarters of the bills affecting life insurance ompanies were in the nature of
